NEW DANCES FROM PARIS. Four Creations to Have First Public Tryout May 20.

Paris, May 11.—France will present to the world four new dances this month. They are the Francesa, Arietta, Caryatis and Mazoure, and will receive the first public tryout on May 20 at the International Congress organized by the Academy of Dancing Instructors of Paris. Mile. Henrietta Regnier, of the Opera, is the creator of the new steps. Francesca is named from a canton in South France, the Caryatis is inspired by an ancient Greek dance of innocence, and the

Illness lurks in the shadows of our everyday lives like a snake in the grass. Your medicine cabinet should be filled with the proper preventatives and first aid remedies. Do you keep peroxide, court plaster new-skin, bandages and liniments where you can reach them in a hurry? I think you should do so.

OVER THE WIRES The New Brunswick Electric Power

mediate construction of a power line from the Maine and New Brunswick Electric Power Company's lines near the border to Woodstock. This will replace the loss of the dam near Woodstock recently and will provide power for the towns and villages along the St. John River.

John M. Egan died at Dixon, Ills., on Wednesday night at the age of seventy-five years. As general superintendent of the western division of the C. P. R. he built that line from Winnipeg west. He was for fifty years a railroad executive.

Princeton Class Runs
By Itself; Suggsets
Radio College Idea

Princeton, N. J., May 11.—"The class that ran by itself" is the new name of the class in international law

at Princeton. A tardy professor gave it the opportunity and the campus has given it the name. A few days ago the seniors who take this course assumbled at the regular time and place, but found no instructor. After waiting the customary five minutes' grace, one member suggested the ordinary proceedings of departing. He was voted down, however, and the class decided to conduct its exercises itself.

When the professor arrived, he found things progressing so smoothly that

# the accidental inauguration of the MAPLE LEAF HAM

system.

Prof. Philip Marshall Brown said, "If this custom spreads, colleges will become non-professorial institutions. Then we would probably see a centrally located 'professors' college,' where lectures by the country's best authorities would be sent out by radio and questions put and answered by wireless telephone. This would also wipe out the always pressing problem of teachers' salaries."

WAS HYPNOTIZED BY A WHIRLING PROPELLER is made in an R. A. F. report. This was a test-bench accident, where the airman was watching the whirling pro-peller of an engine under test and was seen to walk slowly into it. Hypnotic
