

New Freshmen Athletic Rule in Force at Varsity

FRESHMEN MAY PLAY RUGBY AT VARSITY

New Ruling Promulgated by Athletic Directorate—to Maintain Amaterism.

Freshmen at Varsity are on the same footing in athletics as sophomores, juniors or seniors, according to the ruling handed out yesterday by the athletic directorate. It is a rigid article, and insists that all players must be bona-fide students first, and if they keep up their work in the classes they may participate in Rugby or other forms of senior athletics at Varsity. A man enters by matriculating, and according to the ruling some three years ago, when he was a sophomore, and eligible for the team as a sophomore, and so on through his third and fourth years.

The following is the statement issued by the athletic directorate with regard to the "freshman rule," which formerly compelled students in their first year from participating in senior intercollegiate contests.

In consequence of representations made to the directorate by many representative athletic bodies, the directorate has been compelled to reopen the question of maintaining the freshman rule, much adverse criticism has been expressed by different representative bodies connected with the university, on the ground that the rule imposed unnecessary penalties upon individuals and casts a stigma on the freshman year as a whole. And further, because no adequate provision has been made for senior freshmen players in certain lines of athletics, in consequence of this restriction it has been found that an undue strain has been placed upon the loyalty of the various athletic club executives, and the directorate after full consideration, and after discussion with the advisory board of the association, proposes to substitute fresh regulations for the existing rule.

These rules will not be ready for publication until they have undergone further detailed consideration, but the principle that it is proposed to put into operation is that instead of penalizing all freshmen, any undergraduate of whatever standing will be suspended if he fails to satisfy the academic tests and requirements imposed by the university in his academic course.

In making this announcement, the directorate wishes to record its firm determination to maintain unimpaired and by every means within its power the high standards of amateurism now established in Varsity athletics, and to resist all infringements of the strict principle of amateurism. The new rule will be devised for the purpose of maintaining this principle, and with the object of preventing the undue strain placed upon the loyalty of the various athletic club executives, and the directorate after full consideration, and after discussion with the advisory board of the association, proposes to substitute fresh regulations for the existing rule.

Will that Ottawa betting contingent ever open its eyes? The Herald. Last year they gave fairly good odds when the Tigers swooped down on the parliament buildings. The new rule, a team that is admittedly much faster than any they have ever seen, are taking the odds for the future. They are game betters. Some of the top willing Hamiltonians should think that they are giving them anything like odds.

Hamilton Times: The fact about Father Stanton not being satisfied with the two or three of the Alert players was clearly evidenced when Eddie Fisher, the fast flying wing of last year's Alert team, and the boy who most impressed the fans at Ottawa, was named as a back for the Capital City, where he will play on Saturday morning in the government buildings and will also play against the Tigers on Saturday afternoon. Fisher decided to pass up the offer, but according to rumors, he received communications from the Capital City many times, that he decided to cast in his lot with the Rough Riders.

There still remains in Hamilton the following players who would prove a welcome addition to any senior squad: "Red" Harper, the best quarter-back in Canada; Spence, a good wing player; Jack Knipe, a sturdy and reliable wing with much experience; "Red" Flannery, "Red" Fitzpatrick and Fickley, all outside wings; Diney, McCarty and Husky Craig, both old-timers, but still with some ability left, and Snootie Ireland.
