EXTENSIVE BRASS THEFTS.

Two Men Plead Guilty, Third Arrested for Receiving.

John Foggs, 183-1-2 East King-street, was arrested yesterday on a charge of resetting brass and lead stolen from the Consumers' Gas Company. This is a sequel to the arrest of John Hatton and Ernest Ginn, who were employees of the company. The authorities say that these thefts have been going on for some years and extend to thousands of dollars. The police think that when they called on Foggs yesterday had just finished the resetting of a quantity of stolen metal. Hatton and Ginn yesterday pleaded guilty to theft, but asked to go before a jury for sentence.

Many complaints have been coming the way of the Bell Telephone Company of late. Junctionites are displeased at the way they have been treated in the matter of cost of services. Complaints are made that, in Toronto a business telephone costs \$50 per year, and a residence phone \$30, while at the Junction the business phone costs \$30 and the residence phone \$20.

Interviewed by The World reporter, Mr. Dunst explained that the cases were not radically different. Toronto Junction was a self-contained town. It had a business section of its own, with stores, factories, and everything. While East Toronto was but a suburban residential district. The Junction had always been treated as any other town outside of Toronto.

"The local rate," said Mr. Dunst, "is fixed at \$30, but when citizens want a city connection they must necessarily pay two rates, the Toronto rate and the Junction rate. On the other hand, East Toronto has no exchange, and is entirely within the city limits."

THE MENDELSSOHN CHOR AND THE PITTSBURGH ORCHESTRA.

The Mendelssohn Choir and the Pittsburgh Orchestra, scored another success in the second concert of the series in Massey Hall last night. The soloists for the evening were George Hamlin, tenor, and Herbert Wither-spoon, bass.

The opening overture was by Weber, and opened with a large movement on muted violins, accompanied by a tremolo on the violas, which was full of mystery and cunningly devised melody. An eight part chorus by Lott followed, entitled "Crucifixus," which is beautifully harmonized and gathers in expression and vocal coloring as it proceeds.

"The Bells of St. Michael's Tower" is a duet, and one never tires of hearing it when given by this organization. For the encore plain cxxviii, by Gounod, was Light's Psalm Thirteen, for tenor solo, chorus and orchestra, exhibited some fine modulations and harmonies, and was with the poetic element and is for the most part sad, tho' in the last verse, "I will to God sing aloud," the strains became joyous and uplifting.

A theme by Schumann, with Brahms variations, orchestrated by Emil Pau, great satisfaction and was enjoyed.

The "Roman Carnival," an overture by Berlioz, was the most fascinating music ever heard. The principal theme, suggested in the opening movement, is the saltarello, danced every day on the Piazza Colonna in Rome. The melody is delightful and wonderfully rich as it emanates from the English horn, the strings accompanying with an impressive tone.

An old Scotch ballad, "Sir Patrick Spens," set to music by R. L. De Forest, furnished a melodious number for the choir, and the ballad, author unknown, is founded on an obscure Norwegian story. The story is so interesting and descriptive of the blustery sea, as an encore they sang, "You stole the love."

The following number was an "Indian Lullaby" by A. S. Vogt. The words are carefully chosen to convey all guttural sounds are of the slumber song variety. Musically it is richly harmonized, sweet and interesting, and the melody varied to give it distinction. It was enjoyed and repeated.

The closing program was brought to a close by an excerpt from the Metelersingers, from the program of 1904. It is a rich number and fitting finale.

LAKE TROUBLES SIGHTED.

Seamen's Union Determines to Ask Increase and Retain Overtime.

Detroit, Feb. 5.—Already the rumble of approaching labor trouble on the great lakes is heard, altho the season is still two months away. The Lake Seamen's Union has decided to make a determined stand to retain overtime pay in addition to demanding an increase in wages. The Lake Carriers' Association is anxiously opposed to paying the sailors overtime and is on record in asserting that the clause must be eliminated from this year's wage agreement.

The Lake Seamen's Union has increased the monthly dues from 50 cents to 75 cents, in order to increase the treasury, so that strike benefits can be paid should the controversy reach that stage.

The seamen already have the cooks, and in some quarters it is stated that they will form some sort of an alliance with the firemen. Members of the three organizations now form nearly 90 per cent of a ship's crew.

PENALTY OF \$500 A DAY WHEN COMPANY NEGLECTS

Legislation Committee Adopts Controller Hocken's Recommendation—Court of Revision.

MEETINGS TO-DAY.
11 a.m.; Board of control.
8 p.m.; Public regatta course, council chamber.

Controller Hocken's motion to ask for legislation to increase the penalty for which the Toronto Railway Co. is liable for neglecting or refusing to give a service of cars from 10 to 1500 per day, was unanimously carried by the committee on legislation and reception yesterday afternoon.

