The driver expostulated. He could not help it, he said. Offensive flaunting of several brooms in his face served to change his mind, however, and he drove away.

When the man with the blue prints arrived to select the site, he was beset with such suddenness and earnestness by the militant females that he was glad to make his escape without tarry-

ing to argue the question. It is contended by those who live near the proposed camp that the location of a tuberculosis retreat will depreciate the value of their property and make the neighborhood undesirable. At a meeting of the residents of the dismanual training for the province, and trict, held last night, legal counsel was engaged and it was resolved to fight the establishment of the sanitarium through the courts.
