It may be assumed that had the school been located there your correspondent's picture would have had a

different setting He assumes that the districts will contribute \$500. No figures have as yet been made up, but let it go at that. It is not material, as the districts will be asked contribute toward the support of the school neither less nor more than they have been accustomed. He says that Sir William Macdonald will contribute \$1,000

per year for three years and that the total cost of the school will be \$1.500 per year and so on. Where did he get this information? He must have inside facts from Sir William Macdonald, for certainly Prof. Robertson never gave out any such statements.

over the building He fears litigation How can there be a despute over what costs none of the districts anything? The ouilding will be built and equipped at mated cost of \$3,000, entirely from the Macdonald fund, before any of the districts will be called upon to contribute to support its schools. It need not con ern anvone what use .is pest not to use it for the schools.

of his election. Charles Curliss seems to be the choice of the electors in this vicin-ity and a determined effort will be made to prevail upon him to be a candidate. The opening of a road from Grand Falls to Plaster rock will be the pledge required of candidates by the electors in the up-per half of the county. Such a road would shorten the distance to the Tobique coun-try some 30 miles and would open up a fine country. The building will be built and equipped from the Sir William Macdonald fund, which is, for all the provinces, \$150,000. Each district will be expected to con-tribute as it has been doing for the support of its own school.
