TWO SPEAKERS **AT ROTARY CLUB**

Taylor Staten Speaks of Boys' Work At "Y"-Dr. Carter Also Talks.

The importance of boys' work through the Y. M. C. A., and similar agencies, was emphasized by Taylor Staten, boys' work secretary, Toronto, addressing the don as an intermediary stopping point work secretary, Toronto, addressing the London Rotary Club yesterday at the Tecumseh House. Too many boys in Canada leave school at 14 years of year. The scheme then was regarded age. in Engrand they remain longer as more or less visionary and no action in school, and in the darkest hours of the war the British legislators took was brought before the 1920 council and time to pass the Fisher bill, which at

Mr. Staten was introduced by Edward Jenkins of the local Y. M. C. A.

Another speaker was Rev. Dr. Carter, of London, England, who took occasion to disparage ideas abroad that the old country is nearly played out. Britain never stood in a better position in the race for world trade than today, he said. Social unrest might exist in England, but one should remember that since the close of the war England has placed back into industrial life between five and six million soldiers, and a milfive and six million soldiers, and a million and a half women who were en-

AN ANTI-CIGARETTE **CAMPAIGN FOR BOYS**

Boys' Council At Y. M. C. A. Have Matter Under Consideration.

The anti-cigarette campaign, which will be put on by the boys of the Y. M. C. A., and which will be under the auspices of the boys' council, will be one of the largest campaigns ever put on in this city.

The boys will ask help of the Ministerial Alliance, principals of the city schools, and many other men who are connected with boys in their daily work.

The idea of the campaign is to stop

The idea of the campaign is to stop

The idea of the campaign is to stop hoys of the 'teen age from smoking during the time of their lives when they should be getting in their school studies, and concentrating on the trades and professions they will carry on when they grow older.

It is expected that a number of the ministers in the churches will be asked to give five-minute talks from the pulpit concerning the smoking of cigarettes by the younger boys of the city.

The boys' secretary, L. M. Houlding, stated that they were not trying to make the place a second Kansas City, where it is a crime to smoke on the streets, even for grown-up men, but that they were doing it for the sake of the boys, who refused to be saved from themselves.

Mayor Charles Foulkes, of the boys' council will call a meeting in the near future to take up the plan of the campaign as they are present at loss as to the best means of getting results.

A great many of the boys have already pledged themselves not to smoke swear or go in for unfair athletics, and it is now a case of getting the boys who are not members to join the ranks said Mr. Houlding.

BILL'S LATEST EFFORT

The Poet Bill, instead of being moved e curse, was moved to verse by the reather conditions that have prevailed uring the past few days. Bill says the long suffering people are now running fingers through their heads, a nice playful and pleasing occupation.

HIGHGATE

HIGHGATE, April 12.—A successful ox social was held in Clachan Hall a Friday evening. Those taking part in the program were: Miss W. How-rth, Miss R. McRae, the Misses Serma and Bertha De Neyes, Belgian girls, sang two selections in Belgian, and created much amusement by singing "Tipperary" in their mother tongue. These two young girls, together with their mother, were captives in the Germans' hands for three years. A. Branton acted as auctioneer. The proceeds which amounted to \$57, will be utilized in the work of the U. F. W. O. Mrs. J. L. Wright, president of the U. F. W. O. presided.

Spring Now Officially Declared On Springbank

It wouldn't make any difference if the snow was three feet on the ground, Harry McCann, who looks after the Springbank reservoir, would still maintain that spring was officially ushered in Monday. Romeo, the big twenty-two-and-a-half-inch black bass made his first appearance of the year Monday afternoon and, despite the cold, disported himself with much glee in the clear, icy water of the reservoir. Romeo, as the Beau Brummel of the big tank is named, was dropped into the reservoir 22 years ago by the late Thomas Sumner, who at that time kept tab on the reservoir. Since that time Romeo has known three masters—Mr. Sumner, his brother George and Mr. McCann.

Summer, his brother George and Mr. McCann. Naughty Romeo.

Mr. McCann declares that Romeo was in mid-season form on his first appearance. He "shimmled" his way around the reservoir at an alarming rate and did one "side slip" after another. He tank in an endeavor to draw the attention of Mr. McCann, and was rewarded with the odd bread crumb. Romeo gets an occasional fish worm in the summertime when some kind visatior comes along, but for the most part acts as the official garbage collector of the reservoir rand keeps the city water free from insects.

Mr. McCann is now busy painting up Hazel, the decoy duck, for Romeo to play with. Hazel was dropped into the reservoir two years ago, as Romeo was off his feed, and it was thought that even a fish was not meant to live alone. The park proper may have its zoo, but what would Springbank hill be without its Romeo and Hazel?

HOW ABOUT CAFETERIA FOR POLICE PRISONERS

Street Unfortunates.

