### GIRLS IN GAIN STRENGTH

Through the Tonic Making Qualities of Dr. Williams' Pink Pills.

of almost every girl there when weakness attacks upon her blood supply great, and there follows backaches, loss of appetite, dizziness, heart palpitations, constant weariness and a decline. All these are not present in any case, but the presence of them shows the necessity of treatment. And there is no other treatment so sure and so speedy as that through the blood-making qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

There is a bit of positive proof of the value of Dr. Williams' Pink Pills in this kind. Miss Clara Fraser, of London, Ont., has been brought back to health and strength through the use of this medicine, and gives the following expression of her gratitude:

"I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. They restored me to health, if, indeed, they did not save my life. I was suffering greatly from anaemia. I lost my weight, I grew so weak I had to be bed. The doctor did not help me any and I was growing weaker, and my heart was bothering me. At last a friend who called to me had read of a similar case by Dr. Williams' Pink Pills and decided to take her advice. I got me a supply of pills and I began taking them. It was not long before I began to find that from the use of the pills, and in less than two months my health was restored. In fact I was in better health than I had ever enjoyed before. I strongly recommend Dr. Williams' Pink Pills to all who are weak and nervous. I feel sure they will not disappoint."

### Dual Perfumes.

There is scarcely a girl who does not have a perfume and delight in it. Sometimes she does not know the best one to emphasize her particular personality, but chooses several, which is more confusing than fascinating. It is never good taste to use so many perfumes. It is better to use one about the person that it shouts to enter a room. We should use a touch from a dropper. An over-does not waste the perfume. It is better to buy a quantity of a good perfume than something which has a cheap price.

There are many perfumes made which are a number of fragrant which may be used about the person. Little bags of them hung in the closet or the hangers padded with silk sachets keep a sweet, pleasant atmosphere about your clothing.

There is a special perfume for you. Find it.

### THE ART OF ADJUSTMENT

The art of adjustment is the secret of social life. Our first natural instinct is to assert ourselves, to think and talk about ourselves, to treat the world as if it were merely a place for our little insignificant selves to display with immense expansion and indifference to the expansion of others. All these aggressive selves are thrown together in the social world, not only of pleasure, but of business. The logical result would be that they should hustle and jostle and bruise and crush one another in the intense effort to get to the top. This does not take place more or less. It would take place to a ruinous extent if it were not for the art of adjustment, which early teaches us that we must adapt our own egotism to that of others, and we can only achieve our needs by co-operation and compromise, in which we are far-sightedly willing to sacrifice our immediate benefit and pleasure to those of others for the sake of future and general advantage. Of all the illustrations of the art of adjustment the greatest and the most striking is that marriage. It is the lack of that art in marriage that fills the divorce courts. Probably love in its essence is the most aggressive as-

### THE ONLY MEDICINE BABY HAS HAD

Is What Thousands of Mothers Say of Baby's Own Tablets.

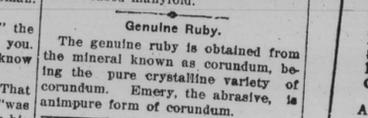

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs. Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says:—"I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving it Baby's Own Tablets." Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Linen Protected by Glass.

What woman is there who would not like to keep her handsomest pieces of linen in full view at all times, but hesitates to do so because of the wear they are likely to receive? To her, then, will appeal the novel idea of covering them with plate glass on buffets, dressers, dressing tables and serving tables. For years, business executives have covered their desks with plate glass as a protection, but not until recently has it been taken up in the household with the same purpose. In this way the most exquisite linens can be enjoyed constantly and will need washing only once or twice a year, which is necessary, in any event, if the pieces are to remain white. When all is considered, the investment in glass is not too much, as the weekly laundry bills are saved and the potential wearing value of the linen is increased manifold.
