<b>Tables</b>	
<b>20</b>	I Discrepant cases
<b>51</b>	II What makes an immediate deterrence encounter?
<b>55</b>	III Deterrence outcomes
<b>66</b>	IV Deterrence matrix Stein-Lebow matrix

---

The monograph begins with a survey of the selection and coding of data used by a considerable number of deterrence studies and identifies their conceptual and empirical weaknesses. The authors then build on this critique, reformulate deterrence theory and elaborate a research programme to test its empirical validity.