Ought the city police department to install a cafeteria or dining-room service for prisoners held in the police cells over night? Judging by the appetites of the prisoners when they arrive at the county jail, it is not altogether a humane procedure to keep a prisoner incarcerated from early Sun-day afternoon, for instance, until late after dinner on Monday without either Sunday supper or Monday breakfast. Prisoners with money are usually permitted to send out for their meals, but others without money go unfed until they are transferred to the jall. When police court has a long session they sometimes arrive after the other prisoners have abled discounted. prisoners have finished dinner at the jail, and they have to be satisfied with what is left. The jail commissariat department, never knowing how many boarders it is going to have for dinner, is faced with the problem of either preparing too much food some days or not having enough to go around other days.

LOSES CRAP GAME, PAYS \$66 DEBT WITH BAD CHECK

H. H. Thomas of Windsor Pleads Guilty in Police

Herman Henry Thomas of Windson pleaded guilty in police court this morning to defrauding the Imperial Bank of \$66, and was remanded one week for sentence.
In giving his evidence he stated that he had been playing "craps" with a man from Windsor by the name of Gleedall. He won \$65 from him, and because he was short of cash Gleedall gave him a check for \$66. Thinking that it was genuine, he got William E. Walters, a local harber to indorse it. The sheek local barber, to indorse it. The check was cashed, but the bank found out that Gleedall had no account with it. The result was that Walters had to make the check good. He told Thomas of it and account with it. of it, and accused promised to pay him. Thomas then went to Windsor to earn the money. Until his arrest nothing was heard of him.

C. P. R. Hotel on Richmond street as a hostel for London business girls, this institution to be known as the G. F. S. Club. Several months ago. Rev. Dean Tucker on behalf of the Girls' Friendly Society at St. Paul's Cathedral offered to take over the C. P. R. Hotel as a home for business girls provided that the businessmen of the city would give some guarantee against loss. This offer was made at a general meeting of representative men and women held at the Tecumseh House held some months ago under the auspices of the Chamber of Commerce, in order to see whether something might not be done in order to insure girls coming into the city a sometning might not be done in order to insure girls coming into the city a decent lodging.

The St. Paul's offer to take over the C. P. R. Hotel, on which they have had an option for some time, has been hanging fire ever since. But now that eighteen businessmen of the city have promised to stand surety to the extent.

In om a dozen different places, and we have to rely on the ministers to make us a report of the marriages they perform. Most of them are willing to co-operate, but they do not always find it convenient to make the returns promptly, and our records, therefore, cannot be kept as accurately as they promised to stand surety to the extent. hanging fire ever since. But now that eighteen businessmen of the city have promised to stand surety to the extent

Best Policy.

"I do not know whether it would be the best policy to place the work under the direction of the clerk or not. It might be quite feasible to have a special qfficial as suggested in the Legislature. The fees for the licenses would be enough to pay for this expense, and perhaps yield a revenue as well."

As matters stand at present the city of \$100 each, final decision has been made to take over the hotel. It is also probable that a grant of \$1,000 will be forthcoming from the central depart-ment of the G. F. S. in Toronto, if ap-plication is made for it. So that al-though the institution will aim at being perhaps yield a revenue as well."

As matters stand at present the city clerk was unable to say how many persons in the city were authorized to isue marriage licenses, People often come to the city hall in search of this important document, and have to be directed to some of the jewelers or solicitors. Thirty-five Girls.

It is hoped that the new residence, which will accommodate 35 girls, will be a social centre for girls of all denominations, with Miss Gladsten as house mathers.

If this proposal is made law it will not affect the jewelers of London to any extent, as they have issued marriage licenses for several years only through the city lawyers. By this arrangement the jeweler receives 50 cents, the lawyer \$1.50, and the Government receives \$3.50. Taking the privilege of issuing the licenses from every jeweler and lawyer, and giving it to returned soldiers and the municipal clerk will bring the Government considerable money, as it was proposed to give to the issuers a fee of only 25 The hostel will be run under a committee of women from St. Paul's Church as follows: Honorary president, Mrs. David Williams; honorary vice-president. Mrs. L. Norman Tucker; president, Miss Louise Carling; vice-presidents, Mrs. E. B. DESPITE EMBARGO.

During last fall and throughout the winter a great quantity of potatoes was shipped over the border, practically draining this district of spuds. Al-though the local price of potatoes reached the high figure of five dollars by the farmers and dealers throughout his part of the country. the embargo would stop potatoes from

crossing the border, and so give a greater supply for local consumption. Their hopes, however, were dashed to the ground when the very condition which they had expected would help the market here made the conditions still worse. Formerly the potatoes that were shipped from the surrounding districts were shipped to Pittsburg and to the

other large cities inland. While no po-tatoes are sent to those places at the present time, Detroit is using every potato that can be trucked across the border because of a great shortage of supplies that city is experiencing as a esult of being practically isolated by the strike. The price of potatoes at that place reached \$11 for a 150-pound sack on Monday. According to the local dealers, carloads are being shipped to Windsor, where the potatoes are loaded into trucks and carted over the border. Reports received by the dealers from the States would indicate that the new crop is beginning to arrive from the south, and it is expected that in a few

weeks the potato situation across the
