

Page Metal Gates—Good—Cheap

Page Gates have the best quality of steel frames, and are put together in a superior way. The filling is galvanized steel wire, and this filling is so fine in mesh that chickens or smallest pigs cannot get through. They have double steel braces, each having a strength of 3,500 lbs. Hinges and latch are of the best known design.

These are some of the reasons why Page Gates are the best.

We are now supplying these gates at only a little more than you would pay for hinges and latch at a store to make your own gate. THINK OF IT:—A complete Walk Gate all metal, everlasting, ornamental, perfect, for \$2.00 (see price list), or a large Farm Gate for \$5.25. At these prices you should show good business sense by using our gates everywhere on the farm that gates are needed. To prove what we say, look at the following prices for delivery at any station east of Port Arthur, at which we or our local dealer can supply you.

FREE DAIRY COURSE AT THE O. A. COLLEGE

FOR

Milk Producers, Milk Dealers and Milk Inspectors

April 17th to 27th, 1905

This ten-day course is designed to help the man on the farm, who is producing milk for creameries and cheese factories and for town trade, to produce better, cleaner and more economical milk; the dealer to sell better and purer milk in town or city; the milk inspector in towns or cities to know how to test milk properly and what to expect in the way of clean cows and stables. The dairy herd, stable and laboratories of the College will be available for instruction and experimental work. A course of ten lectures will be given.

Bone Spavin

Know it by the lump and the hard, bony growth on the inner side of the hock joint, usually low down and a little forward of the center of the leg—a quick hitch with the sound leg, and a stiff movement of the lame leg, bearing the weight on the toe, most noticeable in starting.

Now cases, old and bad cases, the very worst cases, cases where firing has failed, are cured by

Fleming's

Spavin and Ringbone Paste

Guaranteed to cure the lameness for good—may or may not take off the lump. Easily used by anybody, and a minute application usually does the work—permanent if two required. Write for Free Horse Book before ordering. It gives all the particulars and tells you what to do for other kinds of lameness.
