"In regard to my course in senior leaving. I have much pleasure in saying that it has exceeded my most sanguine expectations. The work is most thorough and complete. The study papers are simple and easily understood. In fact, they quite supply the place usually taken by a personal instructor. I am highly pleased with my course, and feel that the money spent in its purchase was most wisely invested."

FEEDING

The average horse, with the usual flow of saliva, eats one quart of oats in about fifteen minutes; with this flow partially stopped it takes thirty minutes.

This shows how important it is to have the proper quantity of saliva and digestive juices.

Clydesdale Stock Food

increases the saliva and digestive juices because the feed being made "tasty" it makes the animals "mouth water," the same as our own when we add butter or jam to our soda biscuit; it makes it more enjoyable to eat. The horse, therefore, eats its feed up clean.

The increased digestion and assimilation makes the blood circulate better, loosening the hide and making the coat glossy. Nothing injurious in it and can stop feeding it without harmful effects.

Our Heave Cure, Tar Foot Remedy, Colic Cure, Embrocation Liniment, Gall Cure, Balsam Pine Healing Oil, and Worm Powders are equally as good in their own way.

Money cheerfully refunded by the dealer if any Clydesdale Preparations do not give satisfaction.
