Councillor Bullock—The next order of business is the election of a warden. As retiring warden I wish to express my appreciation of the co-operation I have received, and I hope my successor will have the same support and harmony as I have had.

Coun. Hayes—paid a tribute to the memory of the late James E. Bryant. He then referred to the municipal law that the county and city should alternate in election of warden. He then moved the nomination of Coun. Bullock.

Coun. O'Brien—seconded.

Coun. Jones—Move nominations close.

Carried.

Coun. Bullock, declared elected, took the chair, and promised to do his best to discharge the new duties imposed upon him.

Juvenile Court

The Council went into committee, and a committee consisting of the members of the Council opposing the appointment of a Juvenile Court was read.

A. R. Crookshanks, chairman of a committee recommending the establishment of a Juvenile Court was heard. He read a long list of societies which favored the Court, and went on to say that the Juvenile Court had given good results in other cities, and they wanted St. John to be up-to-date and in line. He was not after the judgeship, as some have asserted; he had no personal ambition to serve.

A. M. Belding said the Juvenile Court was old enough to have a budget, and would not inflict on the children's Aid Society, and the vital character of its work. The same point, with the same motive, which established the Children's Aid Society, and the vital character of its work. The same point, with the same motive, which established the Children's Aid Society, and the vital character of its work.

Mr. Belding denied reports he was looking for a judgeship, and read a letter from the Juvenile Court Judge at Halifax, who has jurisdiction over the Province, saying he had accomplished wonders and that any community which wanted a good future for its children should have a Juvenile Court. The business of the Court was to enquire into the causes of juvenile delinquency, and try to prevent them.

If it was true that the country was full of young people who should be locked up, it was time something was done to remedy the conditions which promoted this state of affairs.

Warden Bullock—114 Juvenile cases were dealt with by the courts last year. What about criminal cases?

Mr. Belding—The Juvenile Court would deal with all cases of children under 16. Where other parents would punish the father's religion determined the religion to which the child would be assigned; in the case of a child born out of wedlock the mother's religion would be the consideration.

F. Campbell, President of the Trades and Labor Council said the labor men were opposed to the Juvenile Court because they felt it was directed against the children of labor. Children of capabilities guilty of ordinary street crimes would not be brought before the Juvenile Court—they would escape as they do now. The common law was good enough for labor. He referred to the Trades Council offer to put 500 men on duty on New Year's Eve when the policemen were locked out and to provide men to protect the street railway property when the street railway men were on strike.

Warden Bullock—Please confine yourself to the subject.

Continuing Mr. Campbell said workmen or anybody else should be

obliged to look after their children, and not allowed to drop them extract while their children were in the hands of a society.

Peter Sharkey said the people who wanted Juvenile Courts opposed every movement to obtain for the working class sufficient wages to enable them to support their children in decency. The Juvenile Court would not be applied to the children of the capitalist class; it would be directed against the laboring class and would try to show up the laboring classes in a bad light. Promoters of the Juvenile Court should attend to their masters than the regulation of working class families.

Reduce Your Fat Without Dieting

Years ago the formula for fat reduction was "diet"—"exercise." Today it is "Take Marmola Prescription Tablets." Friends tell friends—doctors tell their patients, until thousands know and use this convenient, harmless method. They eat what they like, live as they like, and still lose their weight, two or three pounds of fat a week. Simple, effective, harmless Marmola Prescription Tablets are sold by all druggists—a large case for \$1. Or if you prefer you may write direct to the Marmola Company, 864 Woodward Ave., Detroit, Mich.

Business men and women are apt to fall for the popular theories advanced by food faddists. But it isn't what you eat but what you digest and assimilate that should command thought and attention. You may eat fried eggs, sausage, ham or bacon for breakfast, and feel tip-top at lunch time if you follow the meal with a Sturtevant's Dyspepsia Tablet. Or if your stomach is full of gas, sour, or has a gnawing sensation of heaviness instead of the keen sense of appetite, Sturtevant's Dyspepsia Tablets relieve these distresses and introduce you to the next meal of a day's work with a quiet, restful stomach.

Many physicians prescribe these Tablets for indigestion, dyspepsia, and other digestive disorders, as they contain harmless properties that work with an alkaline effect just as the stomach does when in perfect health. They are particularly adapted for business men and women, who are often called upon to discuss important business matters at a luncheon or dinner.

Get a cent box of Sturtevant's Dyspepsia Tablets at any drug store, eat all you want of what you like with no gassy stomach, no sour, belching, bilious distress, no coated tongue nor heavy, drowsy feeling after eating.

regretted the introduction of personal valuations in the city tax rate.

Councillor Jones said they already had sufficient machinery to carry out the scheme. Judge Armstrong was ready to deal with juvenile cases, and the trustee officer could do probation work. This would save the county the salaries of two officers.

