

TWO SPEAKERS AT ROTARY CLUB

Taylor Staten Speaks of Boys' Work At "Y"—Dr. Carter Also Talks.

The importance of boys' work through the Y. M. C. A., and similar agencies, was emphasized by Taylor Staten, boys' work secretary, Toronto, addressing the London Rotary Club yesterday at the Tecumseh House. Two many boys in Canada leave school at 14 years of age. In England they remain longer in school, and in the darkest hours of the war the British in the trenches took time to pass the Fisher Bill, which at the expense of millions of dollars keeps boys and girls at school until 15 years of age.

How the gang or group instinct should be directed to develop boys into good citizens through Tuxis group organizations, trail rangers and scout associations was pointed out in their gangs or groups the boys learn co-operation and team work, which they apply to good purpose in after life.

Mr. Staten was introduced by Edward Jenkins of the local Y. M. C. A. Another speaker was Rev. Dr. Carter, of London, England, who took occasion to disparage ideas abroad that the old country is nearly played out. Britain never lost a battle in the war, he said. Social unrest might exist in England, but only because the war has placed back into industrial life between five and six million soldiers, and a million and a half women who were engaged in war work.

AN ANTI-CIGARETTE CAMPAIGN FOR BOYS

Boys' Council At Y. M. C. A. Have Matter Under Consideration.

The anti-cigarette campaign, which will be put on by the Y. M. C. A., and which will be under the auspices of the boys' council, will be one of the largest campaigns ever put on in this city.

The boys will ask help of the Ministerial Alliance, principals of the city schools, and many other men who are connected with boys in their daily work.

The idea of the campaign is to stop boys from smoking during the time of their lives when they should be getting in the school, trades and professions they will carry on when they grow older.

It is expected that a number of the ministers in the churches will be asked to give five-minute talks from the pulpit concerning the smoking of cigarettes by the young boys of the city.

The boys' secretary, L. M. Houlding, stated that they were not trying to make the place a second Kansas City, where it is a crime to smoke on the streets, even for grown-up men, but that they were doing it for the sake of the boys, who refused to be saved from themselves.

Mayor Charles Foulkes, of the boys' council will call a meeting in the near future to take up the anti-cigarette campaign as they are present at loss as to the best means of getting results.

A great many of the boys have already pledged themselves not to smoke or go in for unfair athletics, and it is now a case of getting the boys who are not members to join the ranks said Mr. Houlding.

BILL'S LATEST EFFORT

The poet Bill, instead of being moved to curse, was moved to verse by the weather conditions that have prevailed during the past few days. Bill says the long suffering people are now running fingers through their hair in a nice playful and pleasing occupation.

He further predicts the same brand of weather for the next few days. He tells you all about the "poem" when it is here to be read.

WEATHER THAT IS NOTICED THESE DAYS.
People talk about this weather.
And we see it a lot in the papers.
First it's slush and then it's rain.
Wondering if the sun will shine again.

Then when the sun begins to shine
And everything seems to look fine,
Some intent to take the train,
When all at once down comes the rain.

Some folks started to sow the seed
In their cosy flower beds.
And now they are very sore indeed,
Running their fingers through their heads.

Did you notice a few days ago,
On Good Friday, how the winds did blow,
Also Easter Sunday did the same?
The days will govern forty days as their fame.

But there may be a few days we will see,
Which will seem pleasant to you and me,
But we will see yet some rain and fog,
Then it will be not enough to roast a dog.

So don't be in a hurry yet awhile,
Count forty days from Easter tide;
After which we will all smile,
That the cold, wet, dreary days are set aside.

HIGHGATE, April 12.—A successful box social was held in Clachan Hall on Friday evening. Those taking part in the program were: Misses Selma and Bertha De Neves, Helga and two other girls in Elgin, and created much amusement by singing "Tipperary" in their mother tongue. These two young girls, together with their mother, were captives in the Germans' hands for three years. A. Branton acted as auctioneer. The proceeds, which amounted to \$57, will be utilized in the work of the U. F. W. O. Mrs. L. Wright, president of the U. F. W. O., presided.

LONDON STOPPING OFF POINT AIR SERVICE SCHEDULE

Preparations For a Landing Field Here To Be Hastened.

Commencement of an air service between Windsor and Brantford with London as an intermediary stopping point will hasten preparation of a landing field and aerodrome here.

The proposal was discussed even last year. The scheme then was regarded as more or less visionary and no action was taken. As a matter of routine it was brought before the 1920 council and referred to the town-planning committee. This committee appointed one of its members, Ald. Cameron Wilson, to get detailed information on the plan from members of the local Aero Club.

