should bear in mind that it is
by selecting only the very best
risks, and giving them the best
policies that can be devised that
THE TEMPERANCE AND GENERAL
LIFE ASSURANCE COMPANY expects
to be the best company for the best
risks.

Its very low death rate indicates
its care in the selection of its risks.
Its policies are all that the utmost
care can make them as absolutely
equitable contracts between the
company and its various risks.

Its record with regard to invest-
ments is unequalled.

These features constitute it the
BEST COMPANY for the BEST RISKS.
Correspondence is solicited.
