THIRD OF BANCOR CITY WAS BURNED

Two Lives Lost, Forty Blocks Destroyed and Over A
Thousand People Are Homeless

MARTIAL LAW PROCLAIMED

Bangor, Me., May 1—Property valued at upwards of \$6,000,000 was destroyed and thousands of people rendered homeless by a terrible fire which raged here yesterday.

At 8 a. m. today the fire was virtually extinguished and no further spread of the flames was anticipated. One-third of the city had been destroyed, including about forty city blocks, and some of the finest homes in the residential part of Bangor, all of the public buildings with the exception of the city hall and the greater part of the retail business section.

Estimates of the loss varied and were problematic, although it was generally thought at least \$6,000,000 worth of property had been destroyed. The loss of life, so far as known this morning, was confined to two persons, and only half a dozen injured ones had been admitted to the hospitals.

To aid the police in the protection of the little heaps of furniture and clothing saved from the fire by individuals, one company of militia men patrolled the burned district and effectually prevented all attempts at looting the ruins.

I. C. R. PICTURES

ARE APPRECIATED

And Help to Advertise Attractions of Eastern Canada.

The Intercolonial Railway has just completed the distribution of an issue of very handsome framed lithos of the famous summer train the "Ocean Limited," and many appreciative letters are daily being received from shippers and other patrons of the railway in Quebec, Ontario and the West, where the distribution was in large measure confirmed.

The picture shows the Ocean Limited rounding at full speed one of the curves of the shore at Bedford Basin. It is a beautiful scene and the coloring is a very faithful representation of the true loveliness of the verdure, and the shimmering hue of this picturesque ocean inlet.

Prominent display is being given these pictures in hotels, public buildings, Telegraph and Express offices, and in many places where the travelling public is most likely to notice them and be charmed accordingly.

They should play a prominent part in calling the attention of travellers to the attractions of the Maritime Provinces, and the advantages of the route traversed by the I. C. R. and form another important link in the chain of publicity which the Intercolonial has in recent years given to Eastern Canada.

In the whole county only about a dozen cases remain of the four hundred. At Fair Isle and Legaceville and Neguac, there were seventy-five cases and the disease there has been stamped out. There are two or three cases at New Jersey and the Grand Downs still under quarantine there. Col. Maltby has placed guards on the roads leading to Kent county to prevent fresh infection from that quarter.

Amatite ROOFING

Why the Buyer of Amatite Never Complains

When a man buys ordinary ready roofing he usually neglects to paint it and after three or four years he comes back to the dealer with a protest. It is human nature to neglect painting roofs.

When a man buys Amatite Roofing he lays it on his building and in three or four years it is still as good as new and does not need any paint. He forgets he has such a roof but no harm is done by that.

There is nothing to neglect in the case of Amatite. Amatite has a peculiar surface—a sort of plastic

Everjet Elastic Paint

A lustrous carbon black paint, very cheap, very durable—for protecting all kinds of metal and wood work.

concrete made of pitch and mineral matter.

This surface is plastic enough so that the material can be rolled up into handy rolls in the usual manner and handled just like any other ready roofing. When unrolled on the roof and nailed down it presents to the weather a continuous surface of mineral matter and pitch. On this surface wind, rain, storm, heat and cold have little effect. Year after year it looks up to the sky undisturbed and unaffected. It costs nothing to maintain and relieves the owner from all responsibility.

Dealers can improve their business by selling Amatite and buyers make a good bargain when they buy it. The price of Amatite is less than that of most painted roofings of less weight and durability.