Coun. Hayes said he was in favor of doing anything for the good of children. He did not profess to know about the Juvenile Court, but he had great respect for the opinion of the philanthropic ladies who said such an institution was necessary. If the county fixed the compensation of the judge, they would have sufficient control of him. He regretted the imputations of class motives.

Coun. Mosher said they had a duty to children who were being neglected. The great difficulty was the lack of proper houses, which was growing, and some families were unable to bring up their children under proper housing conditions.

Coun. O'Brien said when he saw young parents know how to look after their children. Now some parents ought to be sent to jail.

Coun. Fisher's motion to refer the matter to the Legislative Committee was defeated by the following vote:

Yeas—Fisher, Hayes, Mosher, Campbell, O'Dell, Bentley.

Nays—Coun. O'Brien, O'Brien, Golding, Bowland, Donovan, Shanklin, Anderson, O'Donnell.

Coun. O'Brien's motion to strike out the Juvenile Court was adopted.

The fees of constables in attendance at Supreme and County Courts was raised to \$2.50 per day, and turnkeys' salaries were fixed at \$85 per month.

A bond issue of \$4,000 will be made to erect balconies at the St. John County Hospital. Authority was given to purchase \$5,000 on a refrigerator plant, and \$9,000 for a barn and coal bin, at the St. John County Hospital, provided the Dominion Government pays the balance of the cost.

It was decided to refund \$76 to Patrick Kane in order to clear up the title.

Geraldine Farrar's Greatest Photoplay

"The World and Its Women" At The Imperial A Superb Production—On Again Today.

Geraldine Farrar's newest Goldwyn picture, "The World and Its Women," which is being shown at the Imperial Theatre again today and Thursday, in many instances parallels the meteoric career of the famous star's rise to fame. Miss Farrar's remarkable vocal endowment was recognized in her youth when she sang in the churches of her home town of Melrose, Mass. In the picture, Marcia Warren, "discovered" by a Russian nobleman, who heard her sing a folk song. In real life, Miss Farrar's musical education was made possible by an indefinite loan from Mrs. Bertram Webb of Boston, in real life, Marcia Warren was prepared for the opera through the beneficence of the old prince who had confidence in the future of the young American girl. In Miss Farrar's operatic career, she astounded the critics who first heard her sing; while in "The World and Its Women" Marcia Warren, as portrayed by the actress, was prepared for the opera through the beneficence of the old prince who had confidence in the future of the young American girl.

These operatic scenes were moments of intense joy to Miss Farrar, for she combined the two arts she loves—music and acting. Those who see "The World and Its Women" will readily understand why these scenes are so marvellously real.

The Imperial was crowded yesterday by the mere announcement of Farrar's name and the photoplay the people saw made the great operatic and movie star greater than ever.

"The World and Its Women," in which Louis Tellegen, Miss Farrar's husband, played the male lead, is certainly one of the big films of the year.

NEW YORK HAVING ANOTHER RUN OF INFLUENZA

Seven Deaths Were Reported to the Health Department Yesterday.

New York, Jan. 19.—Seven deaths from influenza were reported today to the City Health Department, making a total of ten since Friday. The number of cases now prevalent was estimated at four hundred, of which ninety were reported today and 59 on Saturday.

Thirty-six deaths from pneumonia were also reported today, making a total of sixty-eight since Friday. The number of new cases reported was 116 compared with 104 on Saturday.

"There is nothing at all in the nature of an influenza epidemic here," said Dr. Royal S. Copeland, city health commissioner. "We have always had influenza and pneumonia deaths at this time of the year."

New York, Jan. 19.—Whisky, wines and cordials valued at \$5,000,000 to \$10,000,000 have been seized here in the forty-eight hours by government prohibition agents. About one hundred federal officers spent today searching saloons, warehouses and piers for contraband liquors.

The largest single seizure made by the government agents was 45,000 gallons of high grade whiskey which were taken from a lighter which had been sunk in the Hudson river. The wrecking company had just raised the boat out of the water when the agents appeared and took charge of the cargo. At Pier 23, in the East River.

CASTORIA

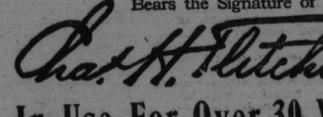

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. STRONG PLEA FOR UNION OF MARITIME PROVINCES

Truro, N. S. Jan. 19.—H. J. Logan of Amherst, president of the Maritime Board of Trade, in an address before the Canadian Club tonight made a strong plea for union of the Maritime Provinces. His slogan was "get together for the upbuilding of the three Provinces, as the 'Atlantic Province' and the upbuilding of that Province would be the upbuilding of Canada, the premier Dominion of the Empire."
