

# CAPE ARE BACK IN PARIS FAVOR, LONDON HEARS

**Bolero Also Being Developed and Revival of Tunic Is Forecast**

LONDON, Sept. 28.—The glory of the present is dimmed by that of the future. Stories of the Daurville toilettes leave Parisians cold. They are old-fashioned now. Interest is centered in the new autumn and winter fashions which will be worn in October and after.

## BOLERO DEVELOPED

The bolero is one of the styles which is being developed. It is seen in coat-tracks in front only, over a decorative waistcoat. A wine-red dress with a faint impression all over it in the same color is used for a dress which has a straight back, a bolero front over a waistcoat, embroidered in red silk and silver thread. Cuffs and collar of the same embroidery trim neck and sleeves. The skirt has but little fullness behind, and in front a deep inset pleat, which opens out into a fan near the knees.

## CAPE-COAT REVIVED

The dolman, or cape-coat, is another revival which may be popular, especially for evening wraps. It sounds heavy, but the dressmaker of today has a gift for taking all heaviness and stiffness out of materials and styles which formerly stood for all that was most pretentious in dress. The new dolman is a soft double wrap which is made of velvet, satin, velours-Kashmir, and which is clasped about the figure in folds. It may be made for warmth, or just to complete an afternoon or evening dress. Fur trims it, and the lining is chosen to match the dress it covers. It is the winter equivalent of the summer wrap in georgette.

## OVERCROWDING IN SACKVILLE SCHOOLS

SACKVILLE, Sept. 27.—The Sackville school trustees are faced with the problem of providing more room for overcrowded grade-school children. An extra teacher for Grade VII at Central school will likely be secured and a new class opened in the school. This arrangement will also leave more room at Salem school for the primary department which is at present overcrowded.

## STUDENT FOR MINISTRY

Henderson, left on the S.S. Governor Dingley on Saturday for Boston, where he will attend the Bible College to study for the ministry. His many friends will wish him success in his new undertaking.

Before they can attract admiration, flowers have to send down roots. So must men.

# More Flavour

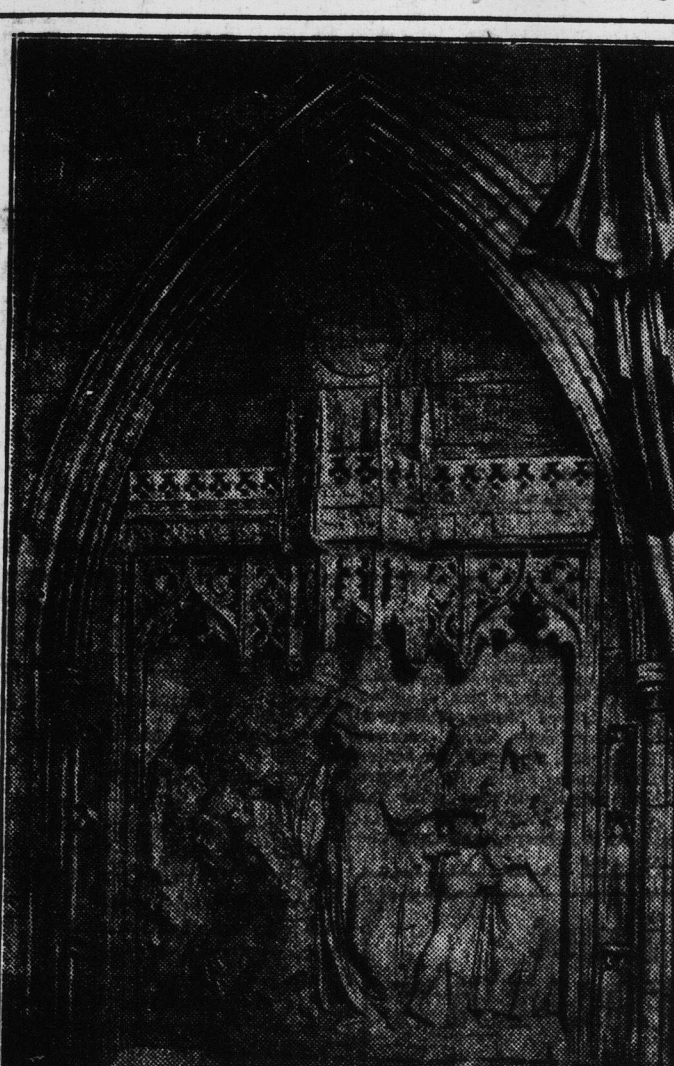

Don't limit your enjoyment of Mustard to occasional use with Cold Meats. It gives more flavor to hot meats too—sharpens the appetite, neutralizes the richness of fat foods and makes them easier to digest.

# Colman's Mustard

aids digestion

You will always look back with satisfaction to your first pair of Boyaner Glasses.

# EVANGELIST'S LIFE AT COTTAGE TOLD

**Aimee McPherson Seen at Carmel, Calif., With Man Who Limped**

LOS ANGELES, Sept. 27.—Efforts by the state to establish its contention that Aimee Semple McPherson occupied a Carmel, Cal., cottage with Kenneth G. Orniston for ten days after she disappeared from the beach here, occupied the first day of the evangelist's preliminary hearing here today on charges of criminal conspiracy. Ralph Hershey, of Santa Barbara, testified he saw a woman at Carmel, May 25, whom he was positive was Mrs. McPherson, while Mrs. Jeannette Parker, who lives next door to the Carmel cottage, was equally sure she had seen Mrs. McPherson with a man who "imposed" occupying the adjoining house about that time.

YOU can't tell by watching the boss whether he is deliberating or loafing.
