

Interior of an Enclosed Porch at Wilmington, Del.

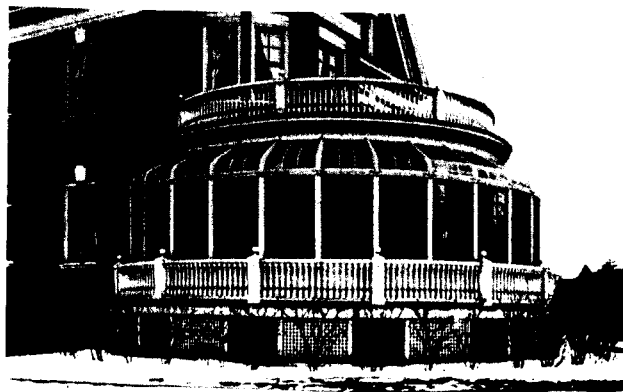

## Conservatories and Glass Enclosed Porches

**T**HIS building of conservatories and attractively enclosing of porches is no mere carpenter's job; it is work for men skilled in handling such propositions. As greenhouse builders of half a century's standing, we are the logical concern to manufacture, erect and equip glass structures of a like nature.

To this end we seek to co-operate freely with the Canadian Architects. We are now a Canadian Company with the main office in Toronto. One of our representatives will gladly come to your office to confer with you. If you have failed to get one of our catalogs, we suggest that you send for one for your files.

Exterior Without Enclosure.

Exterior Enclosed.
