OPPOSES EXTENSION OF WATER POWER

Grand Falls Board of Trade Takes Strong Stand and Has Support of Towns all Along the River

Pursuant to a resolution passed by the Grand Falls Board of Trade, which resolution pleads for the cancellation of the franchise controlling the power resources of Grand Falls vested in the Grand Falls Power Co., controlled by the International Paper Co. of New York, Fred W. Pirie and Meagher Costigan on Thursday evening addressed a representative body of citizens in the Star Theatre.

The resolution in question is as follows: "Whereas the Grand Falls Board of Trade has learned that it is the intention of the Grand Falls Company, Limited, to make application, at the coming session of the Legislature, for a further extension of time before commencing development of water power at Grand Falls; be it

Resolved, that we in regular meeting assembled, protest against any further extension and urge upon the Provincial Government the necessity of immediate development and further be it

LOST HIS RIGHT HAND IN PLANER

Yesterday Casper Cheney of South Gordonville, employed in the sawmill of S. W. Smith at Sticksney, and working about a planer, slipped in some way and his right hand came in contact with the rapidly revolving knives of the machine. The hand was very badly mangled. Mr. Cheney was given first aid by Mr. Smith and Mr. Campbell, an overseas man whose experience taught him the proper method of tourniqueting, and the man was brought to Hartland where, at the home of James Tompkins, the hand was taken off above the wrist. Dr. Belyea, with Mrs. Belyea as anæsthetist, assisted by nurses Mrs. Barter and Mrs. Reese, performed the necessary surgery. Mrs. Barter remains in charge of the case.

Mr. Cheney is a man of about 40 years of age and has a wife and large family.

LAND AND HYDRO-ELECTRIC COMBINATION

C. M. Sherwood, Bath, offers for sale sixty-five acres choice farming land, located at Connell, between land owned by Bertram Perry and the Presque Isle Stream. Bounded on the west by the "Two Mile Brook." About twenty rods below the mouth of the "Two Mile Brook" there is an excellent site for a dam, whereby several thousand horse power of hydro-electric energy could easily be generated. At this point the stream is unusually narrow—only 163 feet wide, which is the level from shore to shore. Both sides are solid rock upwards of thirty feet high. These solid ledges are steep, about 45 degrees, on both sides of the river. No doubt land on the opposite side of the stream as well as flowage could be had at reasonable figures.

With the development of the above site, the village from Hartland to Bath would sparkle and vie with each other in brilliancy, while the wheels of varied industries, including saw and grist mills would revolve as by magic. Only \$150.

THREE MONTHS FOR STEALING \$20

Yesterday Sheriff Foster arrested Lewis Carr in Hartland on a warrant charging him with the theft of \$20 from the Windsor hotel. The money taken was in the form of two American ten dollar bills, and as such currency is rather uncommon here at present, the passing of the money led to the young man's undoing.

Before Police Magistrate, Kelly, Carr pleaded guilty and was sentenced three months in jail, whither the sheriff immediately conveyed him.

BAD FIRE AT CLOVERDALE

A disastrous fire occurred at Cloverdale on Sunday evening when Herbert Adair's fine house, with practically all its contents was destroyed. Fire caught in the oil when nobody was in the house, the occupants being only temporarily absent.

The building was a very nice one and as there was only relatively small insurance the loss is a heavy one. Neighbors quickly on hand did what they could to save the property. The other buildings escaped.

Molasses advanced two cents per gallon on the eighteenth and may go higher. Carr is still selling at ninety cents.

NEW GOODS AT REDUCED PRICES

are constantly being received at

Goods on hand before the recent decline came are being discounted

10, 15, 20 and 25%

Don't purchase till you get our prices

Mattresses from \$2 to \$25. Ostermoor Mattresses are down \$11 from highest price. Not likely to go lower. Now would be a good time to buy Iron, Steel and Brass Bedsteads, Woven-weld, Fabric and Cell Springs, Cribbs, Cots, Davenport, etc. Don't send your money away. Keep it circulating at home and some of it will come back to you.

