

It Needs No Painting

Amatite ROOFING

THE superiority of Amatite over all other ready roofing is apparent to anyone who uses it.

Amatite does away with all roofing troubles and unnecessary expenses because it is made with a real mineral surface which needs no painting.

It is durable, fire retardant, practical, economical.

Don't buy any other roofing till you look up Amatite. Write to nearest office for samples.

Creonoid Lice Destroyer and Cow Spray

Creonoid sprayed on cows keeps away flies. Use it before milking and cows will yield better.

Everjet Elastic Paint

Save money by using this black paint wherever the color is no objection. Elastic, heat-proof, durable. Use it for "rubber" roofings and all exposed iron and wood.

PEASE "ECONOMY" FURNACE

Burns Air

The ingenious air blast placed above the firepot, draws air in over the coal and burns it in combination with the coal gas.

This aids in the combustion of the coal—gases are consumed which would otherwise escape up the chimney.

This adds to the heat—prevents waste of coal and helps bring true the statement that a PEASE FURNACE "Pays for itself by the coal it saves."

TRADE in your old separator on account of a new DE LAVAL

An up-to-date De Laval Separator will, on an average save its cost every year over any other separator.

In addition to the actual saving in more and better cream there is also the saving in time of separation and cleaning, in easier running, greater durability and fewer repairs.

Because of these savings more than 40,000 users of inferior and worn-out separators of various makes last year took advantage of the De Laval exchange allowance and traded in their machines on account of De Laval.

USERS OF OLD DE LAVALS, on account of the many improvements in the modern De Laval, over machines sold 10 to 25 years ago, including closer skimming, easier running, better oiling, etc., will also find it to their advantage to exchange their old De Laval for an up-to-date De Laval.

SEE THE NEAREST DE LAVAL AGENT. He will tell you how much he can allow on your old machine, whether a De Laval or some other make, toward the purchase of a new De Laval. If you don't know a De Laval agent, write to the nearest De Laval office giving make, number and size of your present machine, and full information will be sent you.

QUELPH. ORGAN CO. LIMITED ONTARIO

Pump annoyances never worry the farmers who are fortunate enough to be using the

Imperial Anti-Freezing Pump

The "Imperial" is the pump best suited for all farm purposes.

It has a large air-chamber, extending to top of stand, containing 127½ cubic inches. Has 1¼-inch plunger-pipe instead of stuffing-box. The advantage over the stuffing-box is that it has three plunger-buckets which are self-expanding, and therefore require no attention. Can be used on any sized pipe from 1¼ to 2 inches in diameter, tapped for 1¼, 1½ or 2-inch pipe. On tubular wells, the plunger can be withdrawn without removing the pump.

Get our illustrated catalogue with prices—sent postpaid. This interesting catalogue sent address to-day.

WILKINSON PNEUMATIC & ENSILAGE and STRAW CUTTERS

Our Climax "A" mounted is the only successful combination machine of this capacity on the market. It will cut and deliver green corn into the highest silo, or dry straw or hay into the mow. 13" mouth, rolls raise 8 inches and set close to knives, making solid compact cutting surface. Requires less power than any other of same capacity. No lost power. Direct pneumatic delivery, no worm gears or special blower attachment. Knife wheel also carries the fans. No lodging on wheel arms, everything cut, wheel always in balance. Steel fan-case. Supplied with pipe enough to reach any silo, also pipe rock, tools, etc. Ask your dealer about them and write for catalog. We also make a "B" machine unmounted.
