

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"
Made in Canada.

When using pink rhubarb for rhubarb sherbet, do not skin it. The dessert will be a beautiful color. Orange for marmalade may be made to go farther by adding one apple for every orange to the mixture. Separate and wash lettuce as soon as you purchase it. Put in a clean bag on ice to crisp until needed.

Weather Forecast.
Moderate winds, cool and unsettled with occasional showers.

Why Go Out Into the Rain Expecting Protection From a Sponge?

Rather a foolish supposition, you say; but nevertheless you do when you wear a raincoat in which the rain protection is embodied in the proofing of the outer cloth only, which absorbs the rain much as a sponge does, making a heavy, uncomfortable, dragging load for you to carry round.

These are the disadvantages that come with every coat that has not an oiled silk lining between the outer cloth and the cotton lining; the greatest feature in raincoat making and guaranteed rain protection that the manufacturers of

Blizzardeens

have yet devised. Why experiment with the sponge idea? It costs no more for BLIZZARDEEN protection.

Two colors: Navy Blue and Fawn. Belted at waist.

B-r-r-h! Here comes the sleet! A Blizzardeen—a warm, wool, fleece lining—Presto! an overcoat and a raincoat in one. We can make the combination for you in quick time.

The Kearney Guarantee Given With Every Blizzardeen.

HARVEY & CO., Ltd.

Legislative Council.

May 3.
The House went into Committee on the following Bills entitled:
"An Act respecting the effect and application of certain Acts subsequent to the Consolidated Statutes of Newfoundland (Third Series)";
"An Act to amend 'The Industrial Societies Act, 1919'";
"An Act to amend Chapter 41 of the Consolidated Statutes of Newfoundland (Third Series) entitled 'Of the Newfoundland Medical Board'";
which were adopted without amendment and will be read a third time to-morrow.

The Committee on a "Bill to amend 'The Food Control Act'" had to await some time, as the Hons. Mr. Mews and Mr. Anderson had something to say on the subject.
The Hon. Mr. Mews stated that he was a member of the Food Control Board, and was aware of the difficulties that body had to contend with. In speaking of the sugar shortage, he said that some 5,000 barrels would come here during the month. Speaking of conditions in general the hon. member said, there is here now an uncertainty and unrest that is alarming to him, and this unrest is principally felt amongst the salaried class. It is mainly this class that is feeling the H.C.L. The Profiteering Act to be introduced by the Government may have some effect, but then it is hard to define what is profiteering. Merchants are making money on one article and losing it on another. He thought that antagonism would do no good and best results would come by all working in harmony.

Hon. Mr. Anderson, in speaking on the bill, said he hoped that the three members added to the F.C.B. will help to arrive at a solution of the H.C.L. At the same time no bill has ever reduced it as much as the Daylight Bill. After a few remarks on the Daily News editorial, re the Daylight Saving Scheme, Hon. Mr. Anderson quoted an array of figures on dry goods, showing the tremendous increases that had taken place in the markets since the war began. He dealt also with local manufactures quoting boots in 1914 at \$3 per pair, and \$9.50 in 1920. Speaking of the coal situation, Hon. Mr. Anderson said efforts should be made to get the Bell Island ore boats to bring us coal. He hoped the Government would make an earnest effort to get steamers for this trade, and he was sure they would be self-supporting at it. He failed to see why people are to-day charged \$3.00 for a ton of soft coal. Living, said Mr. Anderson, has increased here from 120 to 150 p.c. above pre-war rates, and as we are overtaxed about 30 p.c. he thought the Government should grapple with the H.C.L. by reducing taxation on commodities that pay an ad valorem duty. He gave the bill his heartiest support and it was adopted without amendment to be read a third time to-morrow.

The second reading of a Bill entitled "An Act respecting the Department of Public Works" was deferred.
The Leader of the Government, Hon. G. Shea, asked permission to lay on the table Reports of the Church of England and Methodist Schools, and also various papers connected with the Treaty of Peace.
The House adjourned till Wednesday.

DEAFNESS

AND NOISES IN THE HEAD
If You Are a Sufferer—Go to your Local Druggist and order "Concentrated Soudal" price \$1 per tin. This new remedy gives almost immediate relief, and quickly effects a permanent cure. It penetrates to the actual seat of the complaint, and has completely cured many cases which were considered hopeless. If your chemist does not yet stock "Soudal" do not accept any substitute, but send money-order for supply direct to the "Soudal" Distributing Co., 38 Station Road, Croydon, Surrey, Eng., and a package will be mailed per return with full directions. dec16,521,tues

If layer cakes get hard and stale, they have probably been baked too long; 20 minutes in a hot oven is enough.

A Gift
A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.

Those Pearly Teeth

Learn how people get them

All statements approved by high dental authorities

Millions of people have adopted a new teeth cleaning method. Wherever you look you see pearly teeth nowadays. Let this ten-day test reveal what this method means to you.

End the cloudy film

Most teeth are dimmed by film. A viscous film clings to them, enters crevices and stays. Most tooth troubles are now traced to it.

It is this film-coat that discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea, and very few people escape it.

The ordinary tooth paste does not dissolve it, so the tooth brush does not end it. Thus most people suffer from that film.

Now dental science, after years of searching, has found a way to combat it. Able authorities have amply proved its efficiency. Now leading dentists everywhere advise it, and millions of people have come to employ it.

Everyone is welcome

Now this new method is embodied in a dentifrice called Pepsodent. And everyone is welcome to a ten-day test.

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has found a harmless activating method, and pepsin can be every day applied.

Two other new-day requisites are combined in Pepsodent. So this method in three ways brings unique results, and everyone should know them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. It will be a revelation.

Do this for your sake and your family's sake. Judge the method by results. Cut out the coupon now, for few things are more important than whiter, safer teeth.

Here and There.

Everybody's asking for Pure Gold Chocolate Pudding.—ap30,1m

TELEGRAPH WIRES INTERRUPTED.—As a result of the storm the telegraph wires along the railway line were interrupted last night.

BROUGHT LARGE FREIGHT.—A very large freight some 2000 tons was brought by the Digby yesterday from Halifax. The ship will have an outward cargo of 1400 tons of pulp and paper, for England.

JUST ARRIVED:—Spruce and Cedar Shingles, also Palings, now selling at Lumber Yard, Springdale St. B. BOWERING. apr29,31,60d

COLLEGIAN FOOTBALLERS TO MEET.—The Collegian football team meet to-night for the election of officers for the coming season. The Collegians expect to put in a strong team for this season's games, and incidentally carry off the championship.

TO-NIGHT'S DANCE.—A special programme of music has been prepared by Bandmaster Capt. Morris for to-night's C.L.E. dance to be held at Spencer College Hall. Quite a number of tickets have been sold and the affair promises to be very successful.

AT THE BALSAM.—The following are guests at Balsam Place:—E. Sweetman, Botwood; Lloyd Hurst, Bay Roberts; R. B. LeDrew, Hr. Grace; Walter Hayes, Hr. Grace; Sidney D. Cook, Curling; B. A. Norris and wife, New York; F. F. Murphy, Placentia.

Fish, if it can be obtained fresh, should be used in place of meat as the weather grows warmer.

Household Notes.

Boston brown bread served hot for luncheon is a real treat for the children.

The larger a loaf of cake, the lower the temperature of the oven should be.

Chopped orange peel, candied and mixed with nuts, makes a delicious confection.

When making fruit ice cream, boil

LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.