Ald. Church also asked for the opinion of the city solicitor on the matter of charging the company \$100 per day for violation of statutes under the Railway Act of June last year.

Ald. McBride's motion to change the date of holding nomination and election day to the second and third Saturdays in December, respectively, was defeated, as was Controller Hocken's motion to have two weeks between nomination and election day. The secretary read a letter from the secretary of the Young Men's Zion Club, protesting against the proposed change in the date of holding the municipal elections to a Saturday.

The letter from the city solicitor, enclosing amendment to the act relating to the Don Improvements, so that the city might sell any lands taken by them for less than amount charged against the land under the act, was sent back to the board of control.

Ald. Church explained his stand on the operation of telephone lines under government or municipal control, and asked the committee to ask the government to submit to the people of the province, for a vote on this all-important movement. The committee as a whole concurred in the idea.

A letter from S. Solman, re the copying of Mr. Strachy's bill post office, was referred to the police commissioners.

Court of Revision.

The court of revision yesterday had brought before it a sufficiently signed petition against a concrete walk on Kensington-avenue, east side, between St. Patrick and Baldwin-streets. The work will not be proceeded with. No opposition was offered to paving Coughlin-street from Avenue-road 87 feet east with bituminous, Argyle-street from Dundas-street to Dovercourt-road, with brick; nor to a concrete walk on McCormick-street, east side, from Dovercourt-road to Belmont-street.

The Tax Rate.

The indications are that the city's tax rate will be 23 or 24 mills, unless some cutting down can be done, was the statement of Mayor Coatsworth at the board of control meeting yesterday, when a grant of \$50,000 for the building of an additional wing to the Home for Incurables was asked by a large deputation. Also, was it asked that the annual grant of \$400,000, averaging 11 cents a day for each patient, should be increased to 25 cents a day. That special legislation to make the grant would be allowed the city. There were 92 free Toronto patients at the

home, and 19 were seeking admission.

Only 45 are pay patients.

An odd case of apparent civic injustice was brought before the board by Hon. Mr. St. John, who stated that a client of his purchased some 1000 lbs. of land from the city. The purchase was afterwards declared illegal by the courts, on the ground that the city had no power to sell the lands in question. The purchaser had, however, paid in the meantime \$284.38 as taxes, and after paying this amount, the city Controller Ward went to the city solicitor to report on the question.

The city engineer wrote to the board suggesting that the city should construct the tracks for the entrance of the radial railways. The city architect was instructed to proceed against John Townsend of Yorkville-avenue, for conducting a blacksmith's forge without a permit.

Controller Ward will go to Ottawa to interview the government with reference to a water lot west of Bathurst-street, which the C. P. R. desires to secure possession of, but which the city desires to secure.

The board instructed the city architect to secure possession of the land necessary for the new central fire station and to do the work by day labor.

Consolidation From City.

The Controller Ward has sent a letter of sympathy to the military secretary of the governor-general on the bereavement occasioned by the death of Lady Grenfell.

SUFFERING WOMEN

Find Health and Strength in the Use of Dr. Williams' Pink Pills.

Every growing girl and every woman nearing middle life suffers from ailments peculiar to her sex. At these times the health and happiness of every girl and woman depend upon the richness and regularity of her blood. Look at the young girl whose blood is weak and watery. Her face is pale, her lips and gums bloodless. Her head aches and her back aches. She has no energy, no life, a poor appetite and no desire for exercise. She complains that even to walk upstairs leaves her breathless. And the woman in middle life—she is nervous, irritable and depressed—liable to sudden attacks of pain and distress that only a woman knows of. She turns from food; horrible dizziness, hot and cold flashes, make her life miserable. But Dr. Williams' Pink Pills banish all this misery, because they fill the veins with rich, strong healthy blood, which gives tone and strength to every delicate organ. The case of Mrs. Geo. Dasher of Tilbury, Ont., is one of the many that prove that no medicine can compare with Dr. Williams' Pink Pills in curing the ills of womanhood. Mrs. Dasher says: "I think Dr. Williams' Pink Pills are a blessing to suffering women. For a long time I was a great sufferer from the ailments that affect so many of my sex, was extremely nervous at all times, suffered a great deal with headaches and indigestion. First I was in a thoroughly miserable condition when I began the use of Dr. Williams' Pink Pills, but after taking them a short time I began to improve, and, through their further use, I am now feeling like a new woman. I am sure if all sick women would take Dr. Williams' Pink Pills they would be convinced of the great good they can do."

Dr. Williams' Pink Pills can make every ailing girl and suffering woman in the land strong and healthy if they are given a fair trial. But great care must be taken to see that you get the genuine pills with the full name, Dr. Williams' Pink Pills for Pale People, on the wrapper around each box. Sold by all medicine dealers everywhere or sent by mail at 50c a box, or six boxes for \$2.50, by writing The Dr. Williams' Medicine Co., Brockville, Ont.
