FIRST EDITION. THE INQUEST ENDED.

THE TESTIMONY TODAY AS TO THE RESISTANCE OF THE SAFETY VALVE.

All the Evidence Taken—The Coroner's Address—He Reviews the Testimony and Passes a Verdict.

Special to the Gazette.

St. John, Dec. 10.—The South Bay inquest was resumed at 10 o'clock this morning. Mr. Barnhill is still watching the case for the crown. Mr. E. J. Fenwick made a statement that he took the arm of the safety valve to McEvilly's for the purpose of ascertaining what pressure would lift it. It was tested and it was found that 48 pounds would lift it with an extra weight and 18 pounds with an extra weight.

Mr. Fenwick stated, as above, Mr. Barnhill suggested that the matter be proved by the evidence of Mr. Fleming who was in court and that any evidence as to the resistance of the valve ought not to be given as the lever had passed through the fire previous to its examination when it was first tested that the fire would not account for the rust or rigidity of the iron.

James Fleming recalled: I saw the way the arm was tested in McEvilly's yesterday thought it was a perfectly correct way. His explanation in the manner by which it was tested. In consequence of the McEvilly's figuring too small, the valve opened at 47 and 57 pounds. The valve produced in court was 8 1/2 valve, while a 6 inch valve was substituted. Mr. Fenwick thought the witness said the valve might be bound.

Mr. Barnhill: The frequent use of an extra weight would have no injurious effect on the boiler. If it had been as at the time of the explosion it would not render the boiler unsafe. If the statements of the engineer are correct regarding the safety valve lifting at 42 pounds with the ordinary weight and 48 with an extra weight, I would not think the steam gauge was incorrect or something wrong with the safety valve. I have known cases where the gauge indicated incorrectly; with the safety valve working properly there could be no danger arising from too much steam. I don't think the fire would account for the binding of the safety valve in the standard; with the ordinary weight and 18 pounds of water in the boiler I don't think a weak valve would cause such damage to be done.

After Mr. Fleming finished, all the evidence being in, Coroner Robinson addressed the jury. "The railway's patent valve has to perform holding this inquest," he said. "The destruction and loss of life consequent upon the explosion was the most disastrous known in this case there were several gentlemen of the jury, you are all intelligent and trustworthy men. You have the evidence of practical men to take your verdict from. You have seen the tremendous force with which the boiler was thrown, 80 or 90 feet in the air and the other up on the bank. E. J. Fenwick, the first witness, showed, gave evidence about the time the boiler was put in. They were in good order then and since then showed no signs of decay. Engineer Allen testified that he left everything in good order when he left the mill and about a wheel breaking being repaired. During the time this work was being done something evidently was wrong with the boiler, what I am not in a position to say. All the experts with the exception of George Waring, engineer, the only account for the explosion by hot plates. Wm. Waring said most have been over the top of steam on to the explosion. Mr. Allen said 45 lbs would do it. George Waring said 50 lbs would do it. Mr. Fenwick said the boiler was in good order when he left the mill. Mr. Fenwick said the boiler was in good order when he left the mill. Mr. Fenwick said the boiler was in good order when he left the mill.

FIRST EDITION. NAPIERVILLE WON.

A LIBERAL STRENGTHENED CAPTURED BY THE CONSERVATIVES.

Election Trials—West-James a Farmer—Vacant Seats in Ontario—Canada at Toronto—Press at Toronto.

Special to the Gazette.

Montreal, Dec. 10.—The Conservative are jubilant at the success of their candidate in Naperville, who was elected by a majority of thirty-one. The contest here was looked upon as a liberal stronghold, the liberals having carried it at last election by a majority of 27. The present victory is looked upon as a success due to Hon. Mr. Chapman's excellent tactics.

Election Trials.

The trial of the protest against the election of Dr. A. E. Adams M. P. for North Park is concluded, the election being voided without any objection on the part of the defendant. The protest was made on the part of the defendant, the Ontario Liberal charges not having been substantiated. Cleland will therefore be confirmed in the seat.

West-James a Farmer.

West-James a Farmer, whose name is connected with the Birchall affair lived in Winnipeg in 1882 and got into the farm plot, business returns from there from 1882 to 1889 accompanied by a letter named Davies and two pupils. On their arrival the farm which Jones was supposed to have failed to materialize. Jones then went to California.

Vacant Seats in Ontario.

Toronto, Dec. 10.—There are now four seats in the Ontario legislature vacant those of the township of Windsor named Jones by the members and one by death. All these constituencies returned supporters of the government.

Canada at Toronto.

Montreal, Dec. 10.—Adam Brown M. P., Dominion commissioner to the Jamaica exhibition, states that eighty eight Canadian cities and towns will be represented at the exhibition, and the Dominion will show up well in the extent and variety of the exhibit.

Press to Death.

Sturbridge, Dec. 10.—An aged resident of the township of Windsor named Donald Morrison, was on Saturday found dead on the way to his home for which he had started Friday night.

SECOND EDITION. ROBBED HIS WIFE.

A SPANISH HUSBAND OF AN AMERICAN LADY DISAPPEARED.

He Secures \$70,000 of His Wife's Money Before He Goes—A Letter From the Female Friend of the Deceased Wife.

Special to the Gazette.

New York, Dec. 10.—A morning paper says Tomando Uberta Laveo, a Spaniard, had disappeared with about \$70,000 in cash belonging to his wife, formerly Miss Cecile Watkins of Maplewood Manor, Ky.

They were married, in October last after a six weeks engagement and came here accompanied by a friend of the young woman, Miss Lila De Montez.

Some time after their arrival here, Laveo received an alleged cable dispatch from his father in Spain calling him home. He indeed, he was away, and also received into entrusting her money with him.

Shortly after Laveo's departure, Miss Montez also disappeared leaving a note, saying she had gone with the man she loved. The police have the matter in hand.

FROM OTTAWA.

Vancouver's Dry Dock—The Cable Trade—Reduced Passages—Annie's 20 Balan Factory Deton - 27-96.

Special to the Gazette.

Ottawa, Dec. 10.—The collector of customs at Chapeau, has written to W. Smith, deputy minister of marine, expressing his apprehensions as to the proposed dry dock here to be used for the proposed dry dock here.

Colliers of Aberdeen, the promoter of the South coast project interested in the importation of Canadian more cattle has written to W. Smith, deputy minister of marine, expressing his apprehensions as to the proposed dry dock here to be used for the proposed dry dock here.

An application was made minister of marine yesterday for the use of the government steamer Stanley to cut out the schooner from up in Summerside harbor, P. E. I. It was not deemed expedient, to withdraw the Stanley from the mail route, but reduced passages were given to some of the crews for the vessels who returned by another steamer to their homes in Nova Scotia.
