Alexander Dick, sales agent of the Dominion Coal Company, who was in the city yesterday, says that the company is anxious to improve its facilities here, and with the plant now installed they feel that they can handle more coal than at present. They want to send 150,000 to 200,000 tons more, that is now going to Portland, Me. They are desirous to run a track along Smythe street to connect with the I. C. R. Mr. Dick and Mr. Pottinger looked over the situation yesterday, but nothing definite was decided upon.

Last night Gideon Lodge, No. 7, L. O. L., paid a visit to York Lodge, No. 3, in the Orange hall, Germain street. The W. M. of No. 3, E. S. Hennigar, on behalf of his lodge, welcomed the visiting lodge in a short speech, and during the evening addresses were made by J. McCosh, the master of No. 7, and Robert Maxwell, M. P. P. W. C. Day, Wm. Crabb, C. White and N. J. Morrison, grand secretary, and a trio was sung by Messrs. Hazlewood, McIntyre and Dunfield. Refreshments were served. The National Anthem brought a very successful meeting to a close.

INSPECTED TERMINAL
RAILWAY FACILITIES
David Pottinger, general manager of the I. C. R. and his assistant Robert Simpson came in from Moncton yesterday and inspected the terminal railway facilities at this port. They were accompanied by a committee of the board of trade consisting of W. E. Foster, J. F. Tilton G. E. Barbour and E. Allan Schofield.
Mr. Pottinger expressed himself satisfied that the work was being carried on as rapidly as possible. Each detail was looked into and the committee said last night that without doubt the congestion would be relieved this winter.
It was decided to dredge one face of the York Point wharf to a depth of 12 or 14 feet in order that small coasting steamers may dock at any time. As before announced the western side of the Long wharf will be dredged to a depth of 30 feet.
Mr. Pottinger returned to Moncton on the 7 o'clock train.

THE MOCK TRIAL
It is interesting to note in connection with the Mock Court Trial of the Opera House on Monday evening, Oct. 7, that the only breach of promise case tried in St. John in the past 25 years was won by the plaintiff. On that occasion Dr. J. W. Macrae was the attorney for the lady who was awarded a verdict of \$2,500. In Monday night's case Dr. Macrae will represent the defendant and there is much conjecture to know if he will be equally as fortunate in this case as in the other. The counsel for the plaintiff on Monday night will be Col. A. V. Newton of Worcester, Mass. There was a big demand for seats when the Opera House box office opened this morning and a bumper house will no doubt be present at this highly interesting and entertaining performance.

THE FISH MARKET
The fish market today is not overly stocked, though there is a possibility of some slight improvement tomorrow. The present scarcity is accounted for by the continuous stormy weather. The high winds have prevented fishing operations. Today, however, it is hoped, will alleviate matters as the weather is very favorable for fishing. Today's prices are as follows: Pickerel, 10c. per pound; smelts, 10 to 12c. haddock and cod, 8c.; mackerel and halibut, 8c.; British Columbia halibut, 15c.; finnan haddie, 8c.; kippers, 25 to 30c. Usual prices in salt fish.

POLICE COURT
Bessie Wilson was the only prisoner who graced the plain wooden bench at this morning's session of the police court. She was gathered in by Patrolman McNamee, on a charge of drunkenness and fined \$8 or three months in jail.
Some doubt exists as to where she actually hails from and although the arrest sheet says Quebec, it is stated that she comes from the old country, but has been engaged in farming on the Washademoak. Sergeant Hipwell thinks she is a half-breed.

MAY BE A CANDIDATE
It is stated that Robert Wetmore of St. George will be one of the candidates for the government ticket in Charlotte county in the provincial elections.

WILL RUN NIGHT FERRY
Ferry Committee Gives Such Permission to William H. Logan

At a meeting of the ferry committee yesterday afternoon, William H. Logan was given permission to run an auxiliary ferry service after the regular steamers were off the route. G. S. Mayes was given permission to store coal in the west side ferry coal shed. A committee was appointed to look into the matter of having an automatic bell, of a type invented by Ald. McGowan, placed at the floats for use in rough weather. The chairman declared his intention to destroy all sign boards on the ferry properties. There were present at the meeting Ald. Baxter, chairman; Frink, Bullock, McGowan and Sprout, with Superintendent Glasgow and the common clerk. Superintendent Glasgow reported having discharged Wentworth Lewis, a machinist in charge of the ferry, for some irregularities. The report was received and the action confirmed.
