Maintenance of the Licut-Governor's Recidence-A Reduction of Expenditure Recommended-Provincial Board of Arbitration—The Aqueductors Again—Yesterday's Resiston of the Local Legislature was rather a dull one. The House met at 3 o'clock and sat until 6.30, devoting its time to the passing of estimates and the rushing of bilis through the various stages.

The report advised that a lump sum should be given the Licutenant-Governor, out of which he should pay all expenses connected with the running of the establishment; that arrangements should be made for a reduction of the cost of repairs to the premises; and that at each change of the occupants, an inventory of the furniture of the house should be taken. Under the circumstances, Sir Oliver Mowat and Messrs. Marter and Heycock, representing the three parties in the Legislature, agreed that the matter should stand over for a year.

It was decided, however, that the committee was rather a dull one. The House met at 3 o'clock and sat until 6.30, devoting its time to the passing of estimates and the rushing of bilis through the various stages.

The report of a sub-committee was received and considered by the Governor should know beforehand just about what to expect.

The board had adjourned its sessions several times in order to give the tailors every opportunity to attend, but they alleged as a reason for their non-appearance the fact that there existed no Master Tailors' Association, as the subpoena served on some of the employing tailors set out. The board will make its decision on the dispute shortly, through the columns of The Ontario Gazette.
