Capt McMicking's score (97 out of a possible 105) is the highest that has ever been made by a Canadian for this prize, and is a good performance with any rifle under any circumstances. THE PULPIT AND THE PUGILISTS.

Proposed Fight.

St. Paul, Minn., July 20.—It was announced from the cathedral pulpits yesteriay that Archbibthop Ireland, Bishop Gibert and many other prominent divines would thus evening address a mass meeting at the Newmarket Theater denouncing the brutal exhibition to be given under the name of "athletica" at the West Seventh street pavilion Wednesday evening, when the Hall-Fitzsimmons fight is to take place. In seven churches yesterday the subject of the sermons was "Puglism." Hall, Fitzsimmons and Mayor Smith were severely censured. The pastors sent Mr. Noyes, a member of the Chamber of Commerce, to Mayor Smith with a petition that the head of the city government stop the fight. Mayor Smith declined to interfere, but informed Noyes that the "mill" would be conducted within the law. The promoters of the mass meeting say if their prayers go unheeded they will cause the arrest of Fitzsimmons and Hall, the officers of the Minnesota Athletic Club, the mayor and the sporting editors of the newspapers.

THE WORLD'S HARVEST.

Its Prospects Summarized by the Lon-LONDON, July 20.—The Times sum-arizes the harvest prospects of the world sollows:

marizes the harvest prospects of the world as follows:

In Russia there is a grave deficit. The peasantry are starving, and there is small hope of relief.

In India a serious drought prevails over a considerable portion of the country. Madras, Ragupatha and the Paunjab are the worst sufferers. There is drought in Bengal and the need of more rain is urgent. Bombay alone promises a good harvest.

The American harvest will be good in quality and will likely offset the failure of the Indian and Russian supplies.

It is of the utmost importance that the English crop shall not be short. The prospect on the whole is good. In the chief wheat counties—Essex, Norfolk and Suffolk—the crop is above the average, and in other counties up to the average. The harvest will be late and prices will be high. There is, therefore, a good outlook for the English farmer to break the long series of disastrous years. disastrous years.

Good Advice for a King.

The deceased was about 35 years old and leaves a family of eight young children. Some of the children were playing around the table where she was ironing at the time. She was struck, but none of them were injured. Her husband, Daniel McIntyre, just settled in the township about two weeks ago.

The Triple Alliance.

Berlin, July 20.—Lord Salisbury's adhesion to the triple alliance appears to have been made with due regard to the protection of English interests in Egypt and India. Only a partial indication of the drift of the entente concluded at Hatfield House has transpired, but enough is known to suggest that Lord Salisbury obtained assurances from the Emperor that the Franco-Russian projects against England's possessions in the East will be met with open German support of England. An entente is thus catablished all round, the arrangement aiming at an Aslatic as well as an European equilibrium.
