

2.2.2 CBS separations by occupational group and employment category

Chart 24 provides a breakdown of separations for reasons other than retirement among Canada-based staff by employment category and occupational group:

- 89.4% of Canada-based staff separations were from non-rotational employees (185), and 10.6% from rotational employees (22).
- Separations among rotational employees for reasons other than retirement were recorded in the following groups: AS (7 separations or 31.8%), CR (2 separations or 9.1%), EL (1 separation or 4.5%), EX (3 separations or 13.6%), and FS (9 separations or 40.9%).
- Most separations among non-rotational employees were observed in the following groups: AS (35 separations or 18.9%), CR (25 separations or 13.5%), and PE (18 separations or 9.7%).
