# BELCHER'S MAP OF NOVA-SCOTIA,

SECOND EDITION. Corrected to 1855.

FOR SALE AT ALL THE CITY BOOKSTORES.

With the lines of proposed RAILWAYS through the Province laid down, and also the Routes and Stations of TELEGRAPH LINE.

This is the largest and only correct Map published of the Province. It has been revised and corrected, and the new Counties and Townships formed since its first publication accurately laid down, together with the lines of proposed RAILWAYS through the Province, and the routes and stations of the TELEGRAPH LINE. And may be had, mounted on cloth and rollers, colored and varnished, for the Office, the Library or Hall, 22s. 6d.; and on cloth, colored, in neat case, for the Pocket for Travelling, 18s. 9d.; and on blue paper, same as a chart, 8s. 9d.

C. H. BELCHER, Publisher.

## OPINIONS OF THE PRESS.

"We notice with much pleasure the appearance of a second Edition of BELCHER'S Map of NOVA-SCOTIA. This Map, originally compiled in 1834 from actual surveys, by William McKay, has now been revised, and corrections down to the present year have been carefully introduced. We observe that the projected lines of Railway are marked out, and the routes and stations of the Telegraph Line are also indicated. A late Edition of a correct Map is one of the most desirable possessions. We bespeak, therefore, a speedy and extensive sale for Belcher's Map of Nova-Scotia."—[Provincial Wesleyan.

"BELCHER'S MAP OF NOVA-SCOTIA.—Good Office-Maps of our own Province have, for some years past, been in great demand; but we have not this want to complain of any longer, now that a second Edition of Belcher's excellent Map is in the market. This is a great improvement upon the old one. Errors which must have been all but unavoidable at the time the Map of 1834 was published, and which became more apparent as the interior of the country came to be better known, have in this Map been, for the most part, carefully corrected. Not the least valuable of the many additions made, is the laying down of the several lines of Railway lately surveyed, and the courses of the Telegraph lines and the marking out of localities where the Telegraph office is situated. The corrections and improvements reflect much credit on the draughtsman, and must have cost him no small amount of labor. The execution of the work is, in the highest degree, admirable."—[Acadian Recorder.

"BELCHER'S MAP OF NOVA-SCOTIA.—A second edition of which has just been published, is a work that should be in every house in the Province. Besides being correct, it is on a much larger scale than any other Map of the same kind, being 5 feet 2 inches by 2 feet; and as set forth in the advertisement which appears in another column, it has been revised and corrected, and the new Counties and Townships formed since its first publication, accurately laid down, together with the proposed Railways through the Province, and the routes and stations of the Telegraph line."—[British Colonist.

"BELCHER'S MAP OF NOVA-SCOTIA.—A copy of the second edition of this very superior Map, corrected to October, 1855, has been received. At the present important epoch in our Province, when even the most skeptical cannot fail to be convinced that this country is turning the corner beyond which lies the fair way of Provincial prosperity, such a reference as the one before us is invaluable. In addition to the boundaries, &c. of the several Counties of Nova-Scotia proper, and the routes of the Railway already projected, it includes the Island of Cape Breton and the proposed improvements in that interesting locality, all of which have been compiled from the most careful surveys and the latest arrangements. No person interested in the country who can afford the cost, should be without a copy. William McKay, of this City, is the Draughtsman; William Neale & Co., London, are the engravers; and this Map, the result of their united labors, may be purchased at all the Bookstores in Halifax."—[Morning Chronicle.
