I take this opportunity of making a reference to my predecessor, Earl Grey, and of saying how fully I realize the difficulty of succeeding one who so completely identified himself with your joys and sorrows, and by his long residence amongst you, had become a most enthusiastic Canadian. I know with what regret he left you and how his sympathy and affection will remain with Canada till the end of his days.

SCENE OF REBELLION IN CHINA WHERE TROOPS HAVE BEEN RUSHED

A BIT OF HANKOW, THE YANGTZE-KIANG, WU-CHANG IN THE DISTANCE.

The capture of Wu-chang by the revolutionists under the leadership of the soldiers who maintained constancy, in the opinion of diplomatists here, the gravest situation in China since the Boxer uprising.

This is the first instance of the complete overthrow of governmental authority in any provincial capital since the capture of Hankow.

The part played by the troops causes unceasing alarm in court circles, arousing the suspicion that the new army is honeycombed with revolutionists.

Disquieting reports from Canton inspire fears of similar outbreaks in the southern provinces.

The general staff is preparing to rush troops to Hankow.

The Chinese officials have requested the consuls to have foreign gunboats patrol the river to prevent the revolutionists from crossing.

Was William Ryder Victim of Assassin?

Strong Suspicion that Man Whose Body was Found on Jordan Mountain, Near Sussex, Came to His Death by Foul Play—Three Bullet Wounds Found in His Heart—Thorough Enquiry Will Be Held.

Sussex, Oct. 15.—Strong suspicions are now entertained here that William Ryder, of White's Mountain, whose body was found near Jordan Mountain yesterday, came to his death by foul means and a searching investigation into all the circumstances will be held.

When the body was found yesterday there was no shirt upon it and there were three bullet wounds, one through the heart and the other two near it. Some neighbors searching in the vicinity today found the bullet which the assassin used when the wounds were inflicted. It had still a shell in it. They also found the unfortunate man's shirt with three bullet holes through it corresponding to those on the body.

Both the rifle and shirt were brought to Sussex where they are now in the possession of Chief of Police McLeod and the articles may possibly be used as evidence. It is remembered that some years ago Ryder's son was accidentally shot in his father's house with the identical rifle which had again been put to so tragic a use.

Ryder was a middle aged married man. He had the character of being a sober, man, but is said not to have been bright mentally. It is known that last Monday he was in Hampton attending the court. He returned home that night and on Wednesday went deer shooting with the Snider rifle.

On Friday a party of hunters found the body in the woods near Jordan Mountain. The body was taken to Havelock where Coroner Lamb took charge of the case. It was supposed at first that Ryder had shot himself. Since the finding of the rifle with which the deed was done, however, people are pointing out that it would be manifestly impossible for a man to carry a rifle through a forest, and that the rifle must have been shot himself three times so near the heart with a Snider which carries a heavy bullet. The finding of the unfortunate man's shirt apart from the body is another circumstance which is hardly consistent with the suicide theory. The people here are unanimous in thinking that under the circumstances no time should be lost in getting to the bottom of the mysterious tragedy.

CYCLONE DID BIG DAMAGE IN INDIANA

Village of Ben Davis Badly Shaken Up and Four Persons Hurt—Many Buildings were Wrecked.

Indianapolis, Ind., Oct. 15.—A cyclone which struck Ben Davis, a village near here tonight wrecked thirteen homes and stores, injuring four persons, one probably fatally and carrying nearly two hundred feet of fence and a large amount of lumber. The damage estimated at \$50,000. Residents had noticed the approach of the cyclone since the morning of the 14th when a dense fog had settled over the town. The cyclone struck the village at 10:30 p. m. and the force of the wind was so great that many buildings were blown down from their foundations, and one residence was picked up and carried nearly two hundred feet and hurled into the side of a brick building. Nearly every building in the town was damaged. Pearl Roberts, 15 years old, who was caught under the debris, was injured internally and probably will die.

TAFT TURNS FIRST SOD OF EXPO. PLANT

President Officiates at Breaking of Ground at San Francisco for Panama Pacific Exposition in 1913.

San Francisco, Cal., Oct. 14.—Under conditions that were almost ideal, ground was broken here today for the Panama Pacific exposition of 1913, that is to commemorate the opening of the Panama canal. President Taft with a golden spade lifted the first shovelful of earth from the ground on which the exposition buildings will be erected and spoke from a platform erected just in front of the grandstand in the stadium. Only a hundred feet away was a long wooden stand thirty feet high on which were a dozen photographers.

At either corner of this photographic corner were two moving picture machines that whirled as the president and Mrs. Taft played their parts. Under the warm sun a dozen women faint, but most of them were treated immediately by the emergency hospital corps on the ground. Mrs. Taft was unfortunate both times she sang, for when she opened the programme with an aria, a hand attached to one of the instruments was just entering the opposite side of the close and when she sang the Star Spangled Banner, the thousands of fire crackers that the ceremony committee had ordered fired, were exploded.

REVOLUTION FINANCED IN THE STATES

Dr. Sun Yat Sen who is Favored for President of Proposed Chinese Republic is in Chicago.

Chicago, Ill., Oct. 14.—Dr. Sun Yat Sen, who is favored by the Chinese revolutionists for president of the republic they hope to establish, is in Chicago. He arrived here early this morning. He was found late tonight at the headquarters of the young China society, where he had gone to attend a secret meeting to aid in raising funds for the revolution. "I cannot discuss my plans or tell anything of my movements since I am in Chicago," he said. "Perhaps I can give you some information in two or three days." Dr. Sun according to his friends here, does not fear the danger of being assassinated by a Royalist agent for the reward of \$75,000, which is on his head, as much as he does the probability that the American government will take action to prevent him from directing the revolution from this country, should he gain much publicity. For that reason he plans to keep secret his movements.