Regular lines of GROCERIES, CROCKERY WARE, GLASS WARE, FLOUR, FEED, etc., at market prices

JOHN T. G. CARR

For sale—a house, barn and lot. Apply to Carleton Produce Co., Hartland.

CHILD BADLY SCALDED

The two-year-old child of Leigh Golding, of Peck, upset a pan of boiling water on itself yesterday and suffered such a severely scalded arm that the poor child may lose the limb. A heart rending feature of the pitiful affair is that medical assistance could not be secured immediately and the child suffered for hours with what with the best attention would be an intensely painful wound.

For sale—a house, barn and lot. Apply to Carleton Produce Co., Hartland.

METHODIST DISTRICT MEETING

At Debec Last Week—Plans for Methodist Laymen's Convention Soon

The March meeting of the Woodstock District of the Methodist church met at Debec on Wednesday and Thursday of last week with a good attendance of ministers and laymen. The chairman, Rev. F. A. Wightman, presided over the session.

On Wednesday afternoon after a season of devotional exercises, Rev. M. E. Conron of Woodstock gave a very helpful address on "The Good and Evil Tendencies of Doubtful Religious Movements." In the evening Rev. F. A. Wightman gave a talk on mission work among the Indians of the Pacific Coast. This was illustrated by nearly a hundred very fine lantern slides. A large number were present.

On Thursday morning Rev. Hugh Miller gave a very helpful talk on Church Benevolences and how to collect these monies. His paper indicated that all the circuits in the Woodstock District had more than doubled their giving in recent years. This was followed by considerable helpful discussion by both ministers and laymen.

At the same session Rev. H. Harrison read an excellent paper on "Spiritual Values in Modern Literature." This was discussed at length.

An effort will be made to have one of the meetings in the near future take the place of a Methodist Laymen's Convention at which large numbers will be arranged to attend. A committee was appointed to make arrangements consisting of Revs. M. E. Conron and Hugh Miller and Messrs. Baker and Haynes. Votes of thanks were passed to entertaining friends. A fellowship meeting closed the session. The next will be held at Upper Kent in June.

NEW RECTOR ARRIVES

Yesterday Rev. W. P. Haigh, his bride of eight weeks, and his mother arrived here from England, having come over on the C. E. O. S. Minnesota. Mr. Haigh is the minister to the Anglican parishes of Brighton and Aberdeen. The new-comers at once took up residence in the rectory, and are receiving a hearty welcome from the parishioners. The older Mr. Haigh, although English born, spent his girlhood days in Canada. The younger people are entire strangers to the country. The party were accompanied to Hartland by Canon Smithers, diocesan missionary.

There will be services in Trinity church on Sunday at 11 and 7.30 and a large congregation was expected to attend to greet the new rector.

PASSED HIS 33rd BIRTHDAY

A note from Woodstock on Monday said "Grandpa" Charles Gillis is celebrating his 33rd birthday today. His old friends will doubtless be glad to know he is still hale and hearty—just as active as when he lived in Hartland.

Mr. Gillis was born on a farm just south of Hartland and lived there and in town the whole of his long life, moving to Woodstock two years ago. Both he and his beloved wife have the respect and affection of many friends in Hartland who wish them many more years of peaceful life.

EARLY ICE RUN

The ice in the river started about four o'clock on Saturday afternoon and continued to run steadily until the whole river was freed from its wintry covering. The bridge withstood the strain without a tremor. The ice jammed at the lower island and again at Grand Bar so that at two different times the water rose very rapidly, almost reaching the height of a year ago. The date—March 26—is an unusually early one for the ice to run, yet earlier dates are known.

In 1913 the ice ran on March 19, but the subsequent spring was cold and backward with snowfalls in June.

In 1897, 1902, 1903 the ice ran March 20, 21 and 22 respectively.

This year the railway track just south of Deep Creek Sliding was damaged by a washout, which was repaired on Sunday without delay.

WOMEN'S INSTITUTE MEETING

The March meeting of the Women's Institute was held at the home of Mrs. George McGoldrick on Monday

LOST HIS RIGHT HAND IN PLANER
