MONTEREAL, June 27. - Absolute proof has been discovered that Thomas Neal, now in
London charged with poisoning Matilda
Cloevy, is Dr. Thomas Neill Cream, native of Quebec City, who was graduated from McGill College in Montreal and who was sentenced to a life term in state's prison for abortion.
Thomas Neill Cream, although he has lived the most of his life on the American continent, was born, so the register of Mc Gill College says, in Glasgow, Scotland on May 27, 1850. While still a young lad his parents emigrated to Canada and settled in the ancient city of Quebec, where old Mr, oble to bo mise failed to like still a young lad his ponter. As he showed considerable intera ability his father decided on sending hin to Montreal to study at McGill College for the profession of medicine. Suspicion pointed strongly to Cream as the person who had performed the operation, but the evidence was not considered conclusive enough to warrant the arrest of the suspected physician. How ever, public feeling was so stirred up against Dr. Cream that he loat his entire practice and was compelled to leave Kingston.
He then took up his residence in Hamilton, Ont. Here again his illegal practices