As Dr. Wilson has shown a keen interest in the proposal it is likely he will bring in a report which will result in some action being taken. The fact that an air line is to be established, with London as a port of call, will add force to the arguments in favor of a landing field.

Mayor E. S. Little has suggested that some of the land in the aerodrome might be used for the purpose temporarily. It is not thought that the aerodrome will be very costly. A hangar will have to be erected for the machines provided for repairing machines and placing them in condition for a new flight after they have made a landing. The principal feature, however, will be the provision of a large landing field, which will be properly marked, so that it can be seen from above.

Romeo Shimming Round Reservoir

Spring Now Officially Declared On Springbank Hill.

It wouldn't make any difference if the snow was three feet on the ground, Harry McCann, who looks after the Springbank reservoir, still maintains that spring was officially ushered in Monday. Romeo, the big twenty-two-and-a-half-inch black bear made his first appearance of the year Monday afternoon and, despite the cold, disappeared himself in much glee in the clear, icy water of the reservoir.

Romeo, who has been in the reservoir 22 years ago by the late Thomas Simpson, was dropped into the reservoir by the late Simpson. Since that time Romeo has known three masters—Mr. Simpson, Mr. George and Mr. McCann.

Mr. McCann, who looks after the reservoir, said that Romeo was in mid-season form on his first appearance. He "shimmied" his way around the reservoir, and then he came to the edge of the tank in an endeavor to draw the attention of Mr. McCann, and was rewarded by the young boy of the city. Romeo gets an occasional fish worm in the summertime when some kind visitor comes along, but for the most part acts as the official garbage collector of the reservoir and keeps the city water free from insects.

Mr. McCann is now busy painting up Hazel, the decoy duck, for Romeo to play with. Hazel was in the reservoir two years ago, as Romeo was off his feed, and it was thought that even a fish was not good to live alone. The park proper may have its zoo, but what would Romeo have without his Romeo and Hazel?

HOW ABOUT CAFETERIA FOR POLICE PRISONERS
Long Time Between Eats for Carling Street Unfortunates.

Ought the city police department to install a cafeteria or dining-room service for prisoners held in the police cells over night? Judging by the appetites of the prisoners when they arrive at the police station, the answer is a resounding "yes." The police department has a long session of prisoners held in the police cells, and they have to be satisfied with the food that is left in the jail. The police commissariat department, however, is now knowing how many prisoners it is going to have for dinner, and is faced with the problem of either paying too much food some days or not having enough to go around other days.

"PAY \$2 TO MR. MOULE AND I'LL LET YOU OFF"
Magistrate Finally Satisfies Octogenarian From Iliderton.

Ruben Hicks, an octogenarian from Iliderton, was fined \$2 in police court this morning for cutting a corner at Richmond and King streets on Wednesday. The farmer argued the point for some time, but finally his argument was ended by Magistrate A. H. Graydon, saying: "You pay Mr. Moule \$2 and I'll let you off."

"No, I suppose Inspector Birrell was." "We both were," was the retort. "Yes, if the inspector had not arrested you, you wouldn't have been in trouble."

BREAK BAYLAW
Charles Saville paid \$3 for breaking a city bylaw. The following paid \$2 for other breaches: William J. Moorehead, Fred G. Taylor, Arthur Taylor, Thomas Scott, Harry Lauder, William A. Fortner, Stanley Clemence, George Tiner, John L. George, George Goring, Clifford Peters and William Hunt.

Henry Warshawsky fined \$2 for driving over a bridge at a rate faster than a walk. L. Bowman, Mae Taylor and John Isan, were each fined \$5 for violating the motor vehicles act. E. Bingham and J. Shedd—each paid \$2 for a similar offence.

C. P. R. HOTEL TO BE GIRLS' CLUB

G. F. S. Club To Be Run by Women of St. Paul's Cathedral.

Yesterday afternoon at a meeting of the women of St. Paul's Cathedral it was definitely decided to take over the C. P. R. Hotel on Richmond street as a hotel for London business girls. This institution is known as the G. F. S. Club. Several months ago, Rev. Dean Tucker on behalf of the Girls' Friendly Society at St. Paul's Cathedral offered to take over the C. P. R. Hotel as a home for business girls. The business of the city would give some guarantee against loss. This offer was made at a general meeting of representative men and women held at the Tecumseh House held some months ago under the auspices of the Chamber of Commerce, in order to see whether something might not be done in order to insure girls coming into the city a decent lodging.

