

THE LITERARY TRANSCRIPT.

be proposed as a boat at the St. George's wharf at Toronto, the health of Captain Drew and the gallant band who cut out the steamer Caroline from Schlosser, and sent her in flames over the falls of Niagara. We dare say Captain Marryat and his publishers, the Messrs. Harper at New York, have no objections that every copy should be disposed of in a similar manner. We can give the Lewis-tonians a hint on which they might act, one which would unequivocally show their hatred—no! of one man, but of every Briton and Irishman in the two Canadas, and which would also show "sympathy" for the rebels and that is to collect all the Canada Bank notes they can, with the exception of the two People's Banks, and make a splendid bonfire of them. "Nothing more easy," says you know now. —*Montreal Herald.*

MORISON'S UNIVERSAL MEDICINE.
NOTICE.
 THE subscribers, general Agents for Morison's Pills, have appointed WILLIAM WHITAKER, Sub-Agent for the Upper Town, No. 27, St. John Street.

That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. WING, Clerk to the Stamp Office, Somerset House, in a period of six years, (part only of the time that Morison's Pills have been before the public), the number of stamps delivered for that medicine amounted to three million, nine hundred, and one thousand.

The object in placing the foregoing before the public is to deduce therefrom the following powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeists. How, therefore, can they (much less individually) know any thing about the extent of its properties?
