OF INTEREST TO WOMEN

Plain custard, cold and poured over three cupsful of sliced oranges makes a delicious summer pudding. Grapes and apples are among the most nutritious fruits and should be eaten, even by the most delicate.

Where it is impossible to get ice, food can be kept cool by placing it in a large crock and setting the crock in a basin of water. A bit of fine mosquito netting placed under the hole in a stocking, and used as a foundation for the darn, is a great help.

Housekeepers should plan to have simple meals, especially dinners, in hot weather, using fruit preserves, instead of more elaborate dishes.

British Columbia Got Half of It

Nearly 20,000 Immigrants to Lower Provinces Last Year About 2,500,000 New Comers Have Arrived in Canada in Past Thirteen Years of Whom Slightly Over Half Have Settled in the West—Bulk of Them Were British and American.

(Special to The Telegraph.) Ottawa, August 7.—A statistical report issued by the immigration department, gives some interesting figures as to the nationality and distribution of the 2,500,000 immigrants who have come to Canada during the thirteen fiscal years ended March 31 last. It is worthy of note that eastern Canada got nearly half, or 1,104,631 of these new citizens, as compared with 1,410,859 who went to the prairie provinces and to British Columbia.

Of the two one half million immigrants who have arrived since 1900, nearly one million, or 878,726 have been from the British Isles. The influx from the United States, 891,129, while from non-English speaking countries the arrivals have totalled 636,285.

The latter include, 164,527 Austro-Hungarians, 89,098 Italians, 82,476 Hebrews, 67,278 Roumanians, 50,762 Germans, 25,016 Chinese, 24,220 Swedish, 21,095 French, 24,396 Polish, 17,533 Russians, 11,285 Danes, 10,210 Belgians, 12,895 Bulgarian, 6,080 Greeks, 6,805 Syrians, 6,208 Hindoos, 3,858 Turkish, and 4,025 other. Negro immigrants for the period totalled 62, and 211 of these came in last year.

The 19,000 Chinese who have come to Canada during the past three years, have contributed to the public revenue via the \$500 poll tax on them, no less a sum than \$9,500,000, or almost half the total estimated cost of the Hudson Bay railway. Practically half of this total has gone to the treasury of British Columbia.

Deportations of immigrants for various causes during the thirteen years have totalled 6,907, the number for the last fiscal year being 1,281. There were deported last year 384 for criminality, 220 for insanity, 329 for being public charges and 107 for vagrancy.

BRITAIN'S DISTRUST OF GERMANY VANISHES

“GRAPE JUICE” DIPLOMACY CONDEMNED BY SENATOR

Washington, August 7.—Democrats made slow progress today in advancing the new tariff bill. An opposing speech by Senator Warren, Republican, a long and sharp debate between Senators Stone and Lippitt over the making of the Payne-Aldrich tariff law, and an attack by Senator Sherman upon provisions of the tariff schedule took up much of the day.

Senator Sherman opposed the fifteen per cent rate on raw wheels in the bill, saying it meant ruin to American manufacturers for the benefit of those in England and Germany. Reviewing exports of wheels from this country, last year he said: “Not a dollar’s worth was exported to China in 1912, and it is reasonable to suppose that not a dollar’s worth will be exported in 1913. Instead of dollar diplomacy in the far east with thousands of dollars worth of goods sold there, we now have grape juice diplomacy and the sale of nothing.”

Senator Stone brought up the question of who furnished the facts for the cotton schedule of the Payne-Aldrich bill. He quoted at length from a speech in May, 1906, of the late Senator Oliver, in which it was charged that Senator Lippitt—not then in public life—had gone to congress representing the New England cotton men with the statement that they wanted no increase and had gone away with material increases.

Senator Lippitt said the Democrats were acting like “cuttlefish” and his exposure yesterday of the cotton schedule in the present bill made them anxious to discredit him.

Excursions and Picnics Follow Close of International Meeting in Montreal.

Montreal, August 7.—With their business sessions completed, members of the International Brotherhood of Locomotive Engineers in session here, are doing nothing but the closing round of social events to occupy their minds. Today was a busy one. In the morning some of the delegates met in secret session to conclude what business remained from the previous day, while others, together with most of the women, spent the forenoon strolling through McGill University grounds and building the 1,700 excursionists over the Macdonald college grounds.

Tonight the round was made of Dominion Park. In the morning a trip around the harbor is planned, and one of the largest steamship companies represented here have issued invitations for the railroad men to investigate matters relative to the extent of looking over their boats now in the harbor.

In the afternoon a run down the river has been arranged. At 10:30 tomorrow evening the C. P. R. excursion to Quebec will take the delegates to the ancient capital and Montmorency Falls, returning Saturday evening, when the visitors will depart for home.

A hot wind that blew in some parts at the rate of 26 miles an hour added to the discomfort of the day.
