

STRONGLY ADVISES

"FRUIT-A-TIVES"

Because They Cured Him, And They Will Cure You

WALKERTON ONT., May 9th, 1911. "I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by indigestion and Dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering from like complaints, to commence using "Fruit-a-tives". ALEX. McCARTER, Soc. a box, 6 for \$2.50-trial size, 25c. At druggists or from Fruit-a-tives Limited, Ottawa.

"Personal Liberty."

Speaking at a great temperance meeting in the Auditorium Theatre, Chicago, the Hon. W. J. Bryan said: "I hear them talk about 'personal liberty.' Did you ever hear anybody talk about personal liberty when you talk about the liquor question? That is another question that ought to be defined. When a man tells me he wants personal liberty, I tell him to write it out and let me know what it means by personal liberty." I tell him that when a man enters society he surrenders some of his liberty in return for the blessing of society. Why, my friends, for instance, if a man lives out on a desert, and there is nobody within twenty-five miles of him, he can get on a horse and run races anywhere at any time. But if he goes into a settled community, he can't run horse-races on a public highway. Why? Because you have to have a speed limit for the protection of society. Why, they even have speed limits sometimes for automobiles, sacred as they are. If you can put limits on a racehorse, if you can put speed limits on an automobile, why can't you attach speed limits to a rapid young man occasionally? "Personal liberty!" What does a man mean by it? Does he mean that he has a right to drink anywhere at any time in any quantity, without asking anybody, and regard less of the effect on everybody. Is that what he means by personal liberty? If so, I can't agree with him.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured other cases of cholera, typhoid, E. Colic, Cholera, etc. This is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.

How to Get Rid of Rats.

A gentleman who has experimented and insists that he knows what he talks about, says that it is possible entirely to clear premises of rats by a simple device. One must have a trap that will catch a live rat. It is a good plan to chloroform the creature as then there is no danger of getting bitten and the bite of a rat is sometimes a very troublesome thing. Then a tiny, tinkling bell is fastened around the rat's neck by a fine, strong chain or a wire with the ends securely twisted, so that the rat may neither slip it off nor be caught in any place that it may attempt to crawl through. In a few minutes it will recover from the effects of the chloroform, when it should be turned loose in the cellar or what building one chooses to clear of these trouble some tenants. The noise of the bell frightens it and it rushes instinctively towards its comrades and they in turn become frightened and a panic takes possession of the entire colony. This is certainly a good way to banish rats. Relics of the tribes of red men who inhabited Canada before the white men came to conquer are being sought for in a busy part of Toronto by Dr. R. B. Orr, head of the Provincial Museum. Three of these aboriginal cemeteries have been discovered in Vaughan township, where several very interesting and valuable mementoes of early days were unearthed. The bodies of the dead were carried to places of exposure, sometimes in trees, until the flesh, enclosed in coverings like fur, became dust.

Can a Ship's Cat Keep the Ship?

Can the skipper leave the ship's cat in charge of his vessel? This is the problem that will have to be decided in a British court now. It arises out of the discovery of a living cat on board the abandoned Norwegian barque, "Glenmark," which was boarded by the C. P. R. liner "Montezuma" while on route to Montreal about 545 miles west of Montreal. The barn was found derelict in the ocean—a menace to navigation. A British gunboat was sent in search of it with instructions to destroy or bring it ashore. It towed it into port. Then a living cat was found on board. According to an ancient sea law a ship is not abandoned as long as the cat or dog is still on board alive. Now, it is likely that the courts will decide if the old law is still good.

Caught a Bad Cold.

Last winter my son caught a very bad cold and the way he coughed was something dreadful, writes Mrs. Sarah E. Duncan, of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by all dealers. A little girl was lost on the street, and was brought into the police station. The officers tried in every way to learn her name. Finally one of the officers said: "Tell me, little girl, what name does your mother call your father?" "Why," responded the child, innocently, "she don't call him any names, she likes him!" Despondency. Is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by all dealers. Minard's Lintment Cures Garget in Cows.
