SUMMER SPORT

While life in Kentville, especially during the summer season, is a real delight, yet to many of our citizens the beauties of their surroundings are not apparent to nearly the extent warranted, and this because of the sluggish condition of their physical system, brought about by a lack of any regular or intelligent method of exercise.

To enable one to enjoy life to its fullest extent, the body should be regularly, continuously and systematically developed by form of exercise best suited to the physical capabilities by which we have been provided by nature.

The game best suited to both sexes of all ages is Lawn Tennis. It combines the maximum of muscular development with the minimum expenditure of physical energy. It can be enjoyed with equal zest by the young, the middle aged and by those of mature years.

There should certainly be enough people in Kentville, still capable of reasonable physical effort, to form an aggressive lawn tennis association, to take up the threads of the old organization, and place it on a sound and permanent basis.

There is a real opportunity for doing good for the individual and the community.

We trust that it will only be necessary to bring the matter to the attention of our readers in this way in order that definite action may be taken.

CONCERT AT PEREAU

A Sacred Concert will be given by the Progressive Bible Class in the Baptist Church at PerEAU on Friday night at 8 o'clock, June 23rd. Mr. Spinnery, manager of the N. H. Phinney Co., Kentville, will assist with the Columbia Phonograph. Total proceeds for church purposes. Admission 15 cents.

THE NEW EDISON

Without any beating of big drums, Thomas A. Edison has made his greatest discovery—what he calls his favorite invention. He spent over \$2,000,000 and four years perfecting it.

It does what no talking machine can do. It brings right here to Kentville in the original richness, volume and purity, the master music of the world. And the proof is that it can be played side by side with the original music, and trained ears cannot detect any difference. Hundreds of such public tests have been made—here's what the newspapers said of some of them:

"No one could tell which was the real and which the reproduced.—Brooklyn Daily Eagle.

"He has succeeded in recreating the Human voice"—New York Telegraph.

"The ear could not tell when it was listening to the phonograph alone and when to Mme. Rappold's actual voice. It was quite impossible to tell when the phonograph was singing alone"—New York Mail.

"Unless one watched the singer's lips, it was quite impossible to determine whether Mr. Chalmers was singing or whether he was not, the recreation being exactly like his own voice"—Pittsburg Leader.

Judge for yourself. Come to our store any day and ask to hear Anna Case, Marie Rappold, Thomas Chalmers and a score more singing through the Edison.

CARD OF THANKS

Mr. R. S. Thorpe and family, Centreville, wish to thank the many friends for the kindness and sympathy shown them during their recent bereavement.

Great Britain suggests that the prisoners of all the belligerent nations be transferred to neutral countries and be paid for by the respective governments. This will avoid cruel practices. It is hoped that the United States will take the matter up with Germany.
