ABSOLUTELY PURE

The only Baking Powder made from Royal Grape Cream of Tartar

Saves Butter, Flour, Eggs, and makes home baking easy

No Alum—No Lime Phosphate

## Begging Food at Sea

Holy Ghost and U's Society Stop Passing Vessels.

New York, Oct. 2.—The steamer Lapland, which arrived yesterday, sighted on Friday afternoon, flying the signal "short of provisions, starving," the schooner-yacht Coronet, owned by Rev. Frank W. Sandford, leader of the Holy Ghost and U's sect of Shiloh, Me.

The Lapland supplied her with a boat load of provisions, but the

steamer's officers were unable to learn the circumstances which caused the Coronet's predicament.

The Coronet had on board 32 persons, including 8 women and 2 children, and had previously been provisioned, the Lapland's officers were told, by a French steamer. So far as they could learn the yacht was bound from African ports where Sandford had been presumably on one of his so-called colonizing missions, to Greenland, but on account of the reduced supply of food she had changed her destination to Portland.

## CHEAP UNDERWEAR!

along for him. He works hard and deserves to be cared for.

"Molassine" Cakes are just what he wants.

ASK YOUR GROCER for THEM.

## The Evening Chit-Chat

By MUTH CAMERON

"I think my mother ought to be called the 'where is it lady'." a quaint little boy once commented.

He was the youngest of a large family, and he had heard his mother so often appealed to in this way by the various members of the household that he had good reason for his suggestion.

I fancy there are a good many homes in which the 'where is it lady' might be one of the house mother's titles.

For I have myself observed not a few families where the habit of appealing to mother to find anything which does not come readily to hand is a fixed one.

Now, of course, a mother's mind would naturally be the best index of the home and a mother is inevitably a last resort to which to appeal when anything simply can't be found.

But here's the rub.

I think she should be kept as a last and not a first resort.

And a first resort is what she is frequently made. It is so much easier to say, "Where is so-and-so" and to throw the responsibility onto mother's mind, than to use your own brains; it is so much simpler to say, "I can't find something or other," and have mother come down or up and help you hunt than to go poking about by yourself, that many of us get into the habit of making no effort to do anything else.

"What have you done with that magazine I was reading last night," cries father. "It's gone and I was right in the middle of a story." And mother patiently gets up and finds it

right under father's elbow, hidden only by a newspaper.

"Where on earth is the tie that goes with my dress suit," calls big brother, and mother tolls up the stairs and finds it right in his handkerchief box, where he left it the last time he went to a wedding.

"Mother, I can't find my pumps anywhere. I'm sure Bridget did something with them when she swept," fulminates big sister. And mother leaves her sewing and locates the pumps in the closet, hidden only by the folds of sister's dressing gown, right where big sister might have found them very easily herself if she had only really tried before she called mother.

"Where is the milk bottle? How can I go and get the milk if you don't tell me where the milk bottle is?" sputters little brother. He has seen that milk bottle on the pantry shelf a dozen times, but, of course, mother gets up and gets it for him.

And all this means that that mother must bear all the body and brain tag that hunting for things means—and myself, I think there is nothing more tiring than hunting for things—which should be distributed over the shoulders of the whole family.

Now I believe that "I can't find it," and "Where is it?" are habits that all children fall into unless they are checked.

Both for mother's sake and their own.

A child who is taught to hunt for things until he finds them will have more self reliance and initiative than the child who gets into the "Where is it" habit.

A mother whose family does their own hunting for things instead of piling it all on her shoulders, will have less care to lessen her chances of becoming a happy old grandmother.

## Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

## Household Notes.

For cleaning and polishing irons, saturate a cloth with water, wring partially dry, rubbing soap thoroughly on it. Place on several thicknesses of paper. Rub iron over it several times, pressing hard, to remove starch and roughness. The result is surprising, as it makes the surface of iron perfectly clean and smooth.

Cover your huck dinner tablecloth with two squares of white oilcloth of the requisite size, binding the edges firmly with white tape. This will save constant washing of the cloth and keep it thick. Besides, there is not the danger of burning the polish on your table should a hot dish inadvertently slip and go over.

Very few people know that if they shrink stockings before wearing them they may be worn for a long time before holes appear. Simply soak your

stockings in very warm water, as in shrinking any other material. Even silk or very fine hosiery ones may be worn longer if treated in this manner before wearing.

If you would have your candles last almost twice as long as they usually do, try the following plan: Hold each candle by the wick and give it a coat of white varnish. Then put the candles away for a day or two to harden. The varnish prevents the grease from running and preserves the life of the candle many hours.

Some housekeepers keep a white paraffine candle handy on washday, and when making boiled starch shave a little of the paraffine into the hot starch or dip the end in the boiling liquid and twist it about a few times, so a little will melt off. This gives the ironed clothes a pretty gloss that is not otherwise obtained.

Cut up one bar of any soap in thin slices and add four quarts of boiling water. Boil until the soap is melted, then pour into a bowl or tin. When cool it will form a stiff jelly, which readily dissolves when used. You will find it invaluable for washing flannels, silver and china. The best results are obtained when the soap jelly is dissolved in tepid water.

## Sluggish Liver Action

Causes indigestion, constipation and bilious headache—Dr. Chase's Kidney-Liver Pills the cure.

"Sluggish liver has been my trouble," writes Mrs. I. P. Smith, Paris, Ont. "and I have been greatly benefited by using Dr. Chase's Kidney-Liver Pills. I have taken medicines from several good doctors, but none ever did me the same amount of good as Dr. Chase's Kidney-Liver Pills. I could not keep up and do my work if I did not use these pills when the bilious spells come on, and I have recommended them to many."

"Dr. Chase's medicines were about the only kind that came into my father's house 40 or 50 years ago, and they were always satisfactory."

