FIGURES GIVEN TO  
BELDING ON TOUR

Premier Baldwin to Get  
Summary of Fight for  
Maritime Ports.

By A. M. BELDING  
Special Representative of The Telegraph  
Journal and Times-Star now touring  
Western Canada in the interests of  
the Maritime Provinces.

PORT WILLIAM, Ont., March 9.—  
Nothing could exceed the cordiality of  
the reception given me by the Cana-  
dian Club today at the close of my  
address. Dr. M. B. Dean rose to say  
he wished to depart from the ordinary  
rules of the club and move a vote of  
thanks for the clear presentation not  
merely of the case for the Maritimes  
but of other problems of a national  
character which await solution.

Grimes Murphy, barrister, in second-  
ing the resolution, praised my mission

Use the Want Ad. Way

A little care  
would have  
saved them.

It was  
"too busy"

4 out of 5  
are victims

The law of averages is im-  
mutable. Dental statistics prove  
that four out of every five over  
40 and thousands of younger  
people are marred by Pyorrhea. Do  
you want to escape?

She neglected  
the greatest  
"tooth secret"

Her mirror told  
her—too late!

### It takes healthy gums to keep healthy teeth

Bleeding gums are Nature's first warning of Pyor-  
rhea. Then they begin to recede, lose that rich, pink  
color. Disease-breeding poisons collect in pus pock-  
ets and often drain through the entire system.

If used in time and used consistently, Forhan's will  
prevent Pyorrhea, or check its progress—something  
ordinary tooth pastes are powerless to do. It con-  
tains just the right proportion of Forhan's Astrin-  
gent (as used by the dental profession in the treat-  
ment of Pyorrhea). It is safe, efficient and pleasant  
tasting. Even if you don't care to discontinue your  
favorite dentifrice, at least start using Forhan's  
once a day.

Forhan's is more than a tooth paste; it checks Pyor-  
rhea. Thousands have found it beneficial for years.  
For your own sake ask for and get Forhan's For the  
Jums. At all druggists, 50c and 60c in tubes.

### Makes Autos Go 49 Miles on One Gallon of Gas

STOIX FALLS, S. Dak.—James A.  
May of 4008 C Locust Blide, has  
perfected an amazing new device that  
cuts down gas consumption, removes  
all carbon, prevents spark plug trouble  
and overheating. Many cars have made  
over 40 miles on a gallon. Any one  
can install it in five minutes. Mr. May  
wants agents, and is offering to send  
one free to one auto owner in each  
locality. Write him today.

12174-3-11

In high terms, and President A. J.  
Boreham declared that the suggestion  
of a round table conference of patriotic  
business men representing the four  
great divisions of the Dominion was  
most opportune and in his view the  
best method of meeting the situation.

To Tell Baldwin.

To show how keen is the interest  
in my mission President Philpot, of the  
Association of Canadian Clubs, has re-  
ceived a letter from the Simcoe Club  
asking that, if possible, I visit their  
city.

Among those at today's luncheon  
were Stanley Smith, of St. John; L. J.  
Webster, formerly of Stirling, and C.  
W. Jarvis, formerly of P. E. Island.  
There were also present Percy Hut-  
chinson and Lord Lyvelton, of a British  
dramatic company, soon to appear  
in St. John. The former said a report  
of my address, which he had read in a  
Winnipeg paper, would be sent to the  
British Prime Minister, who was keenly  
interested in all that related to the  
welfare of Canada.

Both here and throughout the west I  
find a feeling of resentment toward  
any suggestion that fear of United  
States retaliation should have any ef-  
fect on our national policies.

Export Routes.

I am now in a position to answer  
the question whether any grain goes  
from Port William and Port Arthur  
by rail in winter. The all-rail move-  
ment from these cities to the Atlantic  
seaboard during the winter up to the  
end of February was as follows:

Wheat, 2,211,180 bushels.
Oats, 195,790 bushels.
Barley, 896,059 bushels.

All of this grain, though the total  
amount is not large, went through  
United States ports.

The official report to the Grain Com-  
mission says: "It is worthy of note  
that all of the rail shipments for ex-  
port were destined via U. S. A. At-  
lantic seaboard ports. The movement  
of grain via the Canadian seaboard has  
been very small, indeed, during the last  
two months, but it is reported tonnage  
engagements for March shipments are  
substantial."

The report further says that the  
movement via Vancouver has been ex-  
ceptionally light, principally owing to  
the fact that high prices and high rates  
for ocean tonnage render competition  
with wheat from the southern hemi-  
sphere impossible.

Total Shipments.

The total shipments of wheat from  
Port Arthur and Port William for the  
seven months ending February are  
118,400,000 bushels compared with  
190,000,000 bushels in the like period  
of the previous year. This is due to  
the smaller crop and a lessened export  
demand.

From Dec. 8 to Feb. 27 nearly 5,000,  
000 bushels were shipped from St. John  
and of this nearly 2,000,000 was Amer-  
ican grain. Stocks of all kinds of  
grain in store in St. John on Feb. 27  
were 1,486,122 bushels, of which 479,  
188 bushels was American.

Winter Storage Cargoes.

Out of 10,000,000 bushels of Cana-  
dian grain afloat in winter storage  
cargoes at Canadian and American  
ports on March 6, more than 4,000,000  
bushels were at Buffalo.

Of the remainder a little more than  
4,750,000 were at Georgian Bay ports,  
to be shipped through Canadian At-  
lantic ports.

The receipts of wheat at Port Wil-  
liam and Port Arthur elevators for  
seven months ended February were  
122,920,429 bushels and the shipments  
118,398,454 bushels.

## A hurry-up breakfast

To get Johnnie off to school  
and Daddy off to work with no  
kitchen worry, heat two Shred-  
ded Wheat Biscuits in the  
oven to restore their crispness,  
pour hot milk over them—and  
such a warm, "comfy," sat-  
isfying meal. You can work  
half a day on it without get-  
ting hungry. Lots of "pep" in  
it for the up-and-coming man  
who has to keep "on his toes."

## Fry's

"The Cup of Health"

Yes, that is really what FRY'S should be called—the cup of Health! Its delicious,  
chocolatey flavour—so enticing to the appetite—is only the outward sign of its  
inward goodness. "FRY'S Cocoa is the richest in flesh forming and energy-pro-  
ducing constituents," says Dr. Andrew Wilson, F.R.S.E., "and is without an equal  
in respect of its purity and for all round excellence. There is no better food."

Of course, remember, "Nothing will do but FRY'S"

## WHERE MOTHERLESS CHILDREN ARE CARED FOR

Father John's Medicine is Given for Coughs,  
Colds and Body-building

Matrons of Children's Homes, Mother Superiors of the Con-  
vents, Sisters of Charity and others—who have large numbers of  
children in their care—are glad to praise Father John's Medicine  
for its healing and health-restoring qualities.

The Matron of the Children's Home in Lowell writes: "I have  
40 or 50 children here constantly. When they are weak or run-  
down—whenever they get cold or have a cough—Father John's  
Medicine gives prompt relief." Sister M. Fannie, of the Children's  
Home, Newburyport, writes: "We cheerfully endorse Father  
John's Medicine because in our Home it has become indispensa-  
ble."

Mothers of large families can depend on Father John's Medi-  
cine to keep the children in good health. It is a safe medicine for  
children because it is absolutely free from alcohol and dangerous  
drugs.
