usual bills were introduced and passed on for future consideration. The entire ceremony occupied less than thirty minutes.

At the close of the proceedings team was served by Mrs. Parliament, wife of the Speaker,

Speech From the Throne.

While not forecasting anything of a particularly startling nature, the

While not forecasting anything of a particularly startling nature, the speech from the throne at the opening of the legislature yesterday aftermoon nevertheless indicates the introduction this session of legislation of considerable importance. A standing committee on labor is one new proposal offlined, while educational factorities in isolated districts are to be

committee on labor is one new proposal civilined, while educational factoristic in isolated districts are to be improved. A better distribution and lower rates for electric power in rural classifier of the sovernment and the people of the government and the people of the province is that your legislation will promote harmony and progress in our industrial relations.

The speech, in part, is as follows:

Farmers Are Suffering.

"The agricultural industry has suffered materially from the rapid deficient of the market prices of farm products and the probable effect of his loss upon the rural districts is a matter of importance to the whole province, A consideration of the whole province, A consideration of the success of the recent province, a consideration of the strated in a remarkable way by the success of the recent province holding and a more general cooperation between our rural and urban populations will, I trust, lead to beneficial results, and tend towards reducing the cost of distribution and bettering rural conditions of rural life is by means of a judiciously designed good roads system. This mater the construction of the signed good roads system. This mater which, when completed, will greatly linease the quantity of hearing and a upper servince. The figures show an increase of approximately structure of importance to the whole success of the recent provincial ioan. While the expenditure of the government to strated in a remarkable way by the success of the recent provincial ioan. While the expenditure of the government to strated in a remarkable way by the success of the recent provincial ioan. While the expenditure of the government to the conditions of his hope in the province is that your leads trade for the twelve months ending and a minor state of much satisfaction that the financian will promote harmony and progress in our industrial relations.

"Much progress was made during the conditions of rural life is by means of a judiciously designed good roads system. This material will be province in th

vince.

"One of the more practical ways of improving the conditions of rural life is by means of a judiciously designed good roads system. This matter has been kept prominently before my ministers during the past year and much progress has been made in the direction of broadening the scope that the construction of the past year in the past year in the construction of the past ye the direction of broadening the scope of the plans for the highway improvement. It is felt that good roads are among the greatest material needs of the province at the present time, by reason of the fact that they will not only help to solve the transporta.
