As this question is frequently asked, we will simbly say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female physician and nurse among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort and practical knowledge, obtained in a lifetime spent as a physician and nurse, she has compounded a soothing syrup, for children teething. It acts like magic—giving rest and health, and is moreover sure to regulate the bowels. the bowels. In consequence of this article, Mrs Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the syrup are daily sold and used here. We think MrsWinslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits and unite in calling her blessed. No mother has discharged her duty to her suffering little one until she has given it the benefit of Mrs Winslow's Soothing Syrup. Try it, mothers—try it now.— Ladies' Visitor, New York City.

Elections has completely surprised Mr Gladstone; and it is hinted the Liberls will be able to carry on their Government without the aid of the Home Rulers. The scheme of the party a day or two ago seems to have been this:

Mr Adams then read the statement from the sheet mentioned, of which the following is a copy:

"Mr. Ryan states he will be able to show he believes that the firm of Burns, Adams & Co. are almost the sole operations at Bathurst; that Mr. Barker, the inspector, forwarded to the department his estimate that 6,600,000 feet had been cut on Crown lands by Burns, Adams & Co., and that the Scaler's return showed \$3,300,000 feet, or just one half the amount reported by Barker.
