DEAL ONLY WITH RAILWAY RATES

Carvell Intimates Policy Will Be One of Full-Speed Ahead.

Ottawa, Aug. 6.—(By Canadian Press)—Interviewed by a representative of the Canadian Press Limited, today, Chief Commissioner Carvell of the Railway Board, stated that there will be no sitings of the board other than those fixed for Ottawa to hear the application of the Canadian railways for a thirty per cent. increase in railway rates.

Mr. Carvell also intimated that there would be no adjournments of the hearings, which will commence on Tuesday, August 10, excepting such adjournments as may be necessary for the inspection of documents and exhibits and the need for which may occasionally arise.

The chief commissioner said that a demand has arisen for hearings in different parts of Canada, more particularly in the west, but as no local questions are involved and the matter to be dealt with is one of principle, the question was whether or not there should be an increase in rates, and if so, to what extent. The application of the railways was one that could properly be heard at the capital.

MONTREAL STREET CARS MAY NOT OPERATE TODAY

Montreal, Aug. 6.—(By Canadian Press)—J. A. Woodward, representative of the Montreal tramway employees on the conciliation board, stated today that the vote of the employees last night in favor of rejecting the board's award of the presentation of an ultimatum to the company, demanding the original terms, a strike to follow their non-acceptance, was due to a misunderstanding caused by a typographical error.

But as the situation stands at present, there is every possibility that there will be no tram service after noon tomorrow unless the company complies with the original demands of the men.

NIAGARA YIELDING GREAT FRUIT CROP

To Surpass Output of Past Five Years — Prop Up Peach Trees.

St. Catharines, Ont., Aug. 6.—Harvesting early peaches has commenced in the Niagara district and will be in full swing next week. The branches in many orchards have had to be propped up, so heavily are they laden. Those now being picked are "Clings-tones." Notwithstanding the heavy crop, the quality of the peach is excellent. In spite of the cool weather of the past few weeks, fruits and vegetables have grown well. Tomatoes have not ripened as rapidly as ordinarily, but with copious rains they have developed to a great size and the sun of the past three days is supplying the ripening process.

Comes Up to All Forecasts. Plums and pears and, in fact, all varieties of fruit are realizing the most optimistic hopes of the growers. The greatest crop in five seasons. It is now definitely established that grapes, the only fruit that has cropped high in the past few years, will again show a maximum yield. Tremendous quantities have already been contracted for in advance at prices in excess of any previous year. Pickers are more plentiful than in the strawberry season, before the school vacation days, and there is the greatest joy and satisfaction among the growers of half a decade, for as yet not one fruit or vegetable farm has been found that is not bearing well.

CENSUS SHOWS MANY POLES ARE IN CANADA.

Ottawa, Aug. 6.—(By Canadian Press)—The latest available census figures indicate that there is within the borders of the Dominion of Canada a considerable number of Polish people. When the census of 1911 was taken it revealed a total Polish population of 33,326. For several subsequent years there was a fairly heavy movement of Poles to the Dominion, more particularly to the western provinces, with the result that the 1916 census for Manitoba, Saskatchewan and Alberta showed a population of Polish people for those provinces alone of 33,326. While Poland was with Russia has undoubtedly influenced many Poles to go home for their native country, there is no indication that the movement has been a particularly heavy one.

TORONTO JUDGE IN NEW YORK COURT

Judge Coatsworth on Mission to Study Probationary System.

New York, Aug. 6.—County Judge Emerson Coatsworth of Toronto was a visitor to the night court last night and sat on the bench with Magistrate Bernard J. Douras for more than an hour. The Toronto judge has been commissioned by the Toronto and Ontario government to study the probationary system in vogue here and in Chicago. He will make a study of criminal administration and treatment of prisoners. It is the intention of the province of Ontario to establish a centralized probationary headquarters for offenders as in New York, he said. The judge declined to say where he is stopping as he did not want to be interviewed.

Today he will visit the court of domestic relations and other courts, and in a few days he will go to Chicago. The judge said he will make a report of the probation system to William E. Haney, attorney-general of the province of Ontario, when he returns to Toronto.

The judge said that the criminal is a by-product of humanity and it is the intention of his government to utilize him by extending assistance and making him self-supporting. This can be accomplished best through the probationary system, which, when centralized, will facilitate the difficulties in identifying criminals.

The judge was impressed by the

ENGLAND WILL USE FINANCIAL WEAPON

Will Withhold Money From Bodies Repudiating Authority of Parliament.

Belfast, Aug. 6.—There is to be a continuation of the government's policy of using to the fullest extent its financial weapon on Irish public bodies declaring for republicanism.

A letter has been sent from the chief secretary's office to Irish county, borough and urban districts councils saying that in view of resolutions passed by certain bodies in Ireland repudiating the authority of the imperial parliament it is necessary for the lord lieutenant to withhold further payments for the local taxation in Ireland account to any local authority. This, the letter adds, will continue until definite assurance is received from the county and urban district councils sharing in such payment that they will distribute the money to the services to which they are assigned by statute and will submit accounts to the government board for audit as heretofore and will conform to the board's rules and orders.
