IN THE FACE OF DEATH.

flow It Feels to Die Told by a Man Who

A man who recently came near dyling in the course of a serious illness has described graphically in a Lendon paper what are likely to be one's feelings in the face of death.

The most remarkable impression left upon my mind," he writes, "was my power of thinking clearly and rathomally. When, as I learned afterward, my life was believed to be slowly ebbing away I became perfectly conscious of my surroundings, and, as I thought, of approaching death, I remember distinctly moving my lips and bringing some one to my bedside from among the watchers for my end. I could not speak, I think, but I pointed to the room below where my sister and my son were sorrowfully waiting. They came to my side, kissed me and I made some signal for them to leave the room.

My daughter was now on one side "My daughter was now on one side and the doctor on the other, and I falt myself hastening to think before it was too late to say anything. I then thought, shall I send a message to some relatives? Something seemed to say last words are painful. Then with unutterable calm I felt myself slowly passing away. And oh, how quiet it all was, I could not decide whether I was gliding back into an oblong dark place or if it were approaching me. I recognized it meanwhile as the gate of death.

"This was my last thought. I seemed to malt away, and then all was a blank. The next day the doctor told me that at first he believed I was dead."

ALWAYS FOLLOW THE USE OF DR. WILLIAMS' PINK PILLS.

Two Cases in Which They Restored Health and Strength After All Other Means Had Falled...What They Have Done for Others They Will Do for You.

From the Colborne Express.

There are few if any people in Murray township, Northumber and county to whom the name of Chase is not familiar. Mr. Jacob Chase, who has followed the occupation of farmer and fisherman and fishdealer, is especially well known. He has been a great suffisherman and fishdealer, is especially well known. He has been a great sufferer from rheumatism, as all his neighbors know, but has fortunately succeeded in getting rid of the disease. To a reporter he gave the following particulars. I had been a sufferer from rheumatism for upwards of twenty years, at times being confined to the house. At one time I was laid up for sixteen weeks, and during a portion of that time was confined to my bed, and perfectly helpless. I had the benefit of excellent medical treatment, but it was of no avail. I believe, too, that I have tried every medi ine advertised for the cure of rheumatism and I am sure I expended at least \$200.00 and got nothing more at any time than the merest temporary relief At last I was induced to give Dr. Williams' Pink Pills a trial and from that time I date my good fortune in getting liams' Pink Pills a trial and from that time I date my good fortune in getting rid of the disease. I continued using them for several months and daily found that the trouble that had male my life miserable for so many years was disappearing and at last all traces of pain had left me and I was cured. I say cured, for I have not since had a recurrence of the trouble.

As proving the diversity of troubles for which Dr. Williams' Pink Pills are a cure it may also be mentioned that

for which Dr. Williams' Fink Pills are a cure it may also be mentioned that they restored Mrs. Frank Chase, a daughter-in-law of the gentleman above referred to, to health and strength after all other means had apparently failed. Mrs. Chase says:—"I can scarcely tell what my trouble was, for even doctors could not agree as to the nature of it. One said it was consumption of the stomach, while another was equally emphatic in declaring that it was liver trouble. One other was equally emphatic in declaring that it was liver trouble. One thing I do know, an I that is for years I was a sick woman. I know that I was afflicted with neuralgia, my bloodwas prof. and I was subject to depressing headaches. My appetite was not good at any time, and the least exertion left me weak and despondent. A lady friend who had been benefited by the use of Dr. Williams' Pink Pills advised me to try them, and as they had also cured my father-inlaw, I determined to do so, and I have much cause for rejoicing that I did, for you can easily see that they have made a well woman of me I took the pills steadily for a couple of months, and at the end of that time was enjoying the blessing of good health. It gives me much pleasure to be able to bear public testimony to the value of this wonderful medicine."

THE SNAIL'S MOUTH.

The snail's mouth is one of the most extraordinary objects in nature. By the time the snail has worn out the last of its 30.000 teeth, a new set has been provided for it to begin all over again.

Is Your Wife III-Tempered?

Examine her feet, and if she has corns buy her Putnam's Painless Corn Extractor. Home will then become an Eden. Much of the misery of married ife is due to corns. Putnam's Extractor is sure, painless, and prompt.

THE ENGLISH STONE.

Confusion is frequently caused by English weights and measures, The same term does not mean the same quantity in all parts of the kingdom and this is more frequently the case with grain than with meat. The last with grain than with meat. The last named is usually quoted per stone of eight pounds in the principal markets, and official statistics are based on that quantity; this is known as the butcher's stone. Yet in some parts of the country the stone is locally understood to be 14 pounds and meat is sold occasionally by it. A stone of flour is also 14 pounds. When meat animals are sold by live weight, they are sold by the cwt of 112 pounds, which consists of eight stones of 14 pounds each. If a man says a calf weighs 10 stone he means 140 pounds, if, however, he is dealing with dressed carcass, he will say it weighs so many stone, meaning eight pounds, it being dead meat. A stone of wool, potatoes, or other merchandise is also 14 pounds.

INTERESTING STORY FROM MUSKOKA

A Suggestion of the Excellent Work That Has Been Already Done by the Gravenhurst Sanatorium.

