CO-OPERATION IN FRUIT GROWING.

it is evident that the development of the fruit industry but it is without a civic improvement club, or a municipal of the province is being proceeded with along practical art society-agencies for giving force and direction to shows that the provincial government is donating \$500 which even the city of Halifax possess in special prizes, and that this sum will be largely aug-

Mr. A. G. Turney, provincial horticulturist and secretary of the association, in calling the attention of growers to the fruit show and to the advantages of becoming members, lays stress on the importance of co-operation. "We would strongly urge upon you," he writes, "the advisability of becoming a member of the New Brunswick Fruit Growers' Association, and participating in the great work of developing the fruit industry of the province. We need your help and hope to receive it. We think you need our help. We have been struggling along individually for years—let us now grasp the spirit of the age and work together."

The appointment of Mr. Turney by the local government has been fully justified by the practical work he has already accomplished. His plea for co-operation on the part of fruit growers is well timed. More in terest is being taken in this industry than ever before, and it cannot be too strongly impressed upon those entangles."

The appointment of Mr. Turney by the local government has been fully justified by the practical work he has already accomplished. His plea for co-operation on the part of fruit growers is well timed. More in terest is being taken in this industry than ever before, and it cannot be too strongly impressed upon those entangles.

Apple growing is one of the most important, as well as one of the most profitable branches of the fruit growers' industry, and that there is room for great development along this line is continually being emphasized by experts who visit this province. Mr. G. H. Vroom, Dominion Fruit Inspector, is on record as saying that the St. John River Valley is destined to become one of the best apple growing sections of the Dominion. Mr. A. McNeil, chief of the Dominion Fruit Division, speaking at Fredericton in 1907, was even more emphatic. "Any "man who says apples cannot be grown successfully in "the province of New Brunswick, in face of the exhibits "we have here today, does not know what he is talking "about," was his comment.

"about," was his comment.

Since then the provincial government has done much to stimulate an interest in apple culture and fruit growing generally. The active campaign inaugurated by Mr. W. Hubbard, as provincial secretary of agriculture, the appointment of Mr. Turney as provincial horticulturist, the practical demonstrations and lectures which are continually being given in all parts of the province, and the renewal of interest on the part of the fruit growers in their own particular association, are the results of this forward policy. The fruit show next November should rival any similar exhibitions held in the Maritime Provinces. It is in the interest of every fruit grower in New Brunswick to support it.

ROOSEVELT.

Tomorrow there will be a civic election to fill the vacancy among the aldermen-at-large caused by the resignation of Ald. Kelley. There are two candidates for the seat, one of whom, ex-Ald. Scullly, was defeated by a small margin of votes at the last contest. The other candidate was a new man at the same election, and now makes a second attempt to become a city father. So little interest seems to be taken in the contest, that the question is naturally asked whether such accidental vacancies, which rarely occur, need be filled at all during a current aldermanic term. At present a specific provision of the law requires the holding of an election, but with sixteen members remaining in the council there are probably quite enough to do the work of the city.

But Roosevelt, as a moral platitudarian is a force making for public righteousness, and though the hero worship with which he is regarded may be more credit-able to the hearts than to the heads of the common people, it is nevertheless one of the most encouraging

THE COMMON WEAL.

In St. John the civic spirit is not lacking, but there s a noteable lack of agencies through which it might From a perusal of a pamphlet issued by the New find free and adequate expression. The city has two of a fruit show to be held in St. John next November, trying to foster the development of the national spirit; A glance at the preliminary announcement the artistic impulses and eclectic sense of the con