The St. Paul's offer to take over the C. P. R. Hotel, on which they have had an option for some time, has been hanging fire ever since. But now that eighteen businessmen of the city have promised to stand surety to the effect of \$100 each, final decision has been made to take over the hotel. It is also probable that a grant of \$1000 will be forthcoming from the central department of the G. F. S. in Toronto, if application is made for it. So that although the institution will aim at being self-supporting, it will have sufficient financial backing to enable it to set its rates low enough to meet the purse of girls earning eight to ten dollars a week.

Thirty-five Girls.
It is hoped that the new residence, which will accommodate 35 girls, will be a social center for girls of all denominations, with Miss Gladsten as house mother. The hotel will be run under a committee of women from St. Paul's Church as follows: Honorary president, Mrs. David Williams; vice-president, Mrs. L. Norman Tucker; president, Miss Louise Carling; vice-president, Mrs. E. B. Smith; Mrs. Robert Reid; secretary, Mrs. Gordon Philip; and treasurer, Mrs. Moorehouse. Subcommittees were also appointed. Finance committee—Mrs. Moorehouse (convener), Mrs. Baker, Mrs. Walter Brown, Mrs. Gerald Pearson. House committee—Miss Ann Macbeth (convener), Miss Helen Gibbons, Miss Wismar. Purchasing committee—Miss Jennie Elliott (convener), Mrs. Menzies, Mrs. Robinson and Mrs. Percy Ball. Entertainment committee—Mrs. Eric Reid (convener), Mrs. Edgewell, Mrs. J. Cronyn, Mrs. C. W. Foreman, Mrs. Harris Elliott, Mrs. Jack Hunt, Mrs. Main Paul, Mrs. Cooke, Mrs. Meyer, Mrs. Stuart Gunn, Mrs. E. S. Little, Miss Gladsten. The general executive committee will include conveners of the various committees with Mrs. Niven, Mrs. King, Miss Matthews and Miss Gladsten. A men's advisory board has been set up with Mr. Tucker, Dr. Moorehouse and Mr. Nicholls and G. Pearson.

DESPITE EMBARGO, POTATO PRICES STILL STAY UP

American Spuds Grown in the South Soon On the Market.

Although no potatoes have been shipped over the railroad to points in this city since the embargo was placed on the export of potatoes during the past several days, because of the tight embargo which has been put on all ports of export, a great deal of the switchmen's strike throughout that country, the local potato situation has not been affected, according to dealers in this city.

During last fall and throughout the winter a great quantity of potatoes was shipped over the border, practically draining this district of spuds. Although the local price of potatoes reached the high figure of five dollars during the past few weeks, potatoes were still being sold to the Americans by the farmers and dealers throughout this part of the country.

It was hoped by the local dealers that the embargo would stop potatoes from crossing the border, and so give a greater supply for local consumption. Their hopes, however, were dashed to the ground when the very condition which they had expected would help them, added an even two dollars to its old quotations.

Formerly the potatoes that were shipped from the surrounding districts were shipped to Detroit and to the other large cities inland. While no potatoes are sent to those places at the present time, Detroit is using every potato that can be trucked across the border because of a great shortage of supplies here. Detroit is as a result of being practically isolated by the strike.

The price of potatoes at that place reached \$11 for a 150-pound sack on Monday. According to the local dealers, carloads are being shipped to Windsor, where the potatoes are loaded into trucks and carted over the border. Reports received by the dealers from the States would indicate that the new crop is beginning to arrive from the south, and it is expected that in a few weeks the potato situation across the border will be greatly eased.

LOSSES CRAP GAME, PAYS \$66 DEBT WITH BAD CHECK

H. H. Thomas of Windsor Pleads Guilty in Police Court.

Herman Henry Thomas of Windsor pleaded guilty in police court this morning to defrauding the Imperial Bank of \$66, and was remanded one week for sentence.

In giving his evidence he stated that he had been playing "craps" with a man from Windsor by the name of Gledhill. He won \$65 from him, and because he was short of cash Gledhill gave him a check for \$66. Thinking that it was genuine, he got William E. Walters, a local barber, to endorse it. The check was cashed, but the bank found out that Gledhill had no account with it. The result was that Walters had to make the check good. He told Thomas of it, and accused him of paying him. Thomas then went to Windsor, where he was arrested. He told Thomas that the crown had been every effort to get information regarding the alleged fraud, but all endeavor had proved fruitless.

CORRECTION IN PRICE
In the Wagner's Grant Clothing House announcement of Monday, under the heading of "The Big Drop in Prices," 500 men's suits, blue serge, were advertised at \$15.50. This price should have been \$15.50. It was a typographical mistake.

In the same advertisement women's 50c lace stockings were advertised, 7 pairs for \$1. This should be 4 pairs for \$1.

