Desirous that every physician may have opportunity to make trial of

Duncan, Flockhart & Co.'s Capsules

I am instructed by MESSRS. D., F. & Co. to send working sample to every physician making application for same. Full List of Capsules will be forwarded at same time.

R. L. GIBSON

30 Wellington St. East, Toronto.

Protonuclein.

The normal Tissue-builder and antitoxic principle of the animal organism, obtained from the lymphoid structures of the body by direct mechanical and physiological processes.

The power of Protonuclein to support the organism and resist toxic germs has been proven by most careful experiments under direction of the highest authorities in the Hospitals of New York and other parts of the country.

THERAPEUTIC USES.

Protonuclein is indicated in all conditions where there are toxic germs to be destroyed and where the organism is below the normal physiological standard. It rapidly restores the vitality of all the tissues by stimulating and supporting assimilative nutrition.

Send for Samples and Literature.
