### QUESTIONS AND ANSWERS. Miscellaneous.

#### RAPE AND TIMOTHY GROWING.

1. I am sowing a few acres of rape, chiefly for poultry. I wish to feed this in winter. Will it keep green during winter if left in field?

2. Can timothy be cut the first year? Swift Current. P. G. M.

Ans.—1. Send to the Agriculturist, Central Experiment Farm, Ottawa, for bulletin on rape.

2. Timothy is usually sown with some grain crop, termed the nurse crop. It will not be in a condition to cut until the season following.

#### CONCRETE FLOORS FOR COWS.

I would like to hear, through the columns of your paper, your opinion concerning concrete floors for cattle, as I have heard several complaints that these floors are cold, and give cows rheumatism. If this is the case, why do leading dairymen use them? A. R. H.

Ans.—Concrete is a better conductor of cold than wood, consequently floors of this material are not as comfortable under stock as are wooden floors; but we have heard very few complaints regarding cement floors, and the great majority of those who have them are fully satisfied with them.

#### SURVEYING.

Can you give me any information with regard to surveying in this country? I have had four years' experience of town surveying in England, and have first-class testimonials. SURVEYOR.

Ans.—There is an association known as the Provincial Land Surveyors' Association, which has the right to pass on the qualifications of surveyors before allowing them to practice. Write the Secretary of the Association, or J. L. Doupe, Winnipeg. The railroad companies (C. N. R. and C. P. R.) are often open to employ qualified men. The amount of projected railroad building should afford lots of opportunities along this line of work.

#### COWS ON SHARES.

I have a number of cows, which I have fed through the winter. I intend to sell out my business and remove to another district. I want to put the cows out on shares for the summer. They are all newly calved, and in good condition. What part of the profit would I be entitled to? What is the usual way of putting out cows on shares for a number of years? SUBSCRIBER.

Ans.—The usual arrangement made when cows are kept on shares is that the owner of the cows receive half the progeny; and the ownership of the cows always being retained by him, reverting to him at the expiration of the term arranged to run them on shares. The dairy produce is the property of the party whose care and at whose expense the cows are kept and fed. An arrangement of this kind to be satisfactory, needs to run for at least two or three years. The party keeping the cows, finds or pays for the cost of the male used.

#### REGISTERING HORSES.

1. Can a resident of the United States become a member of the Canadian Clydesdale or English Shire Horsebreeders' Association? Can a man be a member of both if he wishes?

2. Must he be a breeder or dealer in the breeds mentioned in order to become a member, and what would it cost to join the association, and how much a year?

3. Is a member entitled to the volumes of the studbook each year without additional cost, and when are the volumes printed?

4. What does it cost a member to get an animal registered, and what does it cost a non-member? SUBSCRIBER.

Ans.—1. Yes.

2. Not necessarily. The annual membership fee is \$2.00 for each society.

3. Members are entitled to the volumes free from the time they become members, and while they remain members. The studbooks are not issued yearly, but at such times as a sufficient number of registrations are on hand to make a fair-sized volume.

4. The registration fee to members is \$1.00, to non-members \$2.00. Transfer fee is 50 cents. The secretary and editor for both associations is Henry Wade, Parliament Buildings, Toronto, who will supply forms of application for membership and for registry.

### WORLD'S CHAMPION HARNESS HORSE.

### EATS INTERNATIONAL STOCK FOOD EVERY DAY.

We feed International Stock Food every day to Dan Patch, 1561, and also to the other famous stallions and brood mares owned on our International Stock Food Farm. This farm is located on the banks of the Minnesota River, 12 miles from Minneapolis, and is considered one of the finest stock farms in the country.

International Stock Food, Three Feeds for One Cent, is prepared from roots, herbs, barks, seeds, etc., and won the highest award at the Paris Exposition as a high-class vegetable medicinal preparation to be fed to stock in small amounts in addition to the regular feed.

It is a great aid to digestion and assimilation,

enabling each animal to obtain more nutrition from the grain fed, and we positively guarantee that the use of International Stock Food will make you extra money over the ordinary way of feeding. It can be fed with perfect safety to Horses, Cattle, Sheep, Goats, Hogs, Colts, Calves, Lambs or Pigs. We will pay you \$1,000 cash if International Stock Food contains one ingredient that is in any way harmful to stock. It will make your colts, calves and pigs grow amazingly and keep them healthy. You insist on eating the following medicinal ingredients with your own food at every meal: Table salt, a stomach tonic and worm medicine; table pepper is a powerful stimulating tonic, and mustard is a remedy for dyspepsia. You eat these medicinal ingredients

## DOES IT PAY?

Copper Cliff, Ont., Oct. 14th, 1903.

International Stock Food Co., 4 Bay St., Toronto:  
Gentlemen,—I received your letter to-day, and contents noted. I shall be glad to handle your goods in the future, as I have been doing in the past. I find them O. K. I may say that I bought a saddle horse for \$50, started him on International Stock Food, and he gained every day. I showed him at the Fair this fall, and sold him for \$205. I bought another work horse, just six weeks ago, sold him last week for \$135. I bought him for \$50, so you may be sure I think your Stock Food is all that you claim it to be.

I am sincerely yours,  
GEO. SOUTER.

We have Hundreds of Thousands of Similar Testimonials and Will Pay You \$1,000 Cash to Prove That They Are Not Genuine and Unsolicited.
