

THE POOR DYSPETIC. In the Most Miserable of Mortals—Only Similar Sufferers Can Understand the Hours of Agony.

There is no mortal more miserable than the poor dyspeptic. He is never healthy, never happy—always ailing, always in a bad sort of way.

If you are a dyspeptic, you know the signs: the coated tongue, the dull headache, the heartburn, the biliousness, the hopeless torment after meals, the hopeless despondency.

Any one of these signs points to indigestion. The sure cure for indigestion is Dr. Williams' Pink Pills.

During the last week Alice Huston's presence in Mrs. Wylie's household had not been an unqualified success.

There was a slight and almost imperceptible impatience in the widow's manner, in the infection of her pleasant voice.

Brenda rose suddenly from her seat and crossed the room toward the window. There she stood with her back toward him, a graceful, dark silhouette against the dying light looking into the street.

"I am sorry to hear it," he said, slowly, "because it would be my name has been bandied between them, and if that is the case my hands are tied. I can't do it."

"I told Alice some time ago that it would be a mistake for me to manage this . . . this miserable affair without your help."

"You are equal to it," he said deliberately. She laughed with a faint gleam of her habitual good nature.

"Thank you. That is a very pretty sentiment, but it is hardly the question."

"My help," he continued, "need not be obvious or very casual or reserved. But I am not going to leave you to fight this out alone."

Brenda was forced to leave you once, and she will not do it again. What does Mrs. Wylie say to that?"

"Nothing as yet. She is waiting on events."

"Ah, then, she is in reserve, as usual. When the time comes, I may rely upon her help. But until then . . ."

"The . . . interrupted Brenda in an agonized voice, "the time has come. She started back from the window, her face as white as her snowy throat, her eyes contracted with horror."

"He is there!" she whispered hoarsely. "He is in the street. Coming in to the house!"

Then her hands clutched his sleeve with a womanly abandonment of restraint, and he stood quiet still in his self-control.

In Peace and War Or, The End of It All

CHAPTER XII.—Cont.

A week later Brenda was sitting in the same apartment again. But this time she was alone.

From the kindness of heart Mrs. Wylie had managed to allow the girl an afternoon's leisure, and Brenda was spending this very happily amidst her books and magazines.
