
Class (3) CRACKED AND DIRTY—Eggs, shells of which have been checked, broken, smeared or damaged in shell but fit for food.

2.—Every case containing Canadian eggs intended for export out of Canada shall be marked on both sides in a legible and indelible manner, with the class and grade of eggs contained therein and the words "Canadian Eggs", and every case containing eggs that are to be shipped from one province to any other province in shipments of 100 cases or more, shall be marked on both sides with the class and grade of the eggs contained therein and with the name of the county of origin when other than domestic product. The Minister may from time to time prescribe the form and the sign of the letters that are to be used in such marking. Such marks may be accompanied by other trade designations or brands providing such designations or brands are not, in the opinion of the Minister, inconsistent with or marked more conspicuously than the marks prescribed in these regulations.

3.—Canadian eggs for export shall be tightly packed in Canadian standard cases, in new white fillers and flats, with kiln dried excelsior or corrugated cushions at top and bottom, or one-third fillers on bottom with flats over top and under bottom fillers.

4.—Canadian standard cases shall be made to contain thirty dozen eggs. They shall be made of clean, dry and odourless wood. The ends and centre partitions shall be not less than five-eighths of an inch thick, and the sides, top and bottom not less than three-eighths of an inch thick.

5.—Cases containing Canadian eggs in lots of twenty-five cases or more intended for export out of Canada, and eggs intended for shipment from one province to another province in shipments of 100 cases or more, shall not be shipped until they have been marked by an Inspector.

6.—The mark of approval to be placed on each case hereinafter called the "Government Mark" shall consist of the Maple Leaf and the words "Canadian Eggs" and "Government Inspected", together with the Inspector's number, the device to be in such form as the Minister may approve.

7.—Before the "Government Mark" is placed upon any case the Inspector shall draw samples of at least five per cent of the cases to be marked and shall examine at least one-half of the eggs in each case. The Inspector shall satisfy himself that the samples taken are representative, and may take any further samples and make any further examination that he deems necessary.

8.—No cases containing eggs shall be marked with the "Government Mark" unless the warehouse or rooms in which the eggs are held are in a clean and sanitary condition, and further, no cases shall be marked unless suitable accommodation is provided for the Inspectors to make the neces-
