WINNIPEG GRAIN MARKET.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 11.—Wheat closed %c up for October, %c down for December, and unchanged for May. Oats were 1%c up for October and %c for December. Flax gained 10c in October and November and 6c in December. The feature of today's trading was the big gain in flax. It was a very erratic market, with a good volume of trade. Like Thursday, traders preferred to deal in small quantities, but the activity of the markets made these small lots aggregate a fair amount. The damage reports which came in were received by a flat market. Cash demand was good for the higher grades of wheat, but oats were very poor.

Well-dressed women are liable arrest now by the police in Munich, the military governer there having issued an order to that effect. Conspicuous dress, it is stated, means waste, which is not permissible. The first arrest occurred within two hours of the issue of the order. A woman belonging to one of the best military families in Bavaria was taken to the police headquarters, but was released after a few hours' detention, having been warned to wear simpler clothes to wear simpler clothes.

THE KAISER'S BUTCHER

The police, while inspecting the promises of butchers in Berlin to discover if any were holding back supplies so as to maintain the high prices for beef, met with the pleasant fact that there

Was no such meanness. There was but one exception, woman, and further enquiries revealed the unpalatable truth that she supplied ment to Potsdam, the home of the kaiser. She probably knows him.

REPORTS CONFLICTING

Prices Closed Lower at Chi cago in Face of Uncertainty.

CHICAGO, Aug. 11.—Despite num-erous upturns, the wheat market today averaged lower, influenced to a conaveraged lower, influenced to a considerable extent by assertions that owing to cooler weather the black sust
danger in Saskatchewan might not
prove as serious as many traders had
been led to believe. The close was
weak 1-2c to 1 1-4c down, with September at \$1.43 1-8 and December at
\$1.46 3-4 to \$1.47. Corn showed 3-4c
to 1 3-8c net decline and oats a loss of
1-4c to 1-2c. Provisions unchanged to 1-4c to 1-2c, Provision's unchanged to

25c lower. Uncertainty as to the Canadian crop outlook prevailed in the wheat pit the greater part of the day. Bears contended from the outset that the prospect was more reassuring, but were overborne at times by pessimistic advances, especially a report from a leading expert that 75 per cent. of the Saskatchewan fields would be damaged if there were frost, and that the peril of such a disaster would not be out of the way under Monday next. On the other hand, good authorities were quoted to the effect that the reduced temperatures in Canada had lessened to a notable degree the hazard of black

to a notable degree the hazard of black rust, especially thruout the southern part of Saskatchewan.

Buying Had Effect.

Buying tended somewhat to check the aggressiveness of wheat bears. It was said that aside from other European purchases, the sales to Holland alone today amounted to 500,000 bushels. Gossip was current also that yesterday's export buying attained much larger proportions than the trade in larger proportions than the trade in general had been given to understand. Welcome rains eased down the corn. Speculative selling was heavy at times, but on the whole the market was firm. Oats were slightly weaker on hedging

Provisions were slightly weaker, especially in lard. The market, however, was partly upheld by the high prices of live hogs.
