LAUHGABLE ANECDOTE.--LA Fayette made me laugh with a story which he said the English officers had told him of General mercinaries in 1776. This officer, a rigid martinet, knew nothing of the sea, and not much more of geography. On the voyage between England and America, he was in the ship of Lord Howe, where he passed or dering the paper will be paid \$100; for the bad sailing of some of the transports. At length Kayphausen could contain him self no longer, but marching stiffly up to the admiral one day, he commenced - "My Lord, I know it is the duty of a solier to be submissive at sea; but, being entrusted with the care of the troops of his Screme Highness, my master, I feel itmy duty just to Inquirc if it be not possible that, during some of the dark nights we have lately had, we may have sailed past America?-Coop per's Residence in Frants.
