announced shortly after he and his brother had escaped from the Lon-don jail, where they were waiting to be tried on a charge of murder arising out of the attempted bank robbery at Melbourne. The escape took place in September, 1921, and the money was offered for the arrest or for information leading to the arrest of either of the men. Several weeks ago Sheriff Carter arrested a man on the charge of stealing an automobile and, after having taken his fingerprints and Bertillon measurements, it was found that the auto thief was none other than the much wanted and lost Sid Murrell. Since that discovery Murrell has been kept under close guard and is awaiting either extradition or deportation, applications having been