Spirit of "New Hope." Letter from Rev. J. Pearen.

At this time of the year our thoughts turn in sympathy towards those less for tunate than ourselves. The successful work that has been done at the Sanato-rium at Gravenhurst for the cure of incipient pulmonary consumption, and the urgent need for help in that direction, compels me to ask for aid from those who wish to help one of the best of all charities, the only institution of the kind in Canada.

The Sanatorium, although it has only

The Sanatorium, although it has only been opened for four months, has already proved that its work is no longer an experiment. Up to the present time 45 patients have been received, representing every part of the Province, especially from the low area of western Ontario, representing all classes of society—editors, ministers, business men, servants, mechanics, students, clerks and others. In almost every case, it can be said, that remarkable progress has been made. A number have been discharged by the Medical Superintendent, cured, or with the disease arrested, so that work may be resumed. resumed.

Great Improvement in Patients.

One of the indications of improvement in the patients, which might be noted, is the encouraging fact that 42 out of 45 have shown a decided increase in weight. About twenty patients have gained from 15 to 28 pounds during the short time of heir stay, and one young man dis-harged a month ago as cured, returned o his work in the city with an increased weight of 45 pounds.

Should it not be a cause of gratitude to

he thousands of suffering people throughout this country, as well as to their riends and the interested public, to know or a certainty, that consumption is now sing cured in our own land, and that it a no longer necessary for the sick ones take a weary pilgrimage to Colorado r California, and thus be exiled far from

Spirit of New Hope

An incident occurred recently which erves to express the spirit of "new nope" that comes to those who enter the anatorium. One of the best known itizens of Toronto having occasion to bring his sick daughter to the institution aid to a friend at the dinner table, "This sthe first meal I have eaten for a nonth." During the previous weeks he had been watching with a troubled heart its child, weak and suffering from the lisease, but after entering the Sanaorium with its cheerful surroundings, and with the wonderful improvement hat he found in so many of the patients, hat he found in so many of the patients to felt that a new hope had come to him

Rev. J. Pearen, a well known Methodist ninister, in a recent note to the Medical superintendent, says:—"I am desirous hat all sufferers should know of the good work that the Sanatorium is doing. When I sent my daughter to the Instituion I felt that it was our last hope so far
is human help goes, but after spending
bout three months there she returned
with a new lease of life upon her face.
The benefit she received seems also to be

the benefit she received seems also to be permanent, for she has increased in weight since her return a month ago."

But what shall we say of the pitiful appeal from the large number of young men and women who seek admission as patients, but cannot be received for lack of means? If we had the necessary funds, the experience of the past four months assures us that we could promise life to fully one-half of those who are now turned away apparently to die. We want \$10,000 at once to help the trustees in carrying on this work. We also want to build four new cottages during this coming season. These would make beautiful memorial gifts.

3,000 Die Each Year in Ontario.

3,000 Die Each Year in Ontario. 3,000 Die Each Year in Ontario.

The report of Dr. Bryce, Secretary of Provincial Board of Health, shows over 3,000 died last year in Ontario from this cause alone. Were the necessary funds given, and with the disease/detected in earlier stages, there is no reason why the lives of over half of them cannot be saved. May we not have your aid in this good work /Your dollar will he'p to save the life of some young man. Yours etc., Toronto, Jan. 4, 1898. W. J. Gags,

ANOTHER VICTORY.

Kootenay Coped with Eczema and Overthrew It.

James A. Wilson, of Paris, Ont., de-lighted with his Daughter's Cure.

All along the line Kootenay is marching to victory. Wherever there is a stand up fight between Kootenay and disease, Kootenay always comes ut Victor. The "New Ingredient" gets in its home thrusts that make disease yield the battle, Nowhere is this better exemplified than in the case of any stubborn skin disease. The use of Kootenay means certrin cure. It was so in the case of Miss Wilson, It was so in the case of Miss Wilson, whose sufferings for 18 months from the cruel tortures of Eczema were such as to make her thankful for any remedy that afforded a chance of relief. Her father, Mr. James A. Wilson, writing under dates of April 29th and May 8th states:—"In regard to the health of my daughter, I am happy to inform you that she is cured of Eczema and has this Monday gone to work in the Woollen Mills here after being out nearly 18 months, and I give your Kootenay credit for curing her.
"You may use the contents of my letters as recommendations, for we believe that every person who has Eczema should know the benefits of Kootenay. There are lots of witnesses here to testify to the contents of my letters, people who saw her when she was very bad and to-day."

to-day."
Signed, JAMES A. WILSON. Signed, JAMES A. WILSON.
According to previous information received from this same gentleman, we learn that Miss Wilson had the disease for 11 months before beginning to take Kootenay Cure, and was under the doctor's care for about 8 months. He said the case was a very obstinate one and she did not get any better. She began using Kootenay on the recommendation of the Rev. Mr. Brown and Rev. Canon Richardson, of London, and is now well.

Here you have a complete history of a

and is now well.

Here you have a complete history of a case from beginning to end and can see that when used with perseverance and conscientiously, how thoroughly Kootenay Cure gets at the source of all disease—Disordered Blood—purifies it, enriches it, cleanses all impurities from it and restores perfect health.
