How much better and safer would it be to have it always in the house. FARMERS AND OTHERS.

IF you want to protect YOUR BUILDINGS and FAMILY from injury or harm by Lightning, secure immediately PROFESSOR MORSES LARGE SIZE TWISTED RODS with platina points and PATENT INSULATORS, which are warranted to be a perfect protection against injury from Lightning.

As some Buildings have been struck and burnt by Lightning with Rods on, many falsely contend that they are no protection, without considering the Size of the Rods, the kind of insulators and the imperfect way they are put up. Take an imperfect ELECTRIC MACHINE without good insulators and it will not work, neither will the Magnetic Telepraph operate correctly if any part of it is not properly put together. And so it is with Lightning Rods. Get the small cheap Rods and inferior points and insulators, and your building will be sure to be struck by lightning, as they will attract the electricity but are not sufficient to carry it off. But if you want your buildings protected, call on the Subscriber for PROFESSOR MORSES' LATEST PATENT INSULATORS AND POINTS, and the large TWISTED RODS, and your buildings will never be struck by lightning.

ALL ORDERS PROMPTLY ATTENDED TO.
