DON ROAD FARMERS | WESTON COUNCIL PRESENT PETITION

Want Township Council to Get Estimate for Don Bridge.

Property Owner Threatens Action Over Valley Road Drainage.

The property owners and ratepayers of the Don section of East York petitioned the York Township Council yesterday to ascertain the probable cost of a bridge across the west Don, alongside the C. P. R. and to consult the various railways and municipalities interested with a view to having such work undertaken. Frank Barber, engineer, said he had worked out an assessment of one cent per foot frontage. The owners of 3000 acres of land would pay a tax of three and a half dollars an acre for a period of forty years. The council decided to call a special meeting some day next week to discuss the matter fully.

Threaten Action.

A communication was read from Alexander Kennedy threatening legal action if a proper drainage was not made on Valley road, where the water had rendered his property useless for selling or building purposes.

Not a Street.

The residents of Woodville avenue, east of Pape, petitioned the council for a street and house lighting system. They claim that their street is the only one in the district without lights. The council held that Woodville avenue was not a street, so took no action.

Unregistered Property.

A deputation from the Progressive Ratepayers of Cedarvale asked that the property between Cedarvale and Woodbine avenues be registered, as those who bought the property could not get a mortage on it. The clerk stated that Messrs. Hynes and Grant, the property agents, in a letter received yesterday, had promised to register as soon as possible, but added that this promise had been made many times and never fulfilled.

The township solicitor will see that the property is registered or action will be taken.

Sewers First.

A committee was appointed to combine with the fair board in making arrangements for the use of the grounds for athletic sports by the young men of the districts, in order that there might be no trouble thru different clubs wanting the use of the grounds at the same hour.

The application for a poolroom license was laid over for further consideration. There were a number of people interested in the matter present, but the council did not discuss the matter last night.

The Weston Band was entertained to a banquet by John Bayliss, J.P., on Saturday at his home on Lambton avenue. Mr. Bayliss was presented with a fine badge in appreciation of his assistance during the past six years.

"When the act is printed, I have every confidence that it will be acceptable to both manufacturers and operators," concluded Mr. Henry.

Technical School.

Dr. Steele, the next speaker, was in a humorous mood, and commenced by regaling his hearers with the latest jokes. Regarding the situation of the technical school in the district, he thought that the best location was on Greenwood avenue. He stated that seven more rooms were to be added to the Leslie Street School.

at Meeting.

The next meeting of the Ward Seven Ratepayers' Association, which will be held in the Annette Street School on April -1/2, promises to be an interesting one for west end citizens. Controller McCarthy has accepted the invitation of the association to be present, and will address the members on transportation as applied especially to West Toronto. It is expected that Mayor Hocken will also be present. R. Home Smith has signified his intention of attending the meeting, and will submit some car routes of his own which he considers necessary for the growth of the west end.

"Interesting Address.

"The Story of the Cross," an illustrated address, particularly suitable for holy week, was given by W. Johnstone, the president of the Young People's Association of St. John's Church, last evening, in the parish house. Several beautiful colored slides illustrative of the subject, were shown.

J. Russell wanted the new ridings resulting from redistribution to be exactly the same for the provincial as well as the federal houses.

President's Address.

The honorary president of the association, J. A. McDonald, K.C., was greeted with thunderous applause, and referred to the days when the Midway Conservatives met in a tent near Coxwell avenue. Mr. McDonald then went on to speak of the trouble which was brewing in the province over the bilingual uestion.

the trouble which was brewing in the province over the bilingual uestion.

"A system of French encroachment is going on at the present time," he said.

"The French are coming up from Quebec and bringing their language with them. How can English children in these parts be taught the English language by French teachers?" he queried.

Mr. McDonald stated that he did not want to go against his party, but when the party could not see the trouble brewing he thought it was about time that men should be returned to office who

could see it.

Two important resolutions in connection with redistribution were passed. They were that the provincial riding receive the same: that the laid down as East Toronto be bounded by Danforth avenue on the north, Pape avenue on the west, the lakefront on the south, and Scarboro Township on the east. Would Delay Purchase.

