RAILWAY NOTES.

Railway officials receive that the 12th of July traffic was the largest for years. The Northern division of the G.T.R. alone carried 10,000 passengers.

An exciting scene was created at the Union Station yesterday when a trainload pf 200 horses and 300 shouting men went through from Hamilton to Montreal.

Special trains passed over the Grand Brunk and Canadian Pacific lines yesterday carrying horsemen to the Bel-Air races, Montreal. The Grand Trunk also had a train of 18 cars of race horses from Fort Brie

No. 1 Manitoba Hard Selling-Chicago Market Lower To-Day, With Liverpool and Paris Higher-India's Crop for 1897-8 - Market and Gossip.

Wednesday Evening, July 13. Wednesday Evening, July 13.

New wheat is beginning to offer from Chatham, Essex and other Ontario points, and its price to-day on export basis may be placed at about 68c, north and west, To-day's open quotation for July wheat free-on-board at Toledo or Detroit, up to the end of the month, is 73½c. This is equal to 78c afloat at Montreal or 68c at north and west points. Outside buyers are therefore paying farmers about 65c for new wheat for export, though millers may for a while pay a small premium for esmall lots.

Full reports have not been received from Rajputana and Central India, but the average and yield for the states and agencies for which estimates have been received, are given in the tabular statement.

The total area and yield for the season, so far as returns have been received, compare as follows with the preceding years:

The exports of wheat to foreign countrie The exports of wheat to foregal countries during the last five years are as follows: 1893-94, 607,828 tons: 1894-95, 344,390 tons: 1895-95, 500,146 tons: 1896-97, 95,528 tons: 1897-98, 119,650 tons. The trade was on a very small scale last year, but slightly better than in 1896-97.

The revival began in March, 1898.

Losses in Wheat.

The English markets are overshadowed by the prospective resale of wheat cargoes purchased for French account, anticipating arrival before the reimposition of the French duty (3.62 cents per bushel), on July 1. More than a dozen cargoes of Canfornian and Walla-Walla, besides Indian steamers, says Dornbusch, which had a presumably ample margin of time for agrival before June 30, are still at sea. Two or three cargoes of Canadian flour bought for French account, will now, no doubt, be for resale to the United Kingdom. This entails a serious loss to owners, besides the extreme higher rates paid for the ocean freights, though somewhat modified by the risk placed with underwriters, but at high rates, ranging from 40 guineas to 92 guineas per cent. 42 to 96½ per cent. The losses on wheat and freights represent 50 cents per bushel, or wore, losses on two cargoes of wheat alone being reported to day at \$640,000. Taking this as a fair sample of unsoid holdings, reasonably placed at 50 to 100 cargoes, the aggregate losses explain fully the disastrous finish of the Leiter wheat deal.

East Buffale Cattle Market.

New York, July 13.—The stock markets here remained quiet to-day, and the goin withdrawais exercised a slightly depressing effect on the closing tone. Americans were prejudiced by reports of yellow fever among the troops in Cuba, and all were lower except Central Pacific and Canadian Pacific. Bonds are being freely deposited in connection with the reorganization of the Baltimore & Ohlo.

As to a possible change in the discountrate of the Bank of England to-morrow, all that can be said is that the retention of the rate will not check the gold withdrawals, while a reduction of 2 per cent. would not facilitate them. Owing to the great abundance of call money, the bank rate is quite inoperative. Spanish fours were very strong and closed at 37%. Argentines were sensibly firmer and Chilians showed large rise. The market in Berlin was firm and Pacis steady. East Buffalo Cattle Market.

Chicago Gossip.

Henry A. Kling & Co., 12 King-street east, received the following despatch to-day from Ghicago:

Wheat—Opened firm under the continued influence of yesterday's reported large export demand and steady foreign advices, and is thought to have been aided by support given on protection of short contracts by Eastern speculators, owing to adverse reports regarding crops of several Southeastern States. This support seemed principally in December. Trade was light, however, and the news soon induced the scalpers, who bought yesterday and to-day on the export reports from the seaboard to liquidate, as later report from New York only confirmed 58 loads out of the 100 reported yesterday. The weather, with the exception of a few showers, was all that could be desired in the harvesting regions, and advices from the lake region market—Detroit and Toledo—told of liberal acceptances of bids by farmers for quick delivery, but St. Louis was more directly affected, with No. 2 cash 3c lower, and No. 3 5c to 7c lower, and hard to sell at that which was in marked contrast with New York's firmness on further export buying again to-day for shipment to the Continent,

with principal Continental markets strong. Paris, for instance, was 10 centimes higher and Antwerp unchanged. It would seem, taking into consideration the small receipts at the important interior points, namely, 121,000 bush against 262,000 bushels last year, that the weakness is based to a very great extent on anticipation in the near future of large deliveries, rather than on actual receipts at present, and should they not materialize as soon as expected, it is quite likely, of course, that the crowd generally supposed to be on the short side would become quite uneasy, and, while present indications do not point to this as liable to occur, if it should, and the export demand be good, shorts would probably cause an up-turn in their efforts to protect themselves.

Corn—There was a continuation of the better feeling in corn during the latter part of yesterday's session, and bids were freely offered at last night's closing price, and in some cases a fraction higher. The support was mainly from local traders, who be based their purchases to some extent on the dry weather and urgent need of moisture in many localities.

Provisions—There was a good business fransacted yesterday after 'Change closed, including a whole line of hog products, which, with light run of hogs and better prices at yards, caused considerable strength in provisions early. But later free selling by packers, probably on persistent rumors of yellow fever among American forces in Cuba. There was some good buying of lard by English houses. Later, selling by packers and realizing sales brought about a decline, and closing prices were the lowest of the day.

Close—Canadian Stocks Dull—American Rails Higher in London—

Notes and Gossip.

Wednesday Evening, July 13.

Wall-street stocks were irregular to-day, with a general downward tendency. The bearish factors were rumors of trouble in the Philippines between Americans and Germans, and reports of yellow fever working havoc in the army in Cuba. The entire list declined one to two points. There was a partial recovery late in the day, and the market closed fairly steady.

Canadian stocks continue extremely inactive, with closing prices fractionally lower, in a a rule, than yesterday's final figures. Northwest Land pref. showed a little strength, selling at 53. War Eagle sold at 261½ to 263 at Montreal, and at 260 to 261½ on the locar board.

New York Gossip.

Henry A. King & Co., 12 King street east, received the following despatch to-day from New York:

The stock market was irregular and unsettled in the early dealings on the report from the front and the prospect that the Spanish Government would persist in the war. There were some sharp railies on the short side covering, but prices weakened later on reports of yellow fever among our troops. Other rumors were that there had been some setback to the campaign in Tuba, and that trouble had occurred in the Philippines between Dewey and the visiting German men-of-war. Prices ran off-to 2 per cent., the reaction being most pronounced in Sugar, Tobacco, Manhattan and Omaha. Illinois Steel rose nearly 3 per cent, on rumors that the company had purchased the Eiglin, Joliet & Eastern Railroad. The market closed somewhat steadler in tone, with railies from the lowest points. R. H. TEMPLE Member Toronto Stock Exchange, 12 MELINDA STREET. Stock Broker and Financial Agent Established 1871.
