

HOPE, ANTHONY, author of the "The Prisoner of Zenda," "Simon Dale," etc.

Rupert of Hentzau, a sequel to "The Prisoner of Zenda," illustrated by Charles Dana Gibson. Crown, 8vo., Cloth, \$1.50; Paper, 75 cents.

In "Rupert of Hentzau" Anthony Hope utilizes the same romantic *scenarium* that stood him in such good stead in "The Prisoner of Zenda," and he peoples the creation of his fancy with the same individuals who gave life to his former book. Never in the history of fiction has it been more aptly proved that "there is always room at the top." "The Prisoner of Zenda" at once leaped into popularity because it brought with it a novelty and freshness that was piquant even to the most jaded novel-reader. For the sake of the cleverness of its illusions, readers were content to shut their eyes to its improbabilities, particularly when page after page, from beginning to end, proved to be of the most absorbing interest. The world is always ready to read a story of courage and daring, and there is even more exemplification of these qualities in "Rupert of Hentzau" than there was in "The Prisoner of Zenda." We have here the self-indulgent King, and his highly gifted and alert double, Rudolf Rassendyll, the ill-fated Queen, with her romantic attachment to her chivalrous admirer, the grizzled old soldier Sapt, and his faithful attendants on the one side, and on the other the redoubtable and unscrupulous Rupert, acute in planning, daring in execution, a good swordsman and an utter villain. The atmosphere, now of the city, and now of the forest, is so well kept up that a realistic air is imparted to the story such as makes the reader feel that he is a spectator at a living, moving scene of actual life, rather than the mere reader of a printed page. The dramatization of "The Prisoner of Zenda" has rendered the figures of that story familiar to everybody. Of Rupert of Hentzau it may be said that he will be familiar to everybody before he is dramatized.

HAWTHORNE, POE, AND IRVING

In Little Masterpieces: *Flexible Cloth, 16mo., with Gill top, the three volumes in a box. Per volume, 40 cents.*

These volumes comprise the most characteristic writings of each author, carefully selected and edited by Professor Bliss Perry, of Princeton University. They are of such a handy size as to commend them to all lovers of literature who like to have some of their treasures in a small compass.

This series is already being used in University of Chicago, Northwestern University, Cornell, Yale, Princeton, and other institutions. We quote a few of the hundreds of favorable criticisms received from the press and others.

"These are indeed masterpieces, and every lover of really good literature will wish to possess these attractive little volumes."—*Philadelphia Inquirer*.

"The publishers are doing a real service to literature in sending out these dainty little books, for they will appeal to thousands who have neither time nor inclination to take up larger works."—*San Francisco Chronicle*.

"Lack of time cannot serve as an excuse for not reading these carefully compiled selections."—*Public Opinion*.

"The form and the general air of the typography are here much to be praised for their attractiveness, and Professor Perry's graceful introduction is full of insight."—*The Nation*.

"In truth, the little books are models of bookmaking and cheapness."—*Prof. J. M. Hart, Cornell Univ.*

"The introductions, the selections themselves, and the garb in which they appear are to be commended."—*Prof. Enoch Perrine, Bucknell Univ.*

"I wish to thank you for issuing such a handsome volume at so small a price, and to express the hope that you may issue many more of such literary gems."—*Prof. E. P. Cuddeback, Supt. City Schools, San Diego, Cal.*

"I shall look out with interest for future volumes."—*Prof. Kenneth McKim, Union College.*

"They are by far the most artistic and well-printed books issued at the price; they could hardly be better at any price. The reproductions of steel-engraved portraits of our two famous authors are alone worth the figure."—*Philadelphia American*.

"Each volume contains a judicious and intelligent introduction from Professor Perry, who is, far more of this kind and for other kinds of work a well-one of the best-equipped and most promising of our younger students and teachers of literature. The selections are thoroughly representative, and the books extremely attractive in form."—*The Outlook*.

"We made the acquaintance of these masterpieces long ago—they are new old friends—but we welcome them in their new dress. Mr. Perry has chosen well. For instance, only Hawthorne could have written 'Sleepy Hollow,' and Poe is never far from himself away from 'The Fall of the House of Usher.'"—*Rocheester Express*.