Dr. Chase's Kidney-Liver Pills are prompt, definite and direct in their action on the liver, kidneys and bowels, and are therefore the most effective treatment obtainable for biliousness, indigestion and constipation. 25 cents a box, 5 for \$1.00, at all dealers, or Edmanston, Bates & Co., Toronto.

Mr. S. B. Kesner returned from an extensive business trip to New York, Boston and Montreal by yesterday's express. He ordered \$10,000 worth of footwear while he was abroad and will have it here next boat.

The fish drapery of the bodice is being used for evening and even for afternoon wear with the V-shaped opening at the neck.

## SCOTT'S EMULSION

is the near-nature treatment for Consumption.

The power it creates, its purity and wholesomeness are Nature's greatest aid in overcoming disease.

## Fireman Perished in Flames.

Quebec, Oct. 3.—Buried in the debris, the body of Fireman Labarre, of No. 4 Station, was taken out by his companions to-night at 10.30 from the ruins of No. 5 fire station which was utterly wrecked by a fire which broke out after one o'clock this morning.

The blaze was attended with a number of sensational incidents, the fire spreading so rapidly that the whole station was a mass of flames within a few minutes, and the occupants in the upper storeys being cut off by the blaze. Mrs. Savard, the widow of Fireman Savard, who was buried yesterday, had to jump from the third storey to save herself and has sustained injuries which may prove fatal; and Mrs. Lemelin and Messrs. Louis Lanoette and Telephone Savard, who also jumped, were more or less seriously injured.

While the firemen were at work the floors suddenly collapsed and four men were hurled into the cellar. All managed to escape except Labarre, who was pinned under a heavy beam and covered with the falling debris.

The occupants of the upper storey of the building had narrow escapes from death. The two women who jumped in an endeavor to catch the ladder which was a storey below them, were badly injured, but latest accounts from the hospital, were doing well. Mrs. Savard was caught in the rungs of the ladder and remained suspended, head downward struggling for some time in the midst of the flames which were bursting out of the windows. The fire is supposed to have started in the stables.

Masked Men Held Up Train

Battleville, Okla., Oct. 4.—The Missouri, Kansas and Texas passenger train, Number 29, from Kansas City to Oklahoma City, was held up by three masked men early to-day near Okesa, ten miles south of here.

The robbers entered the mail and baggage cars but got little of value. It is believed they did not enter the passenger cars, and escaped as soon as they had finished their work.

Two trunks full of valuable jewelry supplies belonging to a salesman for an eastern firm were put on the train here, but it had not been learned whether or not they were stolen.

A special train carrying a Sheriff's posse and bloodhounds has left here for the scene of the robbery.

## \$174,000,000 Required to Run New York City.

New York, Sept. 19.—It will cost \$174,000,000 to run the city of New York this year. To show how this immense sum is spent and also how much the various departments want to spend next year and invite intelligent criticism of these estimates, the city will lay out \$350,000 next month on an exhibit that will reveal the details of city administration in such simple form that they may be understood by the humblest citizen.

Figures prepared by the various departments show that the city employs 107,000 persons—\$5,000 of them all the time and 22,000 temporarily. The largest group of employees are the school teachers, who number 17,200. The police come next, with 10,118. The firemen number 4,348.

Care of the streets, parks, sewers, docks and bridges requires, 19,200. In winter 7,000 snow shovellers and drivers of snow removal carts are employed. The total pay roll of the city is \$48,660,021.

The largest single item of expense next to salaries and wages is "debt service"—that is, the interest on bonds issued for municipal improvements. This amounted to \$47,000,000 in 1910, and has nearly quadrupled since the great city was established in 1898.

MINARD'S LINIMENT CURE OPHTHETHEL.

## Evening Telegram Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

8924.—A NEAT WORK APRON.

No woman can have too many of these useful work aprons that cover the whole dress. The usual apron materials, such as percale, linen, gingham, calico and Holland are all suitable for the making. The front is in Princess effect and the side bretelles over the shoulder are always becoming. The Pattern is cut in 3 sizes: Small, Medium and Large. The Medium size requires 3 1/2 yards of 36 inch material.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Suitable materials for any of these patterns can be procured from AYRE & SONS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.

9050.—AN ATTRACTIVE DESIGN FOR THE YOUNG MISS.

Blue poplin with trimming of checked silk in blue and white was used for this model. A wide tuck near the armhole, gives breadth to the figure, and the pattern provides for long and short sleeves. Wash fabrics, cloth, silk or velvet may be used for this model. The Pattern is cut in 4 sizes: 6, 8, 10, and 12 years. It requires 3 1/2 yards of 27 inch material for the 6 year size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

PATTERN COUPON.

Please send the above-mentioned pattern as per directions given below

No. ....

Our Anti-nervous Penholders are very much in demand. Ink and Penel Eraser and Ink Emulators. Ink Wells, Sponge Cups and Mucilage Bottles—special makes. Pen Racks, Desk Knives and Paper Knives. Carter's and Stephen's Office Inks and Mucilage. Single and Double Ruled Account Paper. The Famous Inviolable Linen Bond Type-writing Paper, light, medium and heavy weights. Writing Tablets or Letter Pads in great variety. Headquarters for Envelopes—special prices. For large variety, high quality and low prices try the Popular Bookstore.

DICKS & Co

Why should I buy a roofing that needs to be painted every little while to keep it tight, when, for the same money or less, I can buy AMATITE which needs no painting?

The outer surface is composed of real zinc—no matter, which makes painting unnecessary.

With an Amatite Roof on your building you end your roofing troubles. When you buy a roofing that requires frequent painting you begin them.

Smooth roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.

FREE SAMPLE

We should be glad to send you this sample and booklet immediately.