PRESENTED WITH CLUB BAG.
LISTOWEL, April 12.—After the evening service Sunday night, the members of Knox Church choir met in the Guild room for the purpose of presenting Miss Shirley Walker, who is leaving this week for Hamilton, a club bag. T. L. Hamilton presided, and Miss Jessie Pennock made the presentation. Mr. Howie, of Spence made a few complimentary remarks regarding Miss Walker's voice and service to the choir, and Miss Sutherland and Mrs. J. M. Nicol added words of praise as to her value to the congregation. Miss Walker thanked the choir in a very happy manner. After the singing of "The Lord's Prayer" the gathering was over.

Rev. Hugh McFarlane of Winton preached to interested congregations at both services in Knox Church. A number of men here who had been with him overseas renewed old acquaintanceships.

CITY CLERK APPROVES OF STEVENSON'S BILL

Marriage Licenses Should Be Issued From Central Office.

Centralization of the issue of marriage licenses, as proposed in a bill introduced by Dr. H. A. Stevenson, in the Ontario Legislature, is approved by London's city clerk, S. Baker. The bill proposes to take out of the hands of jewelers, lawyers and others the privilege of issuing marriage licenses, and to place it in the hands of municipal clerks.

"It is a reform that has been needed for a long time," said Mr. Baker. "The licenses should certainly be issued from a central point. I think it would prevent a great deal of trouble. At present births and deaths are recorded at the city hall, and at the city hall only. This gives us an opportunity to keep reliable statistics on these two matters. With marriages, however, it is not so easy. The licenses are issued from a dozen different places, and we have to rely on the ministers to make us a report of the marriages they perform. Most of them are willing to co-operate, but they do not always find it convenient to make the returns promptly, and our records, therefore, cannot be kept as accurately as they should be."

Best Policy.
"I do not know whether it would be the best policy to place the work under the jurisdiction of the city clerk, or to have a special official as suggested in the legislation. The fees for the licenses would be enough to pay for this expense, and perhaps yield a revenue as well. The city clerk was unable to say how many persons in the city were authorized to issue marriage licenses. People often come to the city hall in search of this important document, and have to be directed to some of the jewelers or solicitors."

If this proposal is made law it will not affect the jewelers of London to any extent, as they have issued marriage licenses for several years only through the city lawyers. By this arrangement the jeweler receives 50 cents, the lawyer receives 25 cents, and the government receives \$3.50. Taking the privilege of issuing the licenses from every jeweler and lawyer, and giving it to returned soldiers and the municipal clerk will bring the Government considerable money, as it was proposed to give to the issuers a fee of only 25 cents. It was pointed out by another member that in large cities where Cupid is on the wing several times a day, and a great deal of the work, the revenue would be substantial.

SUGAR PRICES AGAIN ADVANCE

Two Cents Per Pound Is Latest Hop of Sweetness.

Sugar has advanced again in price. The kind you see advertised on the billboards so widely and the "mother's name for sweetening" brand that stares at you from the street car bulletins haven't advanced in price, but what's the use? The manufacturers of these brands are not offering any sugar for sale just now.

Acadia sugar which formerly sold wholesale at \$16.75, advanced about two weeks ago to \$17.75 per hundredweight. Last Friday, when the price of the refined sugar was \$17.75, it was a few cents less than the other brands, and an even two dollars to its old quotations.

Lantic, St. Lawrence and Redpath brands have not yet advanced, but the wholesalers add that these firms have no sugar to offer just now.

Raw sugar sold in New York Monday at \$17.50, a dollar more than the old price for refined sugar.

POET BILL GIVES INSIDE INFORMATION ABOUT WEATHER MAN

The poet Bill, who travels up and down the coast, has been looking on a weather prophet, so long that it was with surprise that he found the weather man in his hand this morning looking as if he had something important to divulge. And it was indeed important. The weather man told him that he was to be married. He was to be married to a girl named "Bill's" who was a weather prophet, so long that it was with surprise that he found the weather man in his hand this morning looking as if he had something important to divulge. And it was indeed important. The weather man told him that he was to be married. He was to be married to a girl named "Bill's" who was a weather prophet, so long that it was with surprise that he found the weather man in his hand this morning looking as if he had something important to divulge. And it was indeed important. The weather man told him that he was to be married. He was to be married to a girl named "Bill's" who was a weather prophet, so long that it was with surprise that he found the weather man in his hand this morning looking as if he had something important to divulge. And it was indeed important. The weather man told him that he was to be married. He was to be married to a girl named "Bill's" who was a weather prophet, so long that it was with surprise that he found the weather man in his hand this morning looking as if he had something important to divulge. And it was indeed important. The weather man told him that he was to be married.
