NOTE AND COMMENT

"Secrets of the Movies Revealed," reads a headline in a Buffalo paper. Recent developments would indicate that they have been holding out quite a lot of stuff on us.

Limerick grocers have been fined by a Sinn Fein court for selling British jams and soap. If British traders were forbidden to sell Irish beef, bacon and butter the new-found agricultural prosperity of Ireland would vanish in a night.

C. C. Boswell, of Missoula, Montana, a copper millionaire several times over, went to sleep in front of the Cadillac hotel, Detroit, one evening last week, and when he woke up he found 40 cents in his hat. The money had been contributed by sympathetic passersby, who mistook the millionaire for a beggar.

Men domestic servants is the latest thing in Ottawa and they are said to be making good in a department that women hitherto have regarded as exclusively their own. The probable explanation of this is that about the only form of labor in which there are applications that cannot be filled is domestic labor.

Automobile murdering is continuing with regularity and despatch. Nearly every day has a record of from 1 to 10 in the daily press. Too big a hurry and a disregard for the rights of the pedestrian are two elements in the havoc wrought, plus a carelessness on the part of fool drivers and poor judgment often on the part of the party bumped. A jump from a rapidly moving car and landing head-first on the pavement or highway cannot be placed in the list of jokes. Its too serious a matter to be trifled with.

Huntsville Forester:—Boys of very tender years are found out at late hours and under no apparent restraint whatsoever. They enter gardens and help themselves with the same freedom they would expect to be granted at their own home table. And the tragedy of it is that they appear to have no understanding whatever, as to such actions being unlawful or improper. The curfew bell at nine throughout the summer and at eight throughout the winter and a careful enforcement of its dictum would serve to improve the home control of boys, and girls, whose unrestrained liberties are a menace to themselves and an annoyance too frequently to others.

It is always a mistake to be in a hurry for success. Plenty of people are on the right road and moving steadily toward their goal, when they begin to fret because recognition is slow in coming, or the financial returns are not what they expected. This impatience has a different effect on different people. Some get discouraged and stop trying. Others turn their attention to something else. And others still come to the conclusion that if industry and earnestness are not enough to secure success they will try other methods. Much of the dishonesty in the world is due not to inherent evil, but to being in a hurry for riches and what riches will buy. Success cannot be forced to bloom, like a hot house plant. It takes its time to develop and impatience instead of hastening it, is the surest way to destroy it. Do not be in a hurry for success. Go tranquilly on your way to meet it remembering that the plants which are slowest to come to maturity, live the longest.—Acton Free Press.

RUPTURE EXPERT HERE

Seeley, Famous in this Specialty, Called to Sarnia.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Vendome Hotel and will remain in Sarnia Thursday and Friday, Oct. 6. Mr. Seeley says: "The Spematic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects—immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington D. C., for inspection. He will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P.S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

An order governing the wages to be paid female employees in retail stores in Ottawa, Hamilton and London has been issued by the Minimum Wage Board of Ontario. The lowest wage prescribed, that to be paid inexperienced girls under eighteen years of age is \$8.00 per week, with an increase of \$1.00 per week after each six months' period until \$11 is reached. The minimum wage for experienced adults is placed at \$12 a week, and for inexperienced adults at \$10 for the first six months and \$11 for the second six months. It is provided that the number of inexperienced adults or young girls shall not exceed 25 per cent. of the total female working force unless there are fewer than four in such a force. No decision has been reached by the Board regarding wages in smaller centres, for the reason that practically all the young women employed in stores in towns and villages live at home and no boarding house rate is discoverable. The Board will conduct an inquiry into the cost of living in such centres before determining upon a minimum wage scale.

There were plenty of refreshment stands and with the numerous kiewpie games gave the grounds a busy appearance and all appeared to do a good business. The big musical merry-go-round was a popular form of amusement for the children. There was not a single questionable amusement in the ground. The Henderson Juvenile Kilties of London, entertained on the platform with fancy dancing and bag pipe playing. They are clever little performers and were loudly encored. The judges of the baby show had a different job but they failed in a decision and all three entries were given first prize. They were the babies of Mrs. Edwin Salt, Mrs. Albert Norman and Mrs. Herb. Kersey.

The Department of Agriculture, Petrolia, had an interesting exhibit of bugs and insects, among them specimens of the much talked of corn borer, and specimens showing the working and damage done by this pest. The entries numbered about 1500; the total receipts \$1384.00. The directors will meet on Saturday, Oct. 29th after which prize money will be paid. Prize winners must apply to the Secretary before Dec. 31st. That portion of the crowd which remained in town until evening were well entertained at the two concerts where good programs were presented. Also at the dance given in the Armory by the Daughters of the Empire where the young people engaged in dancing to the excellent music given by the Alexandra orchestra of Sarnia. The proceeds \$160, after deducting expenses, will go towards the new skating rink.

MUCH ILL HEALTH DUE TO BAD BLOOD

If the Blood is Kept Rich and Red You Will Enjoy Health.

More disturbances to health is caused by weak, watery blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment and you may be troubled with insomnia, neuritis, neuralgia, or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders try building up the blood with Dr. Williams' Pink Pills. These pills have a special action on the blood and as it becomes enriched your health improves. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the experience of Mr. D. J. McDonald, North River Bridge, N.S., who says: "For some years I suffered severely with headaches, pains in the back and a run-down condition. At times the pain in my back would be so bad that I would sit up in bed all night. From time to time doctors were treating me, but did not give me more than temporary relief. And then one day when I was suffering terribly a neighbor came to see me, and urged me to try Dr. Williams' Pink Pills. After taking two boxes I felt relief. I got five boxes more and before they were all gone I felt as though they were giving me new life as in every way they built up and improved my health and strength. I am now working as a barker in a pulp mill, ten hours a day and feeling none the worse after my day's work. I say with pleasure that this condition is due to Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills from any dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

One train load of grain on the C. P. R. at Fort William was three-quarters of a mile long and contained 85,000 bushels.

East Lambton Fall Fair

Favorable Weather, Numerous Exhibits and Large Attendance.

The officers and directors of the East Lambton Agricultural Society were favored with ideal weather for the fall fair held at Watford on Thursday and Friday of last week. The attendance was good, the exhibits numerous and the races interesting. The exhibits, especially in horses and cattle, were filled as well as usual, and the work of the judging of these was watched with keen interest. In the poultry department there was a good display but the competition was not great. Roots and vegetables dairy products, domestic manufacture, grains and seeds, flowers and fruit were very fine but not numerous, especially the latter, but were all favorably commented on. The ladies' work and domestic manufacture display although not as large as some previous years, was greatly admired by the ladies. The dairy class was not filled, in fact was exceedingly light. In the downstairs of the main building three piano firms made a display, Mason & Rich shown by Harper Bros.; Heintzman & Co., and Grinnell Bros.

Outside the buildings was a good display of autos by local dealers. Williams Bros showed the Overland, J. H. Humphries the Chevrolet and Ray Morningstar all the makes of Ford cars and also a Fordson tractor which was kept in motion driving a thrashing machine, and attracted a fair share of attention from farmers.

There were plenty of refreshment stands and with the numerous kiewpie games gave the grounds a busy appearance and all appeared to do a good business. The big musical merry-go-round was a popular form of amusement for the children. There was not a single questionable amusement in the ground. The Henderson Juvenile Kilties of London, entertained on the platform with fancy dancing and bag pipe playing. They are clever little performers and were loudly encored.