The mover based his opposition to the bill on the street railway purchase, which legislation of this nature was bound to delay. He thought the Municipal Act should not be amended, as people should be given an opportunity to vote on any great question when they chose. If the purchase was to be voted on, he contended that the citizens should have a right to vote at once, and not have to wait for over a year.

Dr. Evans said there was no reason to make distinction by this bill.

Just Further Delay.

"The purchase has already been delayed," he said, "and this bill will delay it further. If Toronto buys the street railway, we want the purchase voted on, and if it is turned down, North Toronto wants some other way to get transportation.

"We already pay three fares, which is

"We already pay three fares, which is an imposition on intelligent taxpalers. We were promised relief long ago, but that was delayed because of the proposed purchase. The majority of opinion is against this bill, which is introduced for ulterior motives, and for that reason, which I cannot explain, I wish to show my disapproval of the bill."

Strong Objection.

A very behement objection to the resolution was uttered by Henry McCrae, who said the bill was a proper one to protect the people's interests. Many of the bylaws were carried by snap votes, which he considered very unfair. He thought the association should not have acted in the matter at all, but it appeared to him they were trying ta pass the resolution by a snap vote.

Motion Carried.

W. G. Ellis explained the value of the Municipal Act, which gave the people the privilege of taking issue on a big question that concerned the people's interest.

The motion was finally carried by 40 votes to 18.

He traced the party's progress from the time they came into power nine years ago, when fears were expressed as to the length of their political life. the length of their political life. After those years he asked the people to judge the Conservative record and to do so on broad lines. He declared that when the Conservatives assumed the government of the province the revenue was only five million dollars, but today it was ten million, and he emphasized the fact that most of that money came from the north

country. Mining Laws Good.

He claimed that the mining law in the north applied well to general conditions and its adaptability was due to the adopand its adaptability was due to the adoption of the law.

"The management of the Conservative party," he concluded, "has proven vigorous, good, honest and progressive, and in our nine years of government there has not been one dollar misappropriated, and not a dishonorable action against us. Clubs in Good Shape -The Rules.

On Saturday last the various clubs which form the new British Rugby Union held their first practice games.

From the reports of the captains it would appear that every club will be well represented in their first game on Saturday next. The Welst team seem to be particularly strong. Their three-quarters are very good, and after a few games should show form quite in keeping with the regular Welsh three-quarters. The forwards are also strong.

The South of England promise to put a strong team in the field, as also does the Irish, who are particularly strong in the front line.

The report from the Scottish team leads one to hope really big things for them. They would appear to be fairly strong in every position on the field, which, after all, is better than being strong in one and weak in the others. The general monthly meeting of the 'F, & D. was held last night at Occident Hall, and the largest attendance on record of delegates was present. Secretary Cahill of the U.S.F.A. spoke to members present and in brief echoed the welcome fact that the friendship between the D. F. A. and his association has been firmally cemented, and it only needed the confirmation of both bodies to provide for the arranging of a yearly international match. The international selection committees were elected as follows: England—Messrs. Moffatt, Harmer and Burns. Scotland—Messrs. Morgan, McPherson and McKenzie. Ireland—Messrs. Graham, Totten and another to be elected. Canada—Messrs. Givens and Robinson, and another to be appointed. The leaders in the different sections on July 25 will be eligible for the Charity Cup.

The following delegates will represent Hall, and the largest attendance on re-

England anw West of England teams allowed for the conditions of their men.

Considerable interest is being taken in the Overseas and Y.M.C.A. teams. Each of these teams will consist of men from countries other than the British isles. Several of them will be Canadian born, while others come from New Zealand, Australia and France.

At this time it might be interesting to those who are not conversant with the rules of the British code of rugby to give a few of the most important points of the game as played in this country. The teams comprise fifteen men a side, made tup of eight forwards, two halves, four three-quarters and a full back. (Some tasms play only seven forwards and an extra half).

The ball is kicked off from the centre of the field in the same way as our game. Both kicking and handling of the ball are used, while no signs or numbers are used to advise the players of what movement to take, each player playing in his own way. No forward pass, however, is allowed.
